190 YONGE ST. Canada's Greatest Store. TORONTO, ONT.

STORE CLOSING TO-DAY AT 6 O'CLOCK.

## Almost an Entire Block!

YONGE STREET—190, 192, 194, 196, 198, 200.  
QUEEN STREET WEST—10, 12, 14, 16, 18.  
JAMES STREET—11, 13, 15, 17, 19, 21, 23, 25, 27, 29.  
ALBERT STREET—15, 17 AND 19.

(ALL UNDER ONE ROOF.)

ENTRANCES 190 YONGE STREET.  
14 QUEEN ST. WEST.

The extent to which this store has grown and the vast interests it represents make it first and foremost in the minds of shoppers. The location has centralized business more and more at Yonge and Queen Streets, and the crowds come in an incessant stream. It really is one of the pleasures of storekeeping to have people come and see all there is to see without any suggestion of buying unless they want to.

Accommodations for visitors, good music at regular intervals, specially attractive displays, important exhibit of late novelties, full view of Machinery Hall, acres of extra room and facilities as near perfect as modern ingenuity can make them. When you realize that we're at present over 1,700 employees and 43 delivery waggons you get a very good idea of the handling and distribution of goods every day in the week. Those who don't want to hurry away will be interested in the Lunch Room, which is regularly supplied with fresh milk, cream, butter and eggs from our own farms.

## Don't Forget House Furnishings!

A good many country people are unaccustomed to riding on elevators and going up or down stairs to buy goods. That's why we emphasized the basement yesterday and why we remind visitors now of the second floor and its attractions. By House Furnishings we mean Carpets, Curtains, Draperies, Pictures, Furniture and the whole range of home comforts. Such variety and such money's worth have never been known before in Canada, and our trade in such things is growing all the while. We've only just opened

- 3 car loads Wall Paper to sell at half-price!
- 10 car loads New Furniture in attractive styles!
- 200 bales New Fall Carpets and other floor coverings!
- 10,000 pairs New Lace Curtains at extra special prices!

That of course is the barest outline of what's most interesting and attractive. If you want to know how prices run you can get a very good notion by glancing over this list:—

**CANADA WEARS THE LAUREL.**  
Canada has to-day just cause for self-congratulation. The Dominion has scored a series of brilliant and unparalleled victories this season in the domain of international sports. These victories are concerned with the principal sports for which the Anglo-Saxon race is famous. They have been wrested from the best competitors that the whole world boasts of. Canada to-day wears the laurel crown. She has honorably won it in fair and open contest with the whole world.

Yesterday Gaudaur brought back to Canada the sculling championship of the world and with it that of England. We have held that honor in our possession longer than any other country. Canada has produced the greatest scullers the world has ever seen. We have a right to feel proud over yesterday's triumph.

Another notable victory was scored by Canada yesterday in the United States. Canada came off triumphant in the international cricket match that has been in progress at Philadelphia since Friday last. The team our men contended with is the best that the United States can produce. It is the same team that has arranged to meet the Australian club next week.

The victory of the Canada at Toledo on Aug. 26 last was another notable triumph. We showed on that occasion that the yachtsmen of Canada are the equals of any in the world. Not less notable was the victory of Duggan's half-rater Glencairn in the race for the Corinthian Cup, off New York. The Glencairn contested that race with the representative of the American club that beat the English challenger only a year ago.

Other triumphs that might be mentioned are those of our marksmen in the Shoburness and Biscay. At the latter place our men carried off the Kolapore Cup and Canada now has that in her possession. The Winnipeg team won the American championship at Saratoga from the best team in the United States. Then we scored at the international four-oared contest at Halifax, the Gaudaur crew defeating the English four. Other lesser victories might be mentioned, but these are sufficient to justify our assertion that Canada of all the nations is entitled to wear the laurel crown.

Has any nation of our population ever occupied so distinguished a position in the athletic and sporting world as Greece in her palmy days could not compare with us.

**AN INDUSTRY FOR CANADIAN FARMERS.**  
France has been engaged in the manufacture of beet root sugar since 1830. The production in that year amounted to 4300 tons. In 1890 the output of sugar, manufactured from beets grown in France was 750,000 tons.

Germany is the country where the industry originated. The production for 1890 was 13,445 tons of sugar and 8955 tons of molasses. In 1890 these figures had increased to 1,213,880 and 240,797 tons respectively. These two countries not only produce sugar for their own domestic needs, but they export a large quantity. In 1890 the export of sugar from Germany amounted to 713,385 tons.

