U. S. LOGGERS URGED TO INCREASE OUTPUT

Loyal Legion Admonishes Men to Pay No Heed to Enemy Propaganda.

Portland, Ore., Jan. 1.—What is expected of loggers and mill men in the northwest by the production division of the government's aircraft board during 1918 is outlined in a statement, and appeal, by Colonel Bruce P. Disque, head of the spruce production work now being sent out to members of the Loyal Legion of Loggers and Lumbermen. The organization now numbers 25,000 members in the northwest. The statement wants the lumbermen not to pay heed to the nonsense and malign whispering of spies and traitors who spread propaganda in the spruce production belt. "The headquarters of this division," says Colonel Disque, "looks to you to prevent all acts of sedition on the part of employer, employe or others. "Germany is obtaining airplane material with forced labor in invaded Russian forests which do not belong to her. Thousands of helpless persons are driven to work at the point of the bayonet from early dawn until dark."

Loggers are urged to offset Germany's gains by increasing the output in the United States. Colonel Disque's announcement says: "Your government asks you to produce 11,000,000 feet of spruce during each month of 1918. Also it asks you to immediately make up the deficiency of the last few months when an average of only 3,000,000 feet was obtained. "You are soldiers, just as truly as are the boys, knee deep in the mud of France, stopping the bullets of the enemy. A day's lay off is two days' work for the Kaiser."

BOLSHEVIKI TO RAISE WHITE SEA BLOCKADE

German Naval Delegation Secures Concession to Regulate Maritime Commerce.

London, Jan. 1.—The German naval delegation at Petrograd, according to the correspondent of The Daily Mail in the Russian capital, has reached an agreement with the Bolshevik government for raising the "blockade" of the White Sea, and for the regulation of maritime commerce which is expected to begin with the impending arrival at Revel of ships with goods from Germany. A despatch to The Daily Express from Petrograd says that German ships already have free access to Russian waters, and that the government is taking precautions to protect them from British submarines. The first commercial squadron is expected before the Russian Christmas, or Jan. 7. Special despatches from Petrograd refer again to the subject of food shortage, which, according to the correspondent of The Daily Mail, is steadily becoming more critical. The correspondent of The Daily News says that the hotel in which he is staying is filled with crates of provisions hearing Berlin stamps. He adds that the German delegation, expecting an immediate famine, brought its own food. Berlin newspaper reports received in Amsterdam say that Foreign Secretary von Kuhlmann, while coming to Berlin from Brest-Litovsk, stopped at Warsaw to confer with the Polish premier. The Polish government, it is said, will share in the future negotiations at Brest-Litovsk in an advisory capacity.

MAJORITY OF SOLDIERS AGAINST CONSCRIPTION

Australian Soldiers Give Anti-Conscription 5,000 Plurality—Many Votes Uncounted.

London, Dec. 31.—(Via Reuter's Ottawa Agency)—Melbourne's latest referendum figures are 945,000 votes for, and 1,121,000 against conscription. These figures include the votes of the Australian forces hitherto announced 51,000 for and 56,000 against. It is understood at Melbourne that the Nationalist party is unlikely to do anything calculated to bring about an election. The federal session will be short. Approximately 130,000 referendum votes are still to be counted. Wellington reports that the Government have virtually suspended the New Zealand hemp industry in order to divert labor to harvesting. Hundred Per Cent. Increase in Motor Car Fatalities New York, Jan. 1.—An increase of approximately 100 per cent. in motor car fatalities in New York State, including New York City, in the last five years, is shown in a report of the National Highway Protective Society, made public tonight. During 1917, the report says, 837 persons were killed by autos in New York State, as compared with 739 during 1916. Only 435 were killed in similar accidents in 1912. AVASKENTIEFF IS ARRESTED. Petrograd, Monday, Dec. 31.—M. Avaskentief, former president of the council of the republic, has been arrested and taken to the St. Peter and St. Paul fortress.

JAPS TO LEND MONEY TO AID BANK OF CHINA

Negotiations Proceed With Knowledge of British, American, French and Russian Groups.

