

well over \$15 million. This year marks Canada's sixth appearance at the spring fair.

Canada will also participate at ISPO (Fall) '89, September 12 to 15.

SIA '90

Paris, France — March 5-12, 1990

Cattle

This annual agricultural show promotes agricultural supplies; animal nutrition, care and medicine; seed; livestock; breeding; poultry; leisure activities; hunting; agro-research information; and agricultural computers. Canada's primary reason for participating is to promote the use and/or introduction of Canadian breeding stock (cattle) to the market that attends this event. Past participation has allowed numerous Canadian firms to gain a foothold in the market. The year 1990 will mark Canada's fifth participation in this event.

CeBIT '90

Hannover, F.R.G. — March 21-28, 1990

Computer Technologies

CeBIT is one of the truly international trade shows for the computer industry comprising office and information systems, bank and safety systems, software, consulting, DP-peripherals, office and organization technology, telecommunications, research and development, C-technics and operating data acquisition.
