DOUGLASS TOWN MILL BURNED

Buckley Property Ablaze and Lumber on Roadside Catches.

(Special to Times) Newcastle, N. B., Sept. 29.—The Buckley mill at Douglass town with its mill, machine shop and blacksmith shop were totally destroyed by fire early this morning. All of the lumber on the south side of the road is still burning, but the fire under control after a hard fight. There is no estimate of loss available at present.

SALISBURY FIRM ROBBED AGAIN

Moncton, N. B., Sept. 29.—The general store of Cranford and Carter at Salisbury was robbed on Thursday night. Clothing, groceries and tobacco were stolen. This is the third time this store has been robbed within six weeks.

BISHOP ADDRESSES BOYS. Bishop C. D. Schofield of Victoria, B. C., gave an address to the boys of the Rothery Collegiate school at lunch time today. He told them of his work in the west and said that he spent most of his time traveling about in boats around the fifty islands of which he was in charge. He also dwelt on the work among the Indians and told the boys not to regard the Indians as being of little account as many of the prominent men in British Columbia were of straight Indian descent and their influence was commencing to be felt.

Kemal's Excuse To British for Violation Of the Neutral Zone

Text of Telegrams Exchanged by Turkish Leader and General Harington Over Movement of Kemalist Forces.

Constantinople, Sept. 28.—The text of the telegrams exchanged between General Harington, the British commander-in-chief, and Mustafa Kemal Pasha, the Turkish Nationalist leader, on the neutral zone question, have been made public here. Telegraphing Sept. 26, Kemal said: "Up to the present I have not been informed of any neutral zone having been established between the governments concerned and the government of the national assembly. The movements of cavalry and other units consist in following up the retreat of the hostile Greek army."

"Your excellency is aware that Anatolia has been completely devastated and burned and that hundreds of thousands of the population have been made homeless by the Greek army. This army, on the one hand, is continuing to perpetrate the same atrocities in Thrace while, on the other, it is profiting by each day's delay to reorganize itself. I would further point to the most recent violation of the exemption of the Greek military forces from the conditions of the neutral zone that a Greek airplane carried out warlike operations at noon on Sept. 28 over Turkish territory in the neighborhood of Eze-line, while as recently as Sept. 23 a Greek fleet was anchored off the port of Chalkidiki."

"Our efforts to avoid the occurrence of incidents are genuine and sincere, but we find great difficulty in understanding the reasons for such actions as the destruction carried out by British forces stationed at Chanak on our territory between Chanak and Erekei, the seizure of our buildings in the neighborhood of our town of Chanak, the destruction of arms and stores belonging to us, the bringing of guns and bombs in proximity to our troops and finally the construction of defenses by forced Motlem labor on the road separating us from the Greek army. I take the opportunity of informing you that observance of the freedom of the straits has always been admitted by us, and I request your excellency to take steps to prevent the occurrence of any misunderstandings prior to the assembling of the forthcoming conference which I sincerely hope may lead to permanent results. Harington's Reply.

General Harington's reply, which reached Kemal at 5 p. m. Wednesday, read as follows: "I have received your telegram. This is the first intimation I have had of any misunderstanding regarding the neutral zone as proclaimed by the Allied powers. I would draw your attention to the fact that your commander at Ismid last year actually marked the neutral frontier in conjunction with my commanders. I realize your objective as being Greek military forces, but there are no Greek military forces in the straits, and in the zone you are threatening, nor have any passed through. Taking your points in order—First, your excellency has any airplane at Eze-line or its neighborhood to which you are referring; second, the Greek fleet was entirely withdrawn from Constantinople."

"The following real estate transfers have been recorded: Devises of John to S. D. Wilson, property in Queen street, west. Colbrook R. & D. Co., to C. W. W. Raycroft, property at Glen Falls. The real estate of A. Corbin, property in Simons. G. H. Harding to R. H. Cochran, property in Lancaster. Thompson Machinery Co., Ltd., to W. H. Thorne & Co., Ltd., property at Grand Bay. Thompson Machinery Co., Ltd., to U. V. Caulfield, property at Westfield. F. L. Vincent to E. L. Vincent, property in Rothery. INTERESTED DEMPSEY. While Jack Dempsey, world's heavyweight champion, was in the city yesterday he was a guest of S. MacLaren and had the pleasure of looking over his notable collection of data on the prize ring, which is reputed to be the most complete in North America. This champion said he never saw a more comprehensive history of the ring in his life and regretted that he did not have an opportunity of staying and reading some of it. He said he could undoubtedly learn something about the training methods, etc., of the famous boxers who fought with their bare hands for so many rounds. He was surprised when shown a piece of the colors worn by John C. Heenan when he fought Tom Snyres, who was champion of England.

GOOD THINGS COMING TO THE THEATRES OF ST. JOHN

"MANSLAUGHTER" UGLY WORD, BUT—!

There are only three or four Cecil B. DeMille productions a year, and the public knows they're the high points of the season. On Monday and Tuesday Imperial Theatre will be showing Mr. DeMille's latest production, "Manslaughter" from the story by Alice Duer Miller. Jean Macpherson wrote the scenario. The cast is exceptional. Thomas Meighan, Leatrice Joy and Lola Wright lead it. It is probably the most stirring and human story Mr. DeMille has ever visualized on the screen. And it isn't lacking in spectacle, either. Crowns, sets, luxury galore, thrills in profusion and drama as intense as anything one ever saw. Scenes show the barbarian invasion of Rome, a morning matinee will be given at eleven o'clock tomorrow.

MORNING MATINEE UNIQUE TOMORROW

The Unique played to capacity at each show Thursday, and the first chapter of the "Robinson Crusoe" serial, "White Eagle," with a most interesting and thrilling chapter. The main picture of the programme is to be Byron Morgan's dashing automobile adventure "Across the Continent," which will be shown at 11 o'clock. The numerous meetings held last week following receipt of the original message from the British government resulted, it is understood, in the disposition of routine business which had accumulated, and it may even be that a decision was reached as to what action would be taken in the event of hostilities. At any rate, no cabinet meeting has yet been called and none is in prospect at the moment. So far as can be ascertained the action of the government in the event of hostilities would be confined to the immediate calling of an emergency session of parliament. Members would be summoned to Ottawa with the least possible delay and parliament would be asked to determine the course of action to be pursued. This is the policy favored by Hon. T. A. Crerar, Progressive leader, in his recent visit to Ottawa, and it is thought that the government is in agreement with it. The prime minister is understood to be in receipt of cabled information from the British government daily, and this, taken in conjunction with the news despatches, enables him to follow the trend of events carefully. To Use Prisoners. Smyrna, Sept. 28.—The Turkish government intends to use the Greek prisoners, who exceed 70,000 in number, in the work of reconstruction in the devastated regions.

A SETBACK IN WALL STREET

Stock Prices Declined at the Opening—Break in Sterling One of Factors.

New York, Sept. 29.—(10.30)—Stock prices suffered a severe setback at the opening of today's stock market, early declines in the active issues ranging from 1 to 3 points. The break in sterling resulting from disquieting news from the Near East, and the abandonment of the Republic-Midvale-Indian Steel merger furnished professional shorts with sufficient ammunition to bring down the market.
