SWITZERLAND SENDS NOTE IN SUPPORT OF PEACE PLANS

French Senate Declines Peace Discussion While Country is Invaded

NO PEACE WITH FOE WHILE ON FRANCE'S SOIL

French Senate Passes Unanimous Vote Rejecting Discussion of Terms.

SWISS SEND NOTE, TOO

Washington Took Action After Conference With Berne, Paris Says.

Paris, Dec. 24.—The unanimous vote of the senate affirming that France cannot conclude peace with an enemy who occupies French territory, coming at the same time as a peace note of the Swiss Government, has stirred anew the French press and public. The action of the senate gave further indication of the attitude of the allies towards President Wilson's proposals, with confidence voted in the Briand ministry was regarded most favorably.

The foreign affairs committee of the chamber devoted a large part of the session yesterday to an examination of President Wilson's note.

The Petit Journal suggests that President Wilson, in sending the note, knew he would have the support of Switzerland and says: "France pities its neighbor, menaced like Belgium, perhaps, but France, which did not want war, knows that there are suggestions that honor and interest prevent it from hearing."

The Swiss receive a warning that the Swiss note confirms one of the declarations of President Wilson, referring to discussions engaged in five weeks ago between Berne and Washington.

The Echo de Paris says: "Our resolution will demonstrate once more that the federal council would be mistaken in the feeling of the allies, and the French in particular, if it believed them disposed to negotiate with Germany. Germany has attempted the same effort in Switzerland and in the other European neutral countries to procure benevolent intervention. Switzerland needs the victory of the allies to prevent her own absorption by Germany."

The Matin says: "It must be remarked that the federal council supports the efforts of America without asserting itself with regard to the questions. Instead of asking the governments to make known the objects of the war, it limits itself to the very honorable wish that peace be concluded now and honor is to be rendered to the sentiments dictating the note."

WAR SUMMARY

THE DAY'S EVENTS REVIEWED

MESOPOTAMIA and Egypt appear to be now connected with each other as a single theatre of the war, possibly in conjunction with the Arabs, if continued activity on the Tigris River and on the Palestine frontier is any evidence that points to a coming advance. The news of yesterday shows that the Royal Flying Corps has just carried out terrific bombardments of the Turkish communications west of Kut-el-Amara, making the enemy base and shipping near Baghela the targets, and also bombardments of Beersheba and a railway bridge over a deep ravine at Tel El Shafia, 15 miles north of Beersheba, in Palestine. A ton of high explosives was also dropped on Turkish concentrations at Maghdaba, in the region of El Arish, near the Egyptian border.

This British aerial activity may be undertaken to prepare the way for an advance and not as a defence against the Turks, for the other day they confessed their inferiority by evacuating El Arish. It is said that the events of the war have shown that it is essential for the safety of the British Empire to protect the Suez Canal and that to make that watertight at all secure against attack from a formidable enemy the possession of Palestine by Great Britain is necessary. British interests in Palestine are greater than the interests of any other power and Great Britain has been a consistent friend of the Jews, so if the British occupy Palestine they will probably hold it as a protectorate and the Jews, of course, will be given every facility to proceed with the settlement of the country as well as the blessing of ordered government. If Palestine and Mesopotamia fall

Make Raids on Beersheba, Ajaja, and Important Railway Bridge, Doing Great Damage.

London, Dec. 23, 11.23 p.m.—A British official statement issued today says: "Yesterday our aircraft carried out several successful raids in the El Arish region (Egypt). At Maghdaba, about 15 miles north of Beersheba, was set on fire and a ton of high explosives was dropped on the enemy concentrations, causing many casualties to the personnel."

WILSON'S ATTITUDE PUZZLES GERMANY

Some Newspapers Charge He is Favoring the Entente Powers.

HARD TO INTERPRET

Note is Stated to Be Open to Number of Interpretations.

Berlin, Dec. 24, via Tuckerton.—The interpretation of President Wilson's suggestions concerning peace are somewhat confused by the fact that yesterday's comment was based on the short extracts from his note received here and the additional fact that Secretary Lansing also made a statement concerning the situation which the German people are not sure has not been distorted, says the Overseas News Agency.

"This confusion," the News Agency adds, "is illustrated by the fact that the comment published by the Vossische Zeitung yesterday and today differ in important points. Yesterday the Vossische Zeitung considered the Wilsonian note as a diplomatic intrigue which had been prompted by a desire to shield England and declared that the note ought to be received by Germany with the greatest distrust. Today's comment by the Vossische Zeitung recognizes that the president's suggestions, in their main points, are reconcilable with Germany's attitude. It says the note is a complicated document, which is open to various interpretations, and adds: "There is no reason for Germany to harbor distrust against President Wilson; and believe he was sincere when he suggested to our adversaries that they make known their peace conditions."

