REPORT OF NOVA SCOTIA SUPPLY COMMITTEE.

During the winter of 1894-95, our Committee accomplished a little work, chiefly for Newfoundland, but the year just closed was the first of really organized effort.

Knowledge as to our aims is needed by Auxiliaries and circuits.

Seven of our Auxiliaries and one Mission Band have contributed goods to amount of something over one hundred dollars (\$100), besides a good amount of literature. Cash to forward has also been supplied.

In all we have sent out ten packages, these containing clothing, household articles and literature.
