

In 2002, the CSD will undertake a ten-year review of the overall progress achieved by member states in their implementation of Agenda 21. Information offered in the Sustainable Development in Canada Monograph Series describes Canada's contribution to global efforts toward sustainable development and provides a baseline against which future conditions and activities can be assessed. For Canada, sustainable development is best represented as a journey, not a destination. The monographs described above, as well as the other monographs in the series, are milestones on this journey.
