Answer—If you are a receive, or for some other legitimate reason wich to find out, you might do so by writing the Military Service Acts Regions. When you are not connected in some way with the city light run it cheaper. They could build a large rooming house for the Chinese and feed them as a colony. The city got rid of white labor in the laundry down at the hospital, and why not do the same with the other institution down at South street. What need these two men care for labor's opinion or influence, as they are the victors at the polls with labor against them. Here is a chance to use some more Chinese labor. Yours, chinese labor.