If Germany and France can manufacture beet root sugar with such eminent success, why should not Canada follow their lead? The Dominion, as has been ably pointed out by Mr. Laurier and other writers, is admirably adapted for the cultivation of the sugar beet. The experience we have already had in this line has not been an unqualified success, but we ought to remember that the industry was not acclimatized in Germany and France without a long and patient struggle. Canada ought to profit by the experience of Europe. It should not be difficult for us to duplicate the methods that are followed in these two countries for growing the beets.

Canada ought to manufacture all the sugar used in the country. The United States in 1890 imported 200,000 tons of beet sugar from Germany at a cost of \$16,000,000. German sugar also finds its way into Canada. A perusal of an article in The North American Review under the heading of "An Industrial Opportunity for America" ought to convince our statesmen that the time has arrived when Canada should go into the beet sugar business in earnest. We append a few particulars taken from the article referred to:

The yield of sugar beets varies from twelve to forty tons per acre. The best land with good cultivation and a favorable season will yield from twenty to thirty-five tons per acre, but the crop would be hardly profitable at a yield of less than twelve tons per acre.

In California the greatest production from a single acre of land was a little more than forty tons of beets; but this is an unusual yield. The estimated cost of production per acre is about fifty dollars. In the present condition of the methods of manufacture, from eight to twelve pounds of beets are required in the making of one pound of sugar, the quantity varies according to the greater or lesser richness of the beets in sugar.

The price changes with the conditions of the market. About four years ago beet sugar from Germany was landed on the wharves of New York at a cost of three dollars and eighty-one cents a hundred pounds. It rarely now costs above five cents a pound. Very great improvements in the processes of manufacture have been made since 1836. Then from four

to five per cent. of the beet could be converted into sugar, as against twelve to sixteen now; then the cost of production per pound was eight to twelve cents, against two to four now.

In 1893 the average cost per pound of manufacture in the United States was three cents; and twenty-four thousand acres of land was that year applied to the growing of sugar beets, which brought to the farmer an average price of four dollars and fifty cents a ton.

In 1893 there were seven beet sugar manufacturers in the United States, with a capital of about two million dollars. The statistics respecting this subject in the United States for 1894 (and this was one of the poorest seasons for production) show that the sugar product from the beets grown on an acre of land was from 360 to 4630 pounds.

**LI HUNG CHANG IN TORONTO.**  
Li Hung Chang has come and gone. He and the people of Toronto spent a pleasant afternoon together at the Exhibition grounds. Li's face beamed with pleasure as his eye took in the various features of the show. Li's journey through Europe and the United States has been more or less of a business or official nature. Yesterday the Earl had a real holiday, and a most enjoyable one too. He saw the elephants of human wisdom. He witnessed the gyrations of the ballet girls. This feature of the show made a marked impression on the distinguished Chinese statesman, who, although over seventy years of age, still retains his youthful enthusiasm for the beautiful. Li saw the fat cattle and the well-groomed horses. Li was immensely pleased with the (bill of fare that the directors had arranged for him. On the other hand, the people found in Li Hung Chang the greatest attraction of the day. He was the observed of all observers. A World reporter was fortunate in securing an interview with the distinguished visitor yesterday. "Some of the ideas he had formed," about Canada will be found in another column.

**ENGLAND'S TAX ON SPORTS.**  
A Large Revenue is Derived From Sporting Licenses in the Old Land.

New York, Sept. 7.—A London correspondent says: A Parliamentary return shows how valuable to the national treasury is the universal devotion to sport in England. Licenses for guns are taken out by an average of 180,000 persons a year, amounting to \$85,000, half a sovereign being the charge for a license. There are also other taxes covering sporting dogs, etc., and there are the taxes paid by gun-makers and the like. The fact is quoted as an argument against the abolition of the game laws so cherished by the "party."

**FRED HIGGINBOTHAM KILLED.**  
A Well-Known Popular Athlete Meets a Sad End—Sifton's Successor.

Winnipeg, Sept. 7.—(Special).—Fred Higginbotham, undoubtedly Winnipeg's most popular athlete, was killed this morning by falling from a horse. He played in Toronto with Winnipeg's champion hockey team.

It is announced that Finlay Young, Speaker of the Legislature, is to succeed Attorney-General Sifton in the Greenway cabinet.

Today was Labor Day, the labor men holding a big demonstration in one of the parks.

