## DUNDAS WOMAN SENT TENDER LOVE MESSAGE

Read at Fraser Trial in Osgoode Hall Yesterday It Excited Interest.

A very sentimental effusion, written by Mrs. Michael Fraser, nee Robertson, in October, 1909, was the subject of some discussion in the noted case which has been opened in Osgoode Hall again. According to counsel, it was written in "cold print," but the words appeared anything but cold. In the letter Miss Robertson told her lover of the troubles she and her father had had when they tried to see him, and asked him to see that they were admitted in future.

Dr. McGill, questioned by Justice Middleton as to whether Fraser had made any remarks when the letter was read to him, declared that the old man had said: "The hussy, why should she write to me like that?"

The evidence showed that Fraser had at one time been decidedly averse to Miss Robertson, so much so that Justice Teetzel also asked the doctor a question: "Would the sudden change from aversion to women to amative-ness indicate a diseased mind as regards women?" he queried, but the witness replied that he could not give a direct answer.

"Then do you consider at the time he was capable of appreciating the social and legal obligations he was imposing upon himself in this marriage?" again questioned the justice. To this question the physician gave a decided "No." Justice Teetzel asked him if his answer would be any stronger if he were told that immediately afterwards the man had turned over all his money

to the woman a few months before called a hussy?"  
"The influence had changed," replied Dr. McGill.  
The case goes on at 9:30 a.m. to-day.

## BABY'S OWN TABLETS CURE CONSTIPATION

Few other troubles afflict the little ones as does constipation. Every change of diet seems to bring this trouble on and baby suffers from headaches, fever, disturbed sleep and often vomiting. No baby who suffers from constipation can thrive well. Constipated babies are cross all the time and give mothers constant worry. The only sure relief for baby constipation is Baby's Own Tablets—they never fail to cure this trouble and can be given to the little one with absolute safety.

Concerning them Mrs. W. S. McKenzie, Prairie Grange, Alta., writes: "I used Baby's Own Tablets for my baby's bowels in a natural condition." The Tablets are sold by medicine dealers, or at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

**Exhibition Prize List.**  
The new women's building is not the only evidence that the Canadian National Exhibition is this year giving special attention to women's and children's work. The women's and children's section of the prize list is now being distributed and it shows an extended classification covering all classes of work by women and children. There is a special class for domestic science and another for household arts, while the boys and girls can compete either in separate classes or against each other in general competition. The wider scope thus given to this class of work and the additional advantages for displaying it, promises to make a distinctive feature of this year's exhibition.

## T.E.L. DIRECTORS FAVOR SALE OF PLANT TO CITY

Such, at Least, is Said to Be the Attitude of a Majority.

The board of directors of the Toronto Electric Light Company held a meeting yesterday afternoon to decide on the attitude they would adopt at the meeting of the shareholders at noon to-day with reference to the sale of the physical assets of the company to the city.

Absolute secrecy was maintained by the members as to what transpired at the meeting of two girls, 15 and 16 years of age, who were said to be the daughters of the city's offer of \$125 per share of which characterized the remarks of most of them after the decision of the city council had been announced. It was not in evidence, and a majority will be in favor of accepting the city's bid whatever may be the action of the shareholders.

It is still asserted however by some who profess to be well informed on the situation that the offer of the city will be one of three or four, and will be considered by the shareholders to-day. They claim that Electrical Development Company interests will also make an offer and there will also be a buyer representing financial interests in the United States.

## U. S. GOVERNMENT TO DRIVE OUT BLACK HAND

Member of Chicago Band, With Score of Murders Against Them, Convicted.

CHICAGO, April 7.—The U. S. Government to-day won its first case in the fight it has begun to drive out the Chicago members of the Black Hand, who are said by the police to be responsible for nearly fifty dynamite explosions, and a score of murders. Gianni Alongi was found guilty of using the mails in sending threatening letters to the jury in the United States District Court, bringing in the verdict, after Judge K. M. Landis and Postoffice Inspector James E. Stuart both had received threats of death should Alongi be convicted.

Alongi was accused of having written threatening letters to Carmelo Marsala, a meat dealer on the north-west side of Italian section, near "Death Point," where many explosions and murders have occurred. Marsala refused to pay the tribute demanded in the letters, and five bombs were exploded near his shop before Alongi was arrested. Extraordinary efforts were made to prevent the conviction of Alongi. Immediately after his trial being distributed and it shows an extended classification covering all classes of work by women and children. There is a special class for domestic science and another for household arts, while the boys and girls can compete either in separate classes or against each other in general competition. The wider scope thus given to this class of work and the additional advantages for displaying it, promises to make a distinctive feature of this year's exhibition.

## FOREIGNERS TROUBLE-MAKERS

Judge Denton Agrees With Grand Jury's View.

The sessions grand jury in their presentment before Judge Denton yesterday severely criticized the treatment of prisoners at Toronto jail, and laid emphasis upon the fact that the greater portion of the prisoners were foreigners.

They considered the case of shoplifting should be severely dealt with, and deplored the fact that immigrants seemed to be on the ascendancy. They censured the Mercer Reformatory for alleged needless harsh treatment of the inmates, some of whom slept under a single blanket.

Judge Denton concurred with the grand jury in their statement, and said he would instruct the clerk of the peace to have copies of the presentment sent to the different institutions. He laid special stress upon the foreign element that had appeared before him at the sessions. He said that half the time occupied by the sessions was taken up with foreigners, and the evidence in most of the cases had been given in an alien language.

## CAMPAIGN'S LAST DAY

Board of Trade Hopes to Reach Desired Mark of 1000 New Members.

To-day the membership campaign of the board of trade for 1911 will end, the originally suggested ten-day period having elapsed. Up to 6 o'clock last night 753 applications had been filed, leaving 247 yet to be heard from. It is confidently expected that at the luncheon to be held to-day in the National Club at 1 o'clock some of the captains will make announcements which will warrant the statement that the thousand names required have been secured. Several applications have been received from towns surrounding the city, indicating that the good work of building up Ontario, the board has undertaken, is appreciated outside of Toronto.

Two or three captains and committees who were appointed and organized after the campaign started, have asked permission to make returns within the next two or three days, as they have not had the show other captains and committees have had, and express the belief that the prolongation of the campaign, say for the first half of the coming week, would bring gratifying results.

P. W. Ellis' suggestion that members should nominate their sons, who have reached an eligible age, has been acted upon in several instances. One gentleman nominated three and a couple of others two.

At the luncheon to-day it is anticipated that two or three captains will be able to report upwards of a hundred applications. To meet the required thousand it is only necessary that the captains should report an average of ten apiece.

## Our Kitchen Is Your Kitchen

We offer you our sanitary sunlit kitchen in the cleanest, most hygienic food factory in the world, in which we bake every year, millions of crisp, golden brown Shredded Wheat Biscuits. Our kitchen is your kitchen when you eat

## SHREDDED WHEAT BISCUIT

the food that contains all the strengthening, body-building material in the whole wheat grain made digestible by steam cooking, shredding and baking. It is the one cereal food that has survived the ups and downs of public fancy—always clean, always pure, always the same price.

Always heat the biscuit in oven to restore its crispness; then pour hot milk over it, adding a little cream. Salt or sweeten to suit the taste. Being in Biscuit form it makes delicious and wholesome combinations with stewed prunes, apple sauce, sliced bananas or other stewed or fresh fruits. Try it for breakfast for ten days and see how much better you feel. Your grocer sells it.

TRISCUIT is the Shredded Wheat wafer—a crisp, tasty, nourishing whole wheat Toast, delicious for any meal with butter, cheese or marmalades. Always toast it in the oven before serving.