The German press is divided into two groups as to the interpretation of the president's note. The Deutsche Tages-Zeitung declares that President Wilson's intention is to rescue the entente from an impending catastrophe. The newspaper points out that Secretary Lansing's remarks were published the same time as the note and that they were hardly a veiled threat against Germany.

The Mardburgische Zeitung considers the note "a snare, which is laid in favor of the entente." The Hamburger Nachrichten recalls the experience of the Vienna congress and says: "What the failure of the Rumanian aid had been unable to do has been undertaken by the United States."

London, Dec. 23.—Speaking at Hornchurch on the American note, Premier Massey of New Zealand suggested that they tell President Wilson that they are not prepared to negotiate with Germany. He said that he was "as we have carried on the war without his assistance, so we intend to carry it on to the end. We will not tolerate interference."

London, Dec. 24.—Holland and Germany have signed a treaty providing for a supply to the latter of eggs, milk and fruit, says a Central News despatch from Amsterdam today.

London, Dec. 24.—James Shields, aged 75, an old resident of this city, died on Saturday afternoon following a short illness. He was one of the best known commercial travelers in Ontario, being employed by W. R. Johnson & Co. of Toronto for over 40 years. He leaves a family of five children. The funeral will be held on Tuesday afternoon.

TEUTONS BRING NORTHERN BANK OF STREAM UNDER ARTILLERY FIRE

Special Cable to The Toronto World.

London, Dec. 24.—The warfare continues active on the Rumanian front, with the Teutons displaying great aggressiveness in attacking the Russians and with them making further advances in the Dobruja. In an official communication issued today, Berlin claims that the north bank of the Danube on both sides of Tulcha is under the fire of the German guns. The news indicates that an attempt is to be made by Von Mackensen to cross the Danube again from the Dobruja.

BRITISH AIRMEN IN SPECTACULAR FIGHT

Day of Sunshine Causes Temporary Revival of Aerial Activity.

FOE HOTLY RECEIVED

Anti-Aircraft Guns Quick to Respond to German Challenge.

With the British armies in France, Dec. 24, via London.—(From a staff correspondent of the Associated Press.)—A day of sunshine, a rarity in December on the British front, recently caused a temporary revival of activity among the aviators, presenting a spectacle which a few years ago could have lived only in the imagination. Out of the distance there came early in the day a series of black specks, which gradually grew until they took the form of German airplanes. From points of telescopic observation their approach had been signalled long before even the first siren note was visible to the naked eye. British guns were ready and the British airplanes were already climbing above the ruins of the shell-torn Flemish town to challenge the invaders.

"Archies" Replied. While the German machines were still over their own lines, the British aircraft cannon, known as "Archies," began to speak. There was a sharp, angry crack. A moment later a sharp report burst into a white puff ball just in the path of the oncoming planes. At first the white flock of powder smoke seemed no larger than a pin head, but it soon spread until it appeared as an enormous white balloon and floated as lazily against the sky. Then there was another puff and then another, until it seemed that half a hundred "Archies" must be firing.

Deny Russia's Right to Secure Constantinople. Cologne Gazette Says Germany is Willing to Return Baltic Provinces.

Amsterdam, Dec. 24.—Prefacing an evidently inspired warning editorial with the statement that Germany does not desire to create a feeling of revulsion in Russia, the Cologne Gazette declares that Germany intends to re-annex Russian Baltic provinces, but that Russia must recognize that the new situation created in Poland cannot be changed.

The paper argues that in taking Poland, Germany was really rendering a service to Russia, and that, deprived of Poland, Russia will form a united and homogeneous empire. Germany will never allow Russia to possess Constantinople, according to the paper, and it is ready to negotiate with Turkey and Russia an arrangement permitting Russian warships and merchant men to navigate the straits.

PROPOSES TO UNIFY FINANCING OF WAR

New Zealand is Not Satisfied With Present System of Taxation.

London, Dec. 24.—A Reuters despatch from Melbourne today quotes Premier Hughes of the Australian commonwealth as follows in reference to Secretary Lansing's explanation of President Wilson's note to the Belgians: "Under the disguise of an addendum to the peace note deprecating the war, the explanation abruptly discloses that the situation is critical enough to bring the mediator to the verge of war. The peace note cannot be read apart from the thinly veiled demand to know the ally's intentions not for the purpose of mediation, but in America's interest. Such a situation is not more of an ultimatum than an offer of mediation."

