FRIDAY MORNING JANUARY 14 1921

Influence of Church on People's Mind Greatly Weakened.

NEED OF MISSIONS

That the church had not the same power today it had before the war, and that religion had not the same hold on men's minds, was the declaration of Hon. N. W. Rowell at a big Methodist missionary rally in Massey Hall last night. It is proposed to raise \$200,000 for mission work and the meeting was to inaugurate the campaign. The hall was crowded and Mr. Rowell, who took for his

When he went to South Africa, he was told to be sure and see an aged native chief, who had known Livingstone, the great explorer. The chief was a real prohibition leader, a man of outstanding ability and influence in the country, and he said regarding missionaries, "They showed us the

The great weakness of Christian missions was the unchristian conduct of so-called Christian people, declar-

The great war had shown that no nation could prosper on the adversity of another nation. Christian people, like Canadians, could not play

saved the world for righteousness.

The League of Nations would succeed, Mr. Rowell thought, because it had as a fundamental basis those same great principles of right and justice.

Or which there is only enough to incoulate the prize cattle and valuable animals of the world.

Professor Vallee, who is attached to the Alfort governmental agricultural school laboratory, discussing the disease today said that the mice

fort. The natives were developing a racial consciousness. Commercial interests were teaching the natives materialism and it was very necessing the natives are available. ary for the Christian church to combat and counteract that growing tendency. The native should not be treated as an industrial machine, but as a human being. If he were treated as such it boded ill for Christianity and for those one and a half million of European stock who lived south of the Zambesi.

Missions to the East.

J. H. Arnup briefly referred to the campaign which had been inaugurated to raise funds for missionary purposes, and Fletcher Brockman spoke interestingly on the far east as a factor in the world's future. "A

-James Tindall has been elected president of the local Conservative glub for the third consecutive term. H. B. Neely and C. R. Hutchinson are the new vice-presidents. The annual report of the club showed the finances in good shape and an increased membership. The club arranged for an extensive entertainment program for the winter months.

Warning! You are not getting Aspirin at all unless you see the name "Bayer" on package or on tablets. Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Mone-aceticacidester of Salicylics 14.

BRANTFORD GOES ON WITH FUEL INQUIRY

Civic Officials Did Not Allow for Wood Shrinkage -Extend Car Lines.

Brantford, Ont., Jan. 13.—(Special). -That there had been no allowance made for the natural or additional shrinkage in wood cut at the civic fuel yards, was brought out in the fuel inquiry before Judge Hardy to day. Ex-Ald. J. T. Burrows, last year's chairman of the fuel committee, declared that the shrinkage in wood

CATTLE DISEASE

of French Experts.

Paris, Jan. 13.—A serum for the prevention of foot and mouth disease has been discovered by a commission people, like Canadians, could not play the part of the priest and the Levite and pass by. Conditions were in many respects more serious at present than during the war.

Germany had the material force to enable her to achieve a victory during the first two years of the war. But it was confidence in the cause of the c

right and justice that upheld the creasing the production of the serum, courage of the allies, who thereby of which there is only enough to insaved the world for righteousness.

the disease today, said that the microbe was invisible under the microscope, it being so infinitesimal that To South Africa, south of the Zami scope, it being so infinitesimal that besi River, there were one and a it passes thru porcelain filters, which have heretofore retained all known microbes. The virus used in the manufacture of the serum can be obtained

purposes, and Fletcher Brockman spoke interestingly on the far east as a factor in the world's future. "A wonderful change in Japan and China's natural life had, within the last few years, taken place and they must soon be reckoned with in world affairs. The church should project Christianity into the east—that was the bounden duty of every Christian. But they should first strengthen all missionary endeavor as soon as possible if their efforts were to bear Cruit.

The chairman of the meeting was J. H. Gundy, and during the evening a massed choir, under E. M. Shildrake, sang several hymns. Prayers were offered by Rev. E. B. Lanceley.

MAKES HORSES WINTER IN AN OPEN FIELD

Montreal, Jan. 13.—One of the most distressing cases that has ever attracted the attention of the Society for the Prevenion of Cruelty to Animals, was recently brought to the notice of that organization by Inspector Wilkinson, who discovered four horses, a cow and two calves at Riviere de Prairie in such a pitiful condition of exhaustion as to be almost dead. Action will be taken against their owner. The poor animals have been practically without food and shelter during the entire winter.

J. Bisch, Jr., Bridgeport, Is Missing in Northland

Kitchener Ont., Jan. 13.—(Special.) -It was given out here today that Jacob Bisch, jr., of Bridgeport, who for the past six years has been a trapper in the north, has been missing since October 5. Bisch had traps near Allenwater. He was last seen by some bushmen on October 5. A search of the woods is being con-

WIFE OF W. EULER, M.P., IS SERIOUSLY BURNED

Kitchener, Ont., Jan. 18.—(Special)
—Mrs. W. D. Euler, wife of W. D.
Euler, M. P. for North Waterloo, narrowly escaped death this morning when her clothing took fire as a result of a hot coal from the furnace falling on her clothing and igniting her dress. She received severe burns and was removed to the hospital, where it is reported she will recover.

the campaign. The hall was crowded and Mr. Rowell, who took for his subject, Are Missions a Success?" gave an account of his visit to South Africa, which was a fruitful field, he said, for the missionary, and where the church had already done good work among the natives. Mr. Rowell, while admitting that hurch effairs were far from satisfactory, said it was no time to become discouraged; that would, be copwardly. The whole trouble was not that there was too much but rather too little religion, he thought. Set With African Missions. When he went to South Africa, he whole the work, it is expected, will be carried on as soon as soon as spring arrives.