Peking, Monday, Dec. 31.—The Associated Press is informed officially that Japan is negotiating an advance to China of 10,000,000 pounds for the purpose of improving the status of the Bank of China. The negotiations are being carried on with the knowledge of the American, British, French and Russian banking groups in the syndicate which, with Japanese and German representatives, was formed before the war to finance China. The terms will be similar to the previous Japanese advance under the conditions of the reorganization loan, but the other banking groups will take no part in it, on account of the refusal of their governments to permit the sending of bullion to China. Japan will loan the money with the object of exercising control over the currency reform. The Japanese notified the other banking groups that unless they were willing to participate in the loan it would be negotiated by the Japanese interests. RUMANIAN REACHES U. S. AIR RAID DESTROYS ART WORKS OF PADUA

Front of Cathedral Demolished and Paintings and Monuments Severely Damaged.

By The Associated Press. Padua, Monday, Dec. 31.—The third successive night air raid last night scattered havoc among the famous churches and art monuments of Padua. The front of the sixteenth century cathedral was demolished. The paintings and other masters' work of Padua is buried, lost its bronze doors and the sepulchre of St. Anthony was missed narrowly by a bomb. Donatello's famous equestrian statue of General Gattamelata, which stands in the square before the Santo, had been removed to a place of safety, but the base, also the work of Donatello, was damaged severely. The paintings and fresco in the Santo by Titian and other masters were torn and scratched by the concussion. The rose windows and the renaissance stained glass were shivered to fragments. The building opposite the Santo where the guild of St. Anthony issued leaflets to be sent throughout the world, was destroyed. A pilgrimage to the sepulchre of St. Anthony was in progress when the bombs struck the Santo. The cathedral was struck above the gable facade, the entire gable and the upper part of the facade falling into the street. The raiders came at three different times, at 6 and at 11 o'clock at night and at 3 o'clock this morning. Twenty incendiary bombs were dropped.

GERMANS STILL SINK BELGIAN RELIEF SHIPS

Enemy Tries to Justify Torpedoing by Blaming British for Sailing Instructions.

London, Dec. 1.—(By Mail)—Recent German semi-official statements attempt to justify the torpedoing of Belgian relief ships by asserting that "these vessels are only destroyed when found within the danger zone." The German statements add that "these relief ships are now constantly found passing thru the danger zone, probably at the instigation of England." From this it is argued that any shortage of provisions in Belgium is blameable on England alone. When these statements were submitted to the British authorities, the Associated Press was authorized to state that "the German allegations are entirely without foundation." The sailing instructions issued by the admiralty to Belgian relief vessels do not permit such vessels to pass thru the German prohibited zone, and the admiralty has no information of any relief ships falling to observe these instructions. If such a failure has occurred in isolated cases it was probably due to stress of weather, and the circumstances can afford no possible justification for the promiscuous German attack. "The suggestion that the British authorities encourage relief ships to enter the so-called prohibited zone," it was said, "is too absurd to need refutation."

NEW YEAR GREETINGS TO AMERICAN SAILORS

British Admiralty Flashes Messages to U. S. Flotilla in European Waters.

Base of the American Flotilla in British Waters, Jan. 1.—(By The Associated Press.)—Among the New Year's greetings flashed to the American ships was one from the British Admiralty with a message that cheered everyone. It follows: "From Admiralty House, with thanks for the past, hope for the future, and trust in you always." The new year was welcomed by the sailors with as much noise and ceremony as the circumstances of war permitted. At midnight the ships in the harbor bade farewell to the old year and ushered in 1918 with brief blasts from sirens and the tolling of ships' bells, while below the sailors created a din with merrymaking. The weather was cold and crisp, with beautiful moonlight. Ashore, the Americans mingled with the merry crowds in the village streets, listening to the cathedral chimes. Later British flags joined in the celebration at the United States Naval Clubhouse, which was decorated with good-luck messages, the feature of which being a huge "Happy New Year" greeting in vari-colored electric lights, the handiwork of the sailors. MEXICAN RAID EXPECTED. Austin, Texas, Jan. 1.—Every available ranger of the Texas force has been despatched to Alpine and vicinity by Adjutant-General Harley on receipt of reports that Mesqueras were planning a raid over the border near that point. JAPS EXPORT PIANOS. Melbourne, Dec. 10 (By Mail).—Japan has entered the piano trade and is exporting an upright piano to Australia at a price of £27, which is said to compare favorably with a cheap instrument which the Germans sold at £16 before the war. Five hundred Japanese pianos have already been sent to Australia.