Peace Coming Before August Is Expectation in Berlin

London, Dec. 24.—A Frankfurt despatch from the Exchange Telegraph Co., via Rotterdam, says there was heavy betting on the Berlin exchange yesterday that peace would be signed before August. The same despatch says that the German Emperor will return to Berlin for conferences with the American and Spanish ambassadors.

TURKS' SHIPPING IN TIGRIS SUFFERS FROM AIR RAIDS

British Machines Drop Great Quantity of Explosives on Base Near Kut-el-Amara.

London, Dec. 23, 9.55 p.m.—A report on the Mesopotamian campaign, sent out officially today, reads: "On the morning of Dec. 21, British aeroplanes dropped nearly a ton of explosives on the Turkish advanced base on shipping near Baghela, 25 miles west of Kut-el-Amara. On the same day hostile trenches on the south bank of the Tigris, near Kut-el-Amara, and on the north bank, near Samarra, were subjected to a heavy artillery bombardment. Aero-plane observers reported that both bombardments were very effective. At dawn Dec. 23, a second aeroplane raid on the Turkish base near Baghela was carried out."

PRESIDENT WISHES WHAT FOE WANTS

Lokal Anzeiger of Berlin Half Praises Wilson for Note.

URGES RUTHLESSNESS

If All Efforts Fail, German Organ Advises More Frightfulness.

Berlin, Dec. 24, via London.—The Lokal Anzeiger, after studying the full text of President Wilson's peace note, declares that the document does not warrant the conception given it by many German papers from reading the advance cabled summary, adding: "As long as the president's earnest intention to assist in bringing about peace, and in the entire document one finds no single word which, objectively examined, forms any conclusion that he takes a stand for one group of the combatant powers or the other. There is no ground, therefore, to attempt to represent the offer of peace as an un-friendliness act, for, basically, President Wilson wants nothing else than what Germany and its allies wish to attain by their peace overtures. Only the way in which he, as chief of a neutral state, wants to attain this differs from the way taken by us, and we must consider very carefully whether his way is passable for us, ruthlessly. The Lokal Anzeiger reiterates that Germany differs from its opponents in the action north of the Cuska River and three machine guns. The fighting on the eastern Galician front continues mainly to be affairs of outpost."

SWISS SUPPORT GIVEN WILSON'S PEACE PROGRAM

Notes From Other Neutral Countries Are Expected During Week.

WILSON GIVEN PRAISE

Swiss Federal Council in Close Touch With His Views.

AMSTERDAM, Dec. 24.—Announcing that the Swiss minister at Berlin is about to present Switzerland's peace note to the Imperial German chancery, the Vossische Zeitung says that peace notes from other neutral countries are expected in the course of the week.

Washington, Dec. 24.—Switzerland, in a note to all of the warring powers, has announced its support of President Wilson's appeal for a discussion of peace terms, saying: "It would consider itself happy if it could act in any, no matter how modest a way, for the rapprochement of the peoples now engaged in the struggle, and for lasting peace."

The note was despatched to the belligerents yesterday by the Swiss Federal Council and Dr. Paul Ritter, minister of Switzerland here, sent a copy of it to the White House, Secretary Lansing made it public today.

The translated text follows: "In Close Touch. "The president of the United States, guided by his warm desire that the hostilities may soon come to an end, has, for considerable time, been in touch, had the kindness to apprise the federal council of the peace note sent to the governments of the central and entente powers. In this note President Wilson discusses the great desirability of international agreements for the purpose of avoiding more effectively and permanently the occurrence of catastrophes such as that under which the peoples are suffering today. In this connection he lays particular stress on the necessity for bringing about the ending of the present war. Without making peace proposals himself or offering mediation, he continues himself to soundings as to whether mankind may hope to have approached the haven of peace."

"The most meritorious personal initiative of President Wilson will find a mighty echo in Switzerland. True to the obligations arising from observing the same friendship with the states of both warring groups of powers, situated in the terrible world-war, with its ideal and material interests most grievously jeopardized and violated, our country is filled with a deep longing for peace, to stop the endless suffering caused by the war and brought before its eyes by daily contact with the interned, the severely wounded and those expelled from their homes. We earnestly desire to establish the foundations for a beneficial co-operation of the peoples, and we are glad to see the president of the United States, it would consider itself happy if it could act in any, no matter how modest a way, for the rapprochement of the peoples now engaged in the struggle, and for reaching a lasting peace."
