

tered the firm, which will be known for the future as the firm of Côté & Vessot. The latter gentleman is the inventor of the excellent sowing-machine which bears his name, and of which we, after many trials, have every reason to speak well.

At our request, the firm has agreed to supply any member of the agricultural clubs with their implements at wholesale prices. It must be thoroughly understood, however, that this advantage can only be claimed by *bonâ fide* members of regular associations, and the terms of payment will be cash on delivery.

We repeat now what we have often said before, that the union of the several members of an agricultural club for the purchase of implements of the more expensive style is an advantage not to be neglected.

I can recommend a *thorough* gardener. An Englishman, in Montreal since last August. Trust worthy, sober, and well mannered. I have seen his work almost daily, and I entertain a high opinion of him in every respect.

ARTHUR R. JENNER FUST.

“ROUGH ON RATS.” — Clears out rats, mice, roaches, flies, ants, bed-bugs, skunks, chip munks, gophers. 15 cts.—Druggists.

THE UNDERSIGNED ARE THE SOLE proprietors, in this Province, of the right to make and sell the **MANGLE SPREADER**. This is, indisputably one of the most useful and advantageous implements ever offered to the farmer. By its use time is saved, and the work is done to perfection. Experience proves that by this method 30 op. of profit is gained over the usual mode of spreading dung. A twelve month's work will save the cost of the machine. The *Mangle Spreaders* turned out by our establishment are perfect in workmanship and finish. Farmers are invited to inspect our stock.

O. & O. DESROSIERS, Louiseville.

THE SOUTHERN CULTIVATOR & DRIXIE Farmer.—One of our most interesting exchanges; very complete and safe in all its varied departments. Although published for an entirely different climate to ours, we find useful reading in every number. Monthly, \$1.50 per annum.

ORNAMENTAL PLANTING AND NATIVE fruits. (Wm. C. Barry, Rochester, N. Y.)

Mr. CHS. GIBB,

Secret. to the Abbotsford Fruit-gravers association.

WELLS, RICHARDSON & CO'S
IMPROVED BUTTER COLOR
A NEW DISCOVERY.

For several years we have furnished the Dairy-men of America with an excellent artificial color for butter, so meritorious that it met with great success everywhere receiving the highest and only prizes at both International Dairy Fairs.

But by patient and scientific chemical research we have improved in several points, and now offer this new color as the *best in the world.*

It Will Not Color the Buttermill. It Will Not Turn Rancid. It is the Strongest, Brightest and Cheapest Color Made.

And, while prepared in oil, is so compound ed that it is impossible for it to become rancid.

BEWARE of all imitations and of all other oil colors, for they are liable to become rancid and spoil the butter.

If you cannot get the “Improved” write us to know where and how to get it without extra expense. (6)

Compton.

RENOVATED SORGHUM SEED.

EARLY-AMBER CORN, FROM THE SOUTH, is the only cane which can guarantee a good crop, and first class syrup, in our latitude: yield 250 to 300 gallons per arpent. Two pounds of seed are required per arpent. A circular containing instructions in the cultivation of sorghum and the method of manufacturing syrup and sugar from it, in Canada, is sent with each packet of seed. Packets of 1, 2, 3, or 4 pounds are sent free by post. Larger quantities forwarded by boat or rail on special terms. Active agents wanted in each district to sell seed, and the apparatus used in the manufacture of syrup and sugar.

Address: E. S. MANNY, Beauharnois, P. Q.
