Spokane men have bonded the Beatrice mines at Camborne for \$75,000 from H. Y. Anderson and associates. The Efanjay Company of Spokane, of which A. J. Grover is president and W. J. McCullough is assistant manager, is taking over the property from September 1. The Beatrice is a silver-lead-zinc proposition, and the values are said to run about 80 ounces in silver, 24 per cent. lead and 20 per cent. zinc. A flotation process to effect a higher saving in the silver and zinc values is to be put in. About 3,000 feet of tunnels, shafts and raises is the development at the mine.

It consists of three Crown granted claims on the divide between Camborne and Ferguson.

Shipments are to begin shortly, it is the intention of the Spokane bonders.

The negotiations which have been pending for some time for the purchase of the Silver Cup mine, the Ajax, the Nettie L., and other properties of the Ferguson Mines, Limited, have been closed, the properties passing into the possession of A. McRae, of Revelstoke, and his associates. A number of men are being put to work on the properties,
