Small but Potent.—Parmelee's Vegetable Pills are small, but they are effective in action. Their fine qualities as a corrector of stomach troubles are known to thousands and they are in constant demand everywhere by those who know what a safe and simple remedy they are. They need no introduction to those acquainted with them, but to those who may not know them they are presented as the best preparation on the market for disorders of the stomach.

Report of Promotion Examinations for S. S. No. 5, Warwick.

Sr. III to Jr. IV—Harold Campbell, Bert Hall, Gilbert Hall, Brock Thompson, Aleatha Richardson.

Jr. III to Sr. III—Lloyd Orr, Mac Hall, Sr. II to Jr. III—Margaret Hall, Fred Orr.

M. E. MUMA, Teacher.

Flies torment cattle badly. The use of a good fly repellent means extra trouble, but it also means extra gains or extra milk.

Horses appreciate a drink during a long half day on the binder. Horses lose in condition rapidly when worried with bees or flies.

Young calves will make best gains when housed during the day, and on fresh pasture at night.

Unless carefully fed, freshly threshed grain may bring on digestive troubles with stock, particularly horses.

A look at the best in live stock at one of the larger fairs will tend to fix in your mind the approved types.

Wool Embroidery.

The fad for wool embroidery is reflected everywhere. Scarcity of merchandise necessitating a search in one art department for colors, in another for needles, and another for patterns frequently discourages the shoppers and they abandon the attempt at handmade decoration altogether, says the Dry Goods Economist. Hat bands, wide ribbons, sashes, handbags, blouses, gowns, porch pillows and practically every article susceptible to embroidery are showing gay little flowers and all-over and conventional patterns done in wool.

Make Blankets Soft.

Blankets may be made fluffy and soft after washing, if they are brushed thoroughly with a new broom or brush while they are hanging on the line to dry.

Wives and Mothers of Canada

Stratford, Ont.—"I am very enthusiastic in praise of Dr. Pierce's Favorite Prescription as a tonic for expectant mothers."

I have had experience both with the 'Prescription' and without it, and am in a position to know that there is a vast difference. I was never nauseated or sick at all with the 'Prescription' babies but I was extremely uncomfortable with the others and my suffering was greatest when I had not taken the 'Favorite Prescription'. I shall always take pleasure in recommending it to expectant mothers."

—MRS. LEOTA M. PEPPER, 114 Grange St.

COULD NOT SLEEP

Halifax, N. S.—"I was in a run-down, nervous condition for over two years, had been treated by several doctors and only found temporary relief. I could not sleep at night my heart palpitated so, and I was almost afraid to close my eyes. Being persuaded, I wrote and stated my symptoms to the Medical staff at Dr. Pierce's Invalids' Hotel in Buffalo, N. Y. I was advised to use Dr. Pierce's Golden Medical Discovery with the 'Favorite Prescription' and the 'Pleasant Pellets'. I did so with the very best results. I could sleep and became my natural self again. I certainly recommend Dr. Pierce's medicines to all sufferers, for they have done for me what doctors failed to do and they have saved me doctor bills, too."

—MRS. JOHN HOMANS, Clam Harbor.

Toronto, Ont.—"For over thirty years I have been a user of Dr. Pierce's Pleasant Pellets. I have taken them for liver trouble, biliousness, constipation and sick-headaches and they always gave me the relief wanted. I am sure the 'Pleasant Pellets' have saved me many a sick spell. I can highly recommend them."

—MRS. HANNAH BOWNESS, 60 Strange St.

MEDICAL.

JAMES NEWELL, PH. B., M.D.

MOTORIZING THE FARM

THE horse has been declared by Thomas Edison to be the most inefficient machine in the world. In return for the amount of food and care needed, the horse returns less in work than any other machine.

The average team of farm horses costs \$400, a good set of double harness \$100, a wagon without box \$115, making a total of \$615.

A Ford Truck costs \$750 at Ford, Ont. A Fordson Tractor costs \$850 at Dearborn Mich.

The initial cost of motorizing a farm is slightly greater than the cost of a horse outfit, but the lower cost of operation and upkeep of the tractor and truck and the greater amount of work done easily put the horse out of the running.

Government experiments have proved that the cost of feeding a horse is 8.7 cents per working hour.

A team of horses cannot plow more than two acres in a ten-hour day. At 8.7 cents per hour or 17.4 cents per hour for a team, the cost would be \$1.74, or 87 cents an acre. A Fordson Tractor plows on an average of seven acres a day. The cost per acre averages not more than 75 cents per acre for gas and oil. The Fordson does three and a half times as much plowing in a day at a smaller cost per acre.

Suppose you are hauling produce to market or bringing out supplies. If the town is twenty miles away it will take you a whole day to make the return trip

with horses. If you have a heavy load and the weather is hot it will take you two days. If it took you twelve hours, the cost at 17.4 cents an hour for your team would be \$2.09. The average cost of running a Ford Truck, for gas and oil, is 4 1/2 cents a mile or \$1.80 for the forty miles. But with the Ford Truck you can make the return trip in four hours. The truck enables you to make three times as many trips and at a lower cost per trip.

But this is not all. If you motorize your farm you can get up an hour later in the morning. You have no horses to feed, groom or harness. You start work after breakfast.

When dinner is ready you stop at the end of the field, drive your tractor direct to the house, eat your dinner, and rest till it is time to go to work again.

In the afternoon your motor works just as well though the sun is hot and the flies are bad.

And at night when work is over you are through for the day,—no horses to rub down, feed or water.

You are always free to leave your farm for picnic or vacation—no worry about horses left behind to be cared for.

Every way you look at it the motor has the advantage over the horse. It means shorter hours on the farm, more work done in less time and at less cost.
