

You Get Bilious

Because Your Liver is Lazy

You get a bilious attack when your liver refuses to do its work. The bile does not flow. You become constipated. Food scours instead of digesting. You have that "bitter as gall" taste. The stomach becomes inflamed and inflamed turns sick—vomiting, and violent headache. The best preventative and cure for biliousness is Chamberlain's Tablets. They make the liver do its work—strengthen the digestive organs, and restore to perfect health. 25c. a bottle—All Dealers and Druggists, or by mail.

Chamberlain Medicine Company, Toronto.

The Average Man

The average man is one who is temperate and unselfish and a good provider. He is one who has good health and an average amount of wealth. He should be one who is ambitious and steady and one who can turn his hand to anything. He should be fond of his wife and family if he has them and aid them in every way possible. He is one who will carry in the wood and water and carry his wife's breakfast to bed.

The average man is one that uses moderation in all things pertaining to his physical welfare. He is one who is fairly good looking, clean and tidy with himself, and one who respects the ladies, and is a fair living man.

The average man is one that looks on the bright side of life, and enjoys entertaining and being entertained. He is one who is not so tied up with his own affairs but that he can take a day off and take his family on a vacation.

He should be one who respects religion, and is able to control his temper. And he is a helpless creature without a woman. The average man is fond of good things for his stomach, therefore he likes a tidy woman and a good cook.

One tenth of the marriage licenses issued in Philadelphia are never returned to the bureau from which they are issued.

After 10 Years of Asthma. Dr. J. D. Kellogg's Asthma Remedy proved the only relief for one grateful user, and this is but one cure among many. Little wonder that it has now become the one recognized remedy on the market. It has earned its fame by its never failing effectiveness. It is earning it to-day, as it has done for years. It is the greatest asthma specific within the reach of suffering humanity.

Economical Milk Production

Dominion Department Of Agriculture
Dairy Branch

The manufacturer perhaps more than the retailer lacks closely after the matter of cost knowing that his principal hope of making a good profit lies in attaining economy in the actual production of the article, for no profit can be expected if the selling price is below the cost price.

Is not the dairy farmer a manufacturer? So it would seem to be wisdom to look the more closely after cost especially as he does not expect the selling price of milk to soar. Assuming that the farm is in good condition and carefully handled, what does milk cost per hundred pounds? That can be ascertained only by keeping records of each individual cow.

This is all the more necessary because "men and cows" were deceivers ever." They may appear to be good heavy producers, but their value as economical producers can only be determined when their yield of milk and fat is checked up by the scales and test. Of what use is it when the factory pays 95 cents per 100 pounds to keep cows whose milk costs \$1.25 per 100 pounds just for feed alone? This is what often happens till cow testing is taken up. Milk and feed record forms are supplied free on application to the dairy division, Ottawa.

It is quite possible to have one dollar's worth of feed return two dollars worth of milk through good cows that is cows selected by the test. This is both economical and profitable milk production. The average cow is not an economical

producer because she has not been selected, but, like Topsy, "just grewed." A dairy farmer will prove his business ability as a manufacturer when the herd is composed of economical producers. Make each cow pay a good profit.

A Great Curse

One of the greatest curses of this intellectual age is the great lack of a proper education of our girls in the practical affairs of every day life. They all want to be "school marm's," governesses or the wives of rich men. House-work which should form the basic principal of our economic life, is shunned by them as something degrading. A young woman will stand behind a dry goods counter nine hours a day for a mere pittance, lose her health, become anemic and unfitted for the performance of her natural duties, rather than accept a position as a domestic where she would have a comfortable home, good health, and become properly fitted for the duties of a wife and mother.

The spiritual advance made by man is seen chiefly in this, that so much of the money he earns goes to the ministry of refinement, education, embellishment, to the wife and children he loves. But the woman sees no money for her toil. Her sufficient, her ample reward is in a husband, content, happy, growing in grace; in children bounding to gracious maturity.

There is just as much reason that a man should work within the house as there is that a woman should work outside the house. He is just as well qualified to work indoors as she is to work outdoors. It is just as much his duty to do the one as it is her duty to do the other. But it seldom or never occurs to his wife to ask him to do it, or to think that he ought to do it.

