PRICES: Russell-Knight Seven Passenger \$3500 F.O.B. West Toronto

Mr. C. Y. Knight personally directed the development of the engine in the Russell-Knight "28"

For this reason alone the engine represents the most perfect type of Knight motor that has yet been built. The significance of this to the prospective owner lies in the fact that for some years, at least, Russell practice will be standard practice in perfecting the high-grade cars that incorporate the Knight Engine. It is fitting, moreover, that such a wonderful engine should have been incorporated in the best Canadian car. For this great engineering triumph received its first recognition from the world's leading automobile manufacturers. In this, our 1913 car, we know that we are offering to the prospective buyer a car that, for efficiency and comfort, is without peer in the Dominion, or for that matter, anywhere else. Among the features that ensure perfect comfort are—
