

requested does not have a representative on the North American Regional Broadcasting Engineering Committee, such Government shall designate a committee representative to serve for the particular case. In any case where neither Government is represented on the standing committee, both shall designate committee representatives for that purpose.

F. In making field intensity measurements or inspections, committee members shall be governed by the standards of good engineering practice accepted by the Committee.

G. Each committee member shall be individually provided by his Government with appropriate items of radio measuring equipment or apparatus properly calibrated in accordance with mutually acceptable standards.

H. Where examination shows that the construction referred to in Paragraph "C" hereof is in accordance with the notification, and that provisions have been made for protection in accordance with the notification, the Committee will so report to the Government of the country in which the station is located and at the same time communicate a copy of such report to the Government or Governments requesting the examination. Where the examination indicates that the construction is not in accordance with the notification, or that provisions have not been made for protection in accordance with the notification, the Committee shall make such report to the Governments together with recommendations as to changes of construction, modification, or adjustments of circuits necessary to comply fully with the notification.

I. Where measurements are made following a complaint by a signatory or adhering Government, the results of such measurements with recommendations of the Committee members shall be communicated forthwith to the interested Governments.

J. Upon receipt of a report that inspection of facilities shows that adequate provisions have not been made to prevent radiations in excess of the accepted maximum with recommendations as to measures necessary for correction, the Government of the country in which the facilities are located shall take steps to see that the necessary corrections or adjustments are made prior to operation of the facilities.

K. Upon receipt of a report indicating that interference investigated is, in fact, excessive, the Government of the country in which the interfering station is located shall immediately take steps providing for the elimination of such interference. If the interference found by the Committee cannot be eliminated within ten days by adjustments of equipment, the power of the offending station shall be reduced as much as is necessary to eliminate such interference.

L. Where the committee members of the interested Governments do not agree as to their report or recommendations relating to inspection of new or changed facilities, or upon the investigation of an interference complaint, each committee member shall make a complete report covering all material facts with respect to the matters under consideration and such recommendations as he may believe proper, transmitting the same immediately to the interested Governments. Copies of both reports shall be referred to the full committee. The full committee shall review the case and make such additional investigations as it may deem necessary and then report its findings and recommendations to the Governments of the stations concerned in the matter. Upon receipt of such recommendations, the Government of the country in which the facilities concerned are located shall take such steps as is necessary to comply with the recommendations of the committee. If the interference found by the committee cannot be eliminated within ten days by adjustments of equipment, the power of the offending station shall be reduced as much as is necessary to eliminate such interference.
