Honors obtained in the various branches were 43, and during the years 1904, 1905, 1906 the honors obtained in the various branches by the senior students numbers 110.

A SPRING NEED.
Weak, Tired and Depressed People
Need a Tonic to Put the Blood Right.

Spring blood is bad blood. Indoor life during the winter months is responsible for a watery, impure blood. You need a tonic to build up the blood in spring just as much as the trees need sap to give them vitality for the summer. In the spring bad blood shows itself in many ways. In some it breeds pimples and eruptions. In others it may be through occasional headaches, a variable appetite, perhaps twinges of neuralgia or rheumatism, or a lazy feeling in the morning and a desire to avoid exertion. For the spring ailments it is a tonic you need, and the greatest blood-making, health-giving tonic in all the world is Dr. Williams' Pink Pills. Every dose helps to make new, rich, red, health-giving blood, which reaches every nerve and every organ in the body, bringing health, strength and energy to weak, dependent, ailing men and women. Here is proof: Mrs. Geo. Merritt, Sandy Cove, N. S., says:—"I was weak, feeling miserable and terribly run down. The doctor whom I consulted said the trouble was anaemia, but he did not help me. A friend advised me to take Dr. Williams' Pink Pills and it is simply impossible for me to overestimate the good they have done me. I shall always recommend them to ailing friends."

But if you want new health you must get the genuine Dr. Williams' Pink Pills for Pale People, manufactured in Canada at Brockville, Ont. Other so-called pink pills are fraudulent imitations. The genuine Dr. Williams' Pink Pills are sold by all reputable medicine dealers or sent by mail at 50 cents a box or six boxes for \$2.50 by writing the Dr. Williams Medicine Co., Brockville, Ont.

Fire at Stratroy.
Stratroy, March 11.—Fire broke out Saturday in the back part of Mrs. Frank Harrison's residence, North street, but owing to the prompt action of the firemen, the fire was soon under control without very great loss.

Mr. John A. Stewart, successor to Harrison & Son, had his household goods stored in the back of the house and they were badly damaged, with no insurance. The house is fully insured.

A BUSINESS EDUCATION

will be of value to you, no matter what your life work may be. You may not wish to follow Commercial pursuits, yet the training received will be valuable in any calling. We offer you the benefit of practical courses and of experienced practical teachers who give their whole time to the work of the class room. This means something to the student. Write to-day for our catalogue.

TORONTO.
Toronto, March 12.—Trade was good at the western cattle market this morning. The run was 63 cars, containing 955 cattle, 469 sheep and lambs, 290 hogs and 185 calves. The general quality was well up to the average, some dealers being unable to procure the poorer quality they desired.

Export cattle—The market for exports was firm, there being very little offering, \$5 25 was given for a few, weighing around 1,100 pounds.

Butcher cattle—Butchers sold well this morning, as high as \$5 being paid for choice stuff. A milker was sold for \$50.

Annual Meeting.

The annual meeting of the Watford cheese factory was held in the Orange Hall on Thursday last and was largely attended. Mr. Barr, Dairy Instructor, was present and gave a very instructive address on the care of milk and best breeds of cattle to keep for the production of butter and cheese. He drew attention to the fact that the returns from the Watford factory in yield from milk and prices obtained were exceeded by very few factories in Ontario, and were considerably above the average.

The Secretary-Treasurer's report showed that the amount of milk received at the factory was 1,170,535 lbs., from which was made upwards of 110,000 lbs. of cheese, which netted the patrons \$1000.00 or an average of 89.43c per cwt. for milk for the season, being an advance of 14c per cwt. over last year. The average price per lb. for cheese for the season was 11.84c and the average yield was 10.62 lbs. of milk to a pound of cheese.

Mr. Richardson installed a butter plant in November and has made butter since that time. Butter-making, in addition to cheese-making, will be continued during the summer which will be a convenience for those who prefer to keep their milk on the farm and send the cream to the factory.

The area served by this factory is rapidly extending and under the good management and honest dealing of R. J. Richardson bids fair to be the peer of any factory in Western Ontario.

The officers elected for the present year were—R. J. Richardson, manager and salesman; Truman Sifton, auditor; and W. A. Graham, Secretary-Treasurer.
