India. The mutiny in the native army renders the latter more onerous and dangerous than the two others. Sir Colin Campbell has accepted the command of the indian army, and had left via Marseilles and Alexandria on the 10th of July.

An insurrectional movement has been threatening all Italy, and it appears even connected with a plot that was to set the whole of Europe in a blaze of fire commencing by the assassination of the Emperor in Paris Mazzini was at the head of the plot, but although numerous arrests have been made in Sardinia, Naples, and in almost all the towns of Italy he has not yet been captured.

—Her Majesty has laid the foundation stone of a new asylum bearing her illustrious name and destined for the reception of 300 orphan daughters of soldiers, sailors and marines. The cost of the crection and endowment of the asylum will be defrayed out of the surplus funds remaining in the hands of the Commissionners of the patriotic fund. The total amount received for that fund from all sources has reached £1,446,385 and after providing on a liberal scale towards the maintenance and relief of all the widows and orphans of soldiers, and of those officers whose cases presented special features, there still remains a surplus of £38,000, towards the erection of the building and of £140,000 to provide an endowment for this institution intended for the perpetual consolation and encouragement of those who hereafter mayight for their country. As Canada has liberally contributed to the fund, every Canadian who will see the noble huilding when erected will have no occasion to blush for his country when gazing on it. Her Majesty has laid the foundation stone of a new asylum bearing his country when gazing on it.

—Her Majesty has been pleased to appoint Baron de Rottenberg, our adjutant general of militia, a companion of the Order of the Bath.

—The Barque William, now on the large balance dock, New York, for repairs, is said to be the vessel which carried general Wolfe to Quebec. She was formerly an English frigate and is now much more than one hundred years old. She still retains her original timbers which are of white oak and perfectly sound. Her planking is sixty eight years old, and is nearly as perfect as when first put on. She will be recaulted and nearly converted. newly coppered.

## OFFICIAL DOCUMENTS.

[Circular No. 22.]

EDUCATION OFFICE. - Montreal, 2nd July 1857.

To the School Commissioners of

GENTLEMEN.

The different Boards of Examiners having been unable to examine all the Candidates who have offered themselves for examination, at the time of their last Sittings, you are authorized, in case you should not find Female Teachers in possession of Diplomas to engage the ablest you can find, provided you stipulate in your engagement that they shall pass an examination as soon as possible; and if they cannot obtain a Diploma their engagement shall be annulled.

In transmitting your semi-annual Report, you will state whether you have taken advantage of this departure from the general rules of this department, and you will also mention and show that you have acted in accordance with the conditions of this Circular.

You will observe that this indulgence is based upon circumstances which exonerate many Female Teachers from the blame which might attach to them for not having procured their Diplomas, and not interpret it, as a relaxation of the Law, which the Government and the department are, on the contrary, determined to enforce in every respect.

> I have the honour to be, Gentlemen,

> > Your obedient servant,

Pierre J. O. Chauveau, Superintendent of Education.

[General Circular No. 23.]

EDUCATION OFFICE. -- Montreal, 30th July 1857.

To the School Commissioners

The attention of School Commissioners is called to the fifth section of the Act passed in the last session of Parliament, 20 Vict. Printed by Senecal & Daniel, 4 & 6, St. Vincent St.

chapter 41. by which it is provided that it shall be lawful for any local municipal Council to receive from the School Commissioners, of any School Municipality within their limits, a certified copy or extract of the school assessment and to order the same to be collected and levied in the same manner, as, and together with the other local municipal contributions, by the secretary treasurer of the local municipality, to be accounted for and pand over to the secretary treasurer of the School Commissioners.

Inasmuch as it will greatly facilitate the recovery of school moneys, and curtail the law expenses, it is expected that School Commissioners wherever the manicipal Council is well organized and favorably disposed towards education, will avail themselves of this new provision of the law.

PIERRE J. O. CHAUVEAU, Superintendent of Education.
