

SMOKE BY-LAW PASSED

And Hereafter Manufacturers and Others Will Have to Provide Smoke Consumers.

G.T.R. FREIGHT SHEDS DISCUSSED

Private Committee Arranges to Buy Sites—Ald. Harrison's Plan for Remodelling Sheds.

The meeting of the City Council yesterday brought forth chiefly, besides routine, a smoke by-law, a warm but fruitless discussion on the Grand Trunk Railway freight sheds and an addition to the popularity of the Mayor for his conscientious dealings when he twice strongly protested against the spending of the city's money even for legitimate and proper purposes without the authority of the Council. The proceedings lasted till 7 o'clock, during which the following business was done:

Thomas Davies informed the Council that he withdrew his offer to sell Victoria Park, having received a better offer.

A letter from City Engineer Rust re Ashbridge's Bay marsh siding said he had reported to the Board of Control on the matter on the last, forwarding a plan of the proposed sidings upon Ashbridge's marsh, and also reported to the committee on the same on March 31 last. The matter of a two-track walk on the east side of Lee Avenue, on the long discussion resulting in the motion being lost by a vote of 13 to 0.

Controller Burns opened up a warm discussion by his motion to confirm the action of Park, Blackwell & Co. in establishing a pork packing business at the foot of Bathurst street. Ald. Hubbard strongly opposed the granting of the permit, saying that the establishment should be on the side of the city. Ald. Noble agreed the Medical Health Officer, saying that for the last four years he had done nothing with regard to enforcing the law against nuisances. Ald. Dunn thought that the position of the private citizen as regards nuisances was not altered by the granting of a permit to Park, Blackwell & Co. After some more discussion, the motion was carried by a vote of 10 to 6, the Mayor voting for the measure.

**Must Get Smoke Consumers.** Ald. Ward thought that the reading of the by-law to compel manufacturers and others creating smoke to use smoke consumers. The by-law was passed without opposition. It enacts as follows:

That all manufacturers and others in the City of Toronto who create smoke or power and thereby create smoke or power, or that may be carried by the wind or otherwise to other shops, houses or premises, or to the injury of the neighboring premises or residents therein, shall have such chimney, or chimneys, or other appliances, as shall consume the smoke, or prevent the same from fouling the atmosphere, or being carried by the wind or otherwise to other shops, houses or premises, or to the injury of the neighboring premises or residents therein, shall have such chimney, or chimneys, or other appliances, as shall consume the smoke, or prevent the same from fouling the atmosphere, or being carried by the wind or otherwise to other shops, houses or premises, or to the injury of the neighboring premises or residents therein.

**NOMINATED FOR A JOKE.** Boston, Oct. 5.—Frederick V. McDonald of Charlestown, the world's smallest politician, has entered the lists for the Boston Common Council, announcing his candidacy today.

Mr. McDonald is four feet tall and weighs eighty pounds, but he is a keen, active little man, and, the fact that he wears knee trousers, is likely to "make good" at City Hall, the ward leaders in his district say. McDonald's nomination was started as a joke, because of his diminutive size and boyish appearance, but the "wise ones" say he will be elected.

Grandes Hermanos v. Ca offer \$500 in gold for one suit of Grandas which is not pure Havana through and through. "Manana," the Spaniard, is Grandas' trade mark.

SHIPPED SHAFH ON OCEAN.

Crew of Overdue Boat Had to Work Eight Days.

New York, Oct. 5.—A narrative of truth that brings to mind King Lear, "Devil and the Deep Sea," is that of the experience of the crew of the Syracuse. After eight days' work shipping a new propeller shaft in mid-ocean, Captain Willard and the crew brought the overdue steamer into port yesterday. On Sept. 12 seven days out from Victoria, the connecting plate of the shaft of the thrust shaft snapped off. There was a heavy sea, and the ship was in danger. The steamer soon lost way, as the line of the shaft was going only nine and ten feet an hour. The break was directly under the low-pressure cylinder.

The freeboard was immediately set to work. The broken shaft was cut off and a spare shaft lowered into the hold. Eyes had to be bandaged and the crew had to work for eight days. The shaft was finally shipped and the steamer was able to proceed.

The freeboard was immediately set to work. The broken shaft was cut off and a spare shaft lowered into the hold. Eyes had to be bandaged and the crew had to work for eight days. The shaft was finally shipped and the steamer was able to proceed.
