Monday Evening, June 12. The week opened in an auspicious manner on the mining markets; the list

of gold mining issues showing an all-round firmness, which resulted in a number of sharp advances in prices before the close of the session.

The shake-out of holdings incident to the reaction on Saturday would seem to have placed the market in a sound technical position, since the upward trend was apparent from the very opening to-day, and was not checked to any extent at any time during the session.

The usual establishment of a new high record by Hollinger did not cause even a ripple of excitement on "the street." Traders have become fully accustomed to phenomena of this nature, so much so in fact that when the

accustomed to phenomena of this naccustomed to phenomena of the phenomena of the phenomena of the phenomena of this naccustomed to phenomena of the phenomena of the phenomena of the phenomena of the

Hollinger to-day sold within five points of the \$15 mark. The opening sale was made at \$14.47 1-2, a jump of 27 1-2 points from last week's close. 27 1-2 points from last week's close, and the additional advance of 48 points followed with scarcely a reaction. Tofollowed with scarcely a reaction. To-wards the close there was some natu-ral profit-taking, as a result of which Wettlaufer ... the shares dropped some 15 points, R. of Way ... Meehan ...

Another advance in Rea, carrying looked for some short covering as a re- Rea sult of the recent activities. Traders were bidding \$6.15 for the stock at the Buyers 60 days.

Those who have been looking to a recovery in Foley-O'Brien got another Arex ... severe shock to-day, when the shares Beaver severe shock to-day, The hottom Buffalo sold down below a dollar. The bottom price reached, and this was a new low sold down below a dollar. The bottom chamb price reached, and this was a new low level, was 97 cents, which was also the Bailey

a decline of eight points from the close last week.

The cheaper Porcupines were firmer, with Dome Extension up a point at 65; Preston up 1 1-2 at 32 1-2; Vipond Hollinger .7447½ 1435 1447½ 1481 was casy, selling between 60 and 61.

There was not much doing in the Cobalts, and outside of an advance in Nipissing .10 45 There was not much doing in the Cobalts, and outside of an advance in P. Central 81

Beaver Directors Spring a Surprise

Three Per Cent, Dividend Declared Beaver Buffalo Rather Unexpectedly-Other Dis-

The directors of the Beaver Consolidated Mines have declared an interimedividend of three per cent., payable Aug. 21 to shareholders of record Aug. 1.

The first dividend paid by Beaver only came off May 15, consequently the announcement of the later declaration of the l announcement of the later declaration announcement of the later declaration w. Dome 185 *Euyers @ days. came as rather a surprise to the mar-ket. It was known that the company had plenty of funds on hand to take

seived a 2 1-2 per cent. dividend. President Culver intimates that it is not the intention to put Beaver on a regular dividend basis until a surplus sufficient to insure its continuance has

been built up. Other Cobalt dividends announced yesterday were three per cent. on Timkaming, being the regular quarterly payment, and the usual monthly declaration by the Crown Reserve, two foot level on the Golden Rose vein.

TENDERS AWARDED

the Warner-Leighton syndicate hold-Summer Repairs to Schools,

At a meeting of the property com-mittee of the board of education yes-terday afternoon the following tenders were accepted for the different works

At 130 feet the creamy-white, clear quartz changes to a blue color and continues this color to the bottom of the drill hole. The oxidization does not show after 130 feet.

The tenders for enlargement of Frankland School were given to H. Lucas & Sons, mason's work, \$5152; and William Williamson, carpenter, \$5050.

the schools was awarded the T. Eaton The offer of Charles W. King to ers in the schist cut the rock for a distance of 20 feet. The lead where the drill is working carries in width from eight to ten feet of solid quartz. No assays have been made.

The quartz is extremely hard and from this fact Engineer Warner fig-

ers for Important Discussion.

The annual synod of the Anglican Church opens to-day at 10.30, when holy communion will be celebrated by the Lord Bishop of Toronto, at St. James' Cathedral, and a devotional address will be given by the Ven. Arch-deacon Cody, D.D.

The synod will open its proceedings at noon in St. James' parish house, and will proceed to organize for business.

The first order of procedure will be a discussion with regard to the credentials of members, after which the honorary secretaries will be elected.

The synod will then bring forward a motion of loyalty and devotion in regard to the approaching coronation and the motion will be forwarded to the King by cablegram.

PORCUPINE CITY, June 9.—(From Our Man Up North.)—Work is in progress on the Jowsey-Woods holdings will be appointed, after which the re-