**Here is a Chance.**  
Messrs. Bisset & Co., having purchased the bankrupt stock of Grant & Co., 77 King-street east, at a very low rate, are in a position to give special bargains in furs of all kinds, and intending purchasers will do well to call on them before buying. The stock is large and well assorted, containing jackets, capes, muffs, capelines, collars, ruffs, gaudies, linings, trimmings of every style, and grade of fur from the lowest up to the finest seal skin. There is also a large assortment of men's, boys' and children's hats and caps of all kinds, all of which must be sold at a sacrifice, as possible, consequently their prices are lower than can be found elsewhere.

Persons who wish to get their fur remade or repaired, can depend on getting satisfaction, the firm's reputation as manufacturers of fur being well known throughout the Dominion.

**ACROSS CONTINENT IN 12 DAYS.**  
New York, Sept. 7.—The Journal-Examiner bicycle relay race, which began in San Francisco on Aug. 25, ended in triumph at the Journal office on Park Row. The actual time for the race was 12 days 20 minutes 4 1/2 seconds. The pouch which was carried across the country contained two letters, one addressed to Postmaster General, the other from the Postoffice Department, addressed to the major-general in command of the department of the East at Governor's Island.

**Struck by a Train.**  
Chatham, Sept. 7.—While John Blair, a farmer and thrasher, living near Chatham, was crossing the C.P.R. tracks at Centre-street this afternoon, his rig was struck by the express train, and he was killed. When picked out of the wrecked wagon Blair was found to be terribly bruised and cut on the head, nose broken, arm dislocated, and some ribs fractured.

**Garbage Difficulty Again.**  
It is reported that the Yankees are again engaged in the heinous business of dumping garbage in the Detroit River near Amherstburg, and Chief of Police Campbell of Windsor has been instructed by the Provincial Board of Health to investigate.

**1,000 Bicycles by Auction To-day.**  
The great unreserved auction sale of 1,000 bicycles commences this morning at 11 o'clock, when the public will have an opportunity of purchasing a high grade wheel at their own price, as the sale is positively unreserved. Mr. Charles M. Henderson will conduct the sale.

**The Montague Was Scuttled.**  
Kingston, Ont., Sept. 7.—In the heavy storm yesterday it was thought necessary to scuttle the steamer Montague, which was on the Chantry Shoal. It is expected that half of her cargo of 50,000 bushels of wheat will be damaged.

The steamer Saturn is ashore at the foot of Wolfe Island.

**Drowned in a Cistern.**  
Stratford, Sept. 7.—A son of Charles Butler, boiler-maker, G.T.R. shops, about 2 years of age, was accidentally drowned in a cistern this evening.

**AYER'S PILLS**  
"I have used Ayer's Pills for fifteen years as a cathartic in liver complaint, and always with extremely beneficial effect, never having had need of other medicine. I also give Ayer's Pills to my children, when they require an aperient, and they give them a most satisfactory result."—ADRIAN A. EATON, Centre-street, N. H.

TO FIVE PER CENT. OF THE BEET COULD BE CONVERTED INTO SUGAR, AS AGAINST TWELVE TO SIXTEEN NOW; THEN THE COST OF PRODUCTION PER POUND WAS EIGHT TO TWELVE CENTS, AGAINST TWO TO FOUR NOW.

IN 1893 THE AVERAGE COST PER POUND OF MANUFACTURE IN THE UNITED STATES WAS THREE CENTS; AND TWENTY-FOUR THOUSAND ACRES OF LAND WAS THAT YEAR APPLIED TO THE GROWING OF SUGAR BEETS, WHICH BROUGHT TO THE FARMER AN AVERAGE PRICE OF FOUR DOLLARS AND FIFTY CENTS A TON.

IN 1893 THERE WERE SEVEN BEET SUGAR MANUFACTURERS IN THE UNITED STATES, WITH A CAPITAL OF ABOUT TWO MILLION DOLLARS. THE STATISTICS RESPECTING THIS SUBJECT IN THE UNITED STATES FOR 1894 (AND THIS WAS ONE OF THE POOREST SEASONS FOR PRODUCTION) SHOW THAT THE SUGAR PRODUCT FROM THE BEETS GROWN ON AN ACRE OF LAND WAS FROM 360 TO 4630 POUNDS.

