A BIG SUCCESS

Our first two efferings of shares of the PROSPECTORS' EX. PLORATION and DEVELOPMENT CO. were highly successful. This, our third and last issue at the low price, is also meeting with the success it deserves. It deserves success because the total issued capital is only 200,000 shares. The authorized capital is \$350,000, in onedollar shares. The Company owns 11 properties, on which development work is now being done. In our opinion these shares are more worthy of investment than any of the listed Cobalts. Full particulars on application. The whole proposition has our

seal of approval. Ten thousand shares only are now being subscribed
