

In the first Term, total for <i>West India Islands</i> ,	3,363,337	10	10
In the second Term, <i>ditto</i> ,	3,767,841	12	11

Increase, only £. 0,404,504 2 1

In the first Term, total for <i>Northern Colonies</i> ,	3,486,268	1	2
In the second Term, <i>ditto</i> ,	7,414,057	4	3

Increase, £. 3,927,789 3 1

By these accounts it appears, that the Exports to the *West India Islands*, and to the *Northern Colonies*, were in the first term nearly equal; the difference being only 122,936*l.* 10*s.* 4*d.* and in the second term, the Exports to those islands had only increased 404,504*l.* 2*s.* 1*d.* — Whereas the increase to the *Northern Colonies* is 3,927,789*l.* 3*s.* 1*d.* almost FOUR MILLIONS.

Some part of this increased demand for *English* goods, may be ascribed to the armies and fleets we have had both in *North America* and the *West Indies*; not so much for what is consumed by the soldiery; their clothing, stores, ammunition, &c. sent from hence on account of the government, being (as is supposed) not included in these accounts of merchandize exported; but, as the war has occasioned a great plenty of money in *America*, many of the inhabitants have increased their expence.

These accounts do not include any Exports from *Scotland to America*, which are doubtless proportionably considerable; nor the Exports from *Ireland*.