Death Not So Bad

The brimstone-preaching minister had been called upon to preach before a congregation known for their liberal views, and consequently careless way of living. Sounding a warning which he thought would strike home the minister said:

"Hell, my friends, is lined with poker players, men and women who drink to excess, painted daughters of Jezebel, women in décolleté gowns and divorcees and the like." At that point a little red faced man with a high pitched piccolo voice, arose in the rear of the room and piped out:

"Oh, death, where is thy sting?"

HAVE YOU A BAD SORE?

If so, remember these facts—Zam-Buk is by far the most widely used balm in Canada! Why has it become so popular? Because it heals sores, cures skin diseases, and does what is claimed for it. Why not let it heal your sore?

Remember that Zam-Buk is altogether different to the ordinary ointments. Most of these consist of animal fats. Zam-Buk contains no trace of any animal fat, or any mineral matter. It is absolutely hebel.

Remember that Zam-Buk is at the same time healing, soothing, and antiseptic. Kills poison instantly, and all harmful germs. It is suitable alike for recent injuries and diseases, and for chronic sores, ulcers, etc. Test how different and superior Zam-Buk really is. All druggists and stores at 50c. box. Use also Zam-Buk Soap. Relieves sunburn and prevents freckles. Best for baby's bath. 25c. tablet.

Big Gusher Capped

OIL SPRINGS, June 11.—The immense gusher of the Oil Springs Oil and Gas Company, after allowing \$50,000 worth of natural gas to escape into the air, is at last capped. Gangs of men working for several days continually were unable to plug the mouth of the well, with the pressure such as to cause a flow of 30 million cubic feet of gas a day.

Several "packers" were used up in the process, and twice the packer exploded. Finally a special device was ordered from a Pennsylvania gas firm and with it, under the direction of W. H. Aikens, of Brantford, part owner of the well, the operation of capping was successfully carried out.

There has been no diminution of the pressure, and the well, now that it is harnessed, is worth an immense sum. Casings of various sizes, filled with water in between, hold the fluid in leach, and it only remains to install pipe lines and tap the inexhaustible supply.

The use of Miller's Worm Powders inures healthy children so far as the ailments attributable to worms are concerned. A high mortality among children is traceable to worms. These sap the strength of infants so that they are unable to maintain the battle for life and succumb to weakness. This preparation gives promise of health and keeps it.

A Little of Everything

England, Germany, Belgium, Italy, Denmark and Russia have schools of gardening for women.

An aluminum covered cloth which reflects light without heating has been invented for automobile tops.

The world's largest rubber tree is in Bolivia, having a trunk 27 feet in circumference, about twice the usual size.

Queen Maude, of Norway, has a hobby of collecting press clippings that give inaccurate accounts of her doings.

An automatically governed, electrically driven air compressor has been invented for filling automobile tires in garages.

Fashionable women in London are now carrying black handkerchiefs with their initials embroidered in the corners.

A glass of water placed in the bottom of a piano will help to prevent the wood warping and to keep the instrument in tune.

Coating eggs with a paste made of sea salt, vegetable ashes and water, Chinese ship them long distances in good condition.

To the bottom of a recently patented ladder is an adjustable curved brace so that it may stand firmly on an uneven surface.

Heavy wind blew the 200 barrel tank house down at Merlin. It was situated behind the Methodist church and belonged to G. C. Marshall.

Wallaceburg council has awarded contracts for a new waterworks system, including mains, distribution service, pumping station, tower and fountain.

Don't get "het up" during the coming campaign and quarrel with your neighbor because he votes different from you. Every man has a right to vote as he pleases.

While working at the saw mill on Wednesday, Mr. Wm. Wright of Ailsa Craig, fell and injured his leg so badly that 15 stitches were required to close the wounds.

One of the commonest complaints of infants is worms, and the most effective application for them is Mother Graves' Worm Exterminator.

Queen Victoria of Spain is the most extravagant and best dressed queen in Europe. She buys her dresses in Paris and spends no less than \$40,000 a year just for clothes.