ENGLAND'S TAX ON SPORTS. A LARGE REVENUE IS DERIVED FROM SPORTING LICENSES IN THE OLD LAND. NEW YORK, SEPT. 7.—A LONDON CORRESPONDENT SAYS: A PARLIAMENTARY RETURN SHOWS HOW VALUABLE TO THE NATIONAL TREASURY IS THE UNIVERSAL DEVOTION TO SPORT IN ENGLAND.

LICENSES FOR GUNS ARE TAKEN OUT BY AN AVERAGE OF 180,000 PERSONS A YEAR, AMOUNTING TO \$85,000, HALF A SOVEREIGN BEING THE CHARGE FOR A LICENSE. THERE ARE ALSO OTHER TAXES COVERING SPORTING DOGS, ETC., AND THERE ARE THE TAXES PAID BY GUN-MAKERS AND THE LIKE. THE FACT IS QUOTED AS AN ARGUMENT AGAINST THE ABOLITION OF THE GAME LAWS SO CHERISHED BY THE "PARTY."

FRED HIGGINBOTHAM KILLED. A WELL-KNOWN POPULAR ATHLETE MEETS A SAD END—SIFTON'S SUCCESSOR. WINNIPEG, SEPT. 7.—(SPECIAL).—FRED HIGGINBOTHAM, UNDOUBTEDLY WINNIPEG'S MOST POPULAR ATHLETE, WAS KILLED THIS MORNING BY FALLING FROM A HORSE. HE PLAYED IN TORONTO WITH WINNIPEG'S CHAMPION HOCKEY TEAM.

IT IS ANNOUNCED THAT FINLAY YOUNG, SPEAKER OF THE LEGISLATURE, IS TO SUCCEED ATTORNEY-GENERAL SIFTON IN THE GREENWAY CABINET. TODAY WAS LABOR DAY, THE LABOR MEN HOLDING A BIG DEMONSTRATION IN ONE OF THE PARKS.

HERE IS A CHANCE. MESSRS. BISSET & CO., HAVING PURCHASED THE BANKRUPT STOCK OF GRANT & CO., 77 KING-STREET EAST, AT A VERY LOW RATE, ARE IN A POSITION TO GIVE SPECIAL BARGAINS IN FURS OF ALL KINDS, AND INTENDING PURCHASERS WILL DO WELL TO CALL ON THEM BEFORE BUYING.

THE STOCK IS LARGE AND WELL ASSORTED, CONTAINING JACKETS, CAPES, MUFFS, CAPELINES, COLLARS, RUFFS, GAUDIES, LININGS, TRIMMINGS OF EVERY STYLE, AND GRADE OF FUR FROM THE LOWEST UP TO THE FINEST SEAL SKIN.

THERE IS ALSO A LARGE ASSORTMENT OF MEN'S, BOYS' AND CHILDREN'S HATS AND CAPS OF ALL KINDS, ALL OF WHICH MUST BE SOLD AT A SACRIFICE, AS POSSIBLE, CONSEQUENTLY THEIR PRICES ARE LOWER THAN CAN BE FOUND ELSEWHERE.

PERSONS WHO WISH TO GET THEIR FUR REMADE OR REPAIRED, CAN DEPEND ON GETTING SATISFACTION, THE FIRM'S REPUTATION AS MANUFACTURERS OF FUR BEING WELL KNOWN THROUGHOUT THE DOMINION.

GUINANE BROTHERS, GUINANE BROTHERS.

214 YONGE-STREET

A SHOE traveler from Boston came over to see Toronto last week, and incidentally to sell a lot of shoes that he had shipped to a firm here—but who refused to meet the terms—C.O.D.

Said the traveler as he examined our shoes and prices: "I don't wonder that I can't get cash for my shoes—the duty is paid on them and I can't sell them at 25 per cent. off our price. Every shoe dealer in town grumbles and snarls at you fellows for cutting and slashing the shoe prices—to tell the truth, I never saw shoes sold for such prices as you're selling them at. I don't wonder at the growling. The sooner you fellows get out of business the better for everybody." That's the gist of what he said.

We couldn't resist buying his shoes—\$800 worth at 40 per cent. discount—they'll be all gone in a day or two. He got his cash.

But here you have evidence of our remarkable prices during this liquidation sale of shoes.

A few days more And this great store Closes its door.

A further extension of the sale is beyond possibility—on the 15th it ends.

See the shelves as eager buyers help to empty them—but there are 49,000 pairs of shoes on the shelves yet.

Every pair must go. Shoes that formerly sold at \$3, \$3.50 and \$4 thrown into the \$1 bargain.
