PRISON BINDER TWINE

Interferes With the Factory to Which the
Town of Port Hope Granted a Bonus.

Some years ago the citizens of Port Hope
granted a large bonus to a company, now
amalgamated with the Consumers' Cordage
Co., to start a binder twine factory. According to the agreement the company has
been employing a large number of hands,
but in July last were forced to shut down.
The sales for the year up to that time had
amounted to only one-half the output, consequently there remained almost a surficient supply of twine on hand for next
year's market. A public meeting was held
some days ago, at which the making of
twine by prison labor was condemued, and
a delegation appointed to ask the Provincial Government to at least restrict the output from the Central Prison factory.

Messrs. T. D. Crnig, M.P., Mayor J. W.
Quinlan, Dr. Powers and Thomas Long
were deputed, and waited upon the Cabinet yesterday. Sir Oilver Mowat was present in an ex-officio capacity, representing
the Dominion Government, which, by reason of the running of another twine factory at Kingston Penitentiary, is also concerned.

The Premier, promised his serious consideration. In the meaning to the agreement is a serious concerned.

Astronomical Society.

The regular bi-monthly meeting of the Astronomical and Physical Society was held Tuesday in the Technical School building. There were a good number of members present. After the regular routine business was ended, the secretary, Mr. Lindsay, read a lengthy and detailed paper on the history of the Nautical Almanac at Greenwich. Mr. Lindsay traced the progress of the work done in this department of astronomical science from its inception to the present time, dealing particularly with mathematical problems from Kepler and other mathematicians who have had much to do with building up our nautical almanacs. On the conclusion of the paper some discussion on it was held, led by Mr. Philips.

My sister has been troubled with severe headache, but these pills have cured her."

Buffalo, Oct. 28.—Captain Hickman and part of the crew of the stranded schooner Peuokee arrived in Buffalo yesterday after a tug and wrecking outfit to release the schooner which went ashore near Port Maitland. The tug Fabian set out for the schooner last night, expecting to get a lighter and pump at Port Colborne. It is expected the schooner can be floated as soon as she is lightered. McIntyre & Wardwell received the following despatch to-day from New York:

The stock market has ruled dull and heavy in tone all of to-day, and closed at net losses. The disposition to liquidate seems to have become more marked. The bond market also was heavy to-day. It is estimated that London has sold some 50,000 shares of stock during the week. The foreign houses are all considered borrowers against stocks in transit. Call money has averaged about 10 per cent. to-day. A very nervous feeling certainly exists over the money situation, and a pinch is feared between now and Monday. Some \$7,900,000 gold has arrived from Europe in the past week, including \$3,000,000 that came on the Teutonic this morning, but none of it lans found its way into the Treasury. There seems to be as yet no abatement of the disposition to hoard gold. Mr. Weil and Moore & Schley are credited with having been heavy sellers of stocks. Nothing will be done about getting rid of the legal obstacles to the payment of dividends on Chicago Gas till after the election. Foreign exchange was very firm to-day.