The Society of the Garden of Jenny, founded eleven years ago by a few charitable women in France, provides more than a million gifts annually to shop girls in that country.

Using antennae mounted in pairs on a wooden tower erected on a hill, a Spanish electrician has succeeded in drawing electricity from the atmosphere at a pressure of 6,000 volts.

Wm. Mackrell, of the Blind Line, Ennis, had a three-legged chicken hatched on Monday. The third leg had six toes instead of the regulation three but otherwise the youngster was normal. It lived only six hours.

A careless smoker came near causing the destruction of Chas. White's barn on the 2nd Con. road of Mersea, Saturday forenoon last about 11.30. He dropped a lighted match in the closet adjoining the barn, which ignited the paper and set fire to the closet from which it jumped to the barn. Fortunately willing hands got to work and extinguished the blaze.

A wonderful hen turkey has been discovered on a farm near Hensall. The bird, according to its owner, has been laying an egg each day for the past three weeks, with the exception of Sundays. Rain or shine, wheat or brannish, no inducement can make the religiously inclined one lay an egg on the Sabbath. The farmer does not pretend to have trained the fowl, but insists that it is a fact that not a day except Sundays has been missed in the last three weeks.

Children Cry FOR FLETCHER'S CASTORIA

Lessening Fatigue

It is well known that it becomes fatiguing to carry a heavy weight in the hand, such as a valve, for any considerable distance, especially because it hinders the movement of the lower limbs. A Frenchman has found a way to prevent this inconvenience, which is as simple as it is practical, and all that is needed is to put under the arm a bulky packet, which is made up of a dozen newspapers folded together. In this way the handbag is far enough removed from the legs so as not to hinder walking with ease. He says that the fatigue is much less and the weight appears to be lighter.

Farmers' Bank Bill Debated in Senate

Ottawa, June 8.—The Farmers Bank depositors will not be recouped at present. The bill to aid them was killed in the Senate tonight on a vote of 32 to 25, adopting the motion of Senator Power, of Halifax, for the six months' hoist.

Party lines melted on both sides of the Senate when the Power amendment was put to the vote, 14 Liberals voting against the six months' hoist and 11 Conservatives for it.

Constipation

is an enemy within the camp. It will undermine the strongest constitution and ruin the most vigorous health. It leads to indigestion, biliousness, impure blood, bad complexion, sick headaches, and is one of the most frequent causes of appendicitis. To neglect it is slow suicide. Dr. Morse's Indian Root Pills positively cure Constipation. They are entirely vegetable in composition and do not sicken, weaken or gripe. Preserve your health by taking

**Dr. Morse's
Indian Root Pills**

**INSPECTED AND APPROVED
ALTA ELECTRITE**

[893] [3962] Record 2.21 Trial 2.12

Trotter, Standard and Registered—Best bred son of the greatest son of Electioneer—Sire of 175 Standard Performers. Brother of Hilda Electrite 2, 2.20, Blanche Electrite 3, 2.21 1/4, Alton Electrite 2.19 1/4, Blanche Electrite tr. 2.16, Allene Electrite tr. 2.23 1/4. Full particulars on application.

Will remain during the season of 1914 at The Stable of Dr. J. McGillicuddy, V.S. Watford.

TERMS—\$15.00, payable 1st February, 1915. Usual conditions.

Certificate of Enrolment of Pure Bred Stallion.

The Stallion Enrolment Board of Ontario certifies that the name, description, and pedigree of the Standard Bred Stallion ALTA ELECTRITE, registered in the Canadian Standard Bred Stud book as No. 893, owned by McGillicuddy & Roche, of Watford, and foaled in 1909, has been enrolled in accordance with Chapter 67 of the Statutes of Ontario, 2 Geo. V.

The above named stallion was, under said Act, inspected by the officers of the Board on the 6th day of March, 1914, and found to be free from the malformations and diseases named in the regulations under said Act.

This certificate must be renewed on or before the 31st day of December, 1914, and within 30 days after a change of ownership of the said Stallion a new certificate must be obtained.

PETER WHITE, R. W. WADE, Secretary, Dated at Toronto, Ont., this 24th day of March, 1914.
