**SALE OF SUMMER MILLINERY**  
Women who are still needing an extra summer hat, either for dress or sport wear, will find it decidedly to their advantage to look in at the smart millinery now on sale in Manchester Robertson's, Limited, millinery salon. Untrimmed hats of fashionable shapes for women, misses and children are now on sale at the remarkably low price of one dollar. An assortment of hats both trimmed and untrimmed are selling at two dollars. Tailored hats, outing hats, sailors, and shirt waist hats in many variations are on sale at three dollars, and it will not be at all difficult to pick out a suitable feather, ornament, or flower for any of the above for twenty-five or fifty cents. Special reductions are also being offered on trimmed dress hats. Sale will continue during the week-end. 9-28.

**HOW IT BEGAN.**  
Customary figure of the boy scout has become in the United States, General Baden-Powell's visit added much to American knowledge of the movement. A good many newspaper readers were probably surprised to learn that it owes its beginning to the Boer War and the story of Mafeking, without which it may be questioned whether there would have been any boy scouts. In command at Mafeking, General Baden-Powell looked far beyond the siege, and saw that a great and useful organization of boys might be developed from the corps of boy messengers organized to serve the forces holding that hard-pressed town. That was the beginning of it, but the

**THERE IS DANGER IN TENDER GUMS**

To preserve healthy teeth the ordinary tooth-pest is little. You must first care for the gums, on which tooth health depends.

How many people think of this? Yet four out of five people over forty suffer from gum-disease, or Pyorrhoea (Riggs' Disease).

At first the gums become tender, though actual gum-shrinkage is imperceptible. But in time receding gums will surely loosen your teeth, and then only a dentist can save them. The tender, bleeding gum of Pyorrhoea also acts as so many doorways for disease germs to enter the system - infecting joints or tonsils - or causing other ailments.

Forhan's (For the Gums) prevents Pyorrhoea. If used in time and used consistently, this means that it prevents gum-shrinkage, gum-tenderness, gum-bleeding. So, automatically, Forhan's prevents tooth loosening. Brush your teeth with it. It scientifically cleans the teeth - keeps them white and clean.

If gum shrinkage has already set in, start using Forhan's and cor. a dentist immediately for treatment. 35c and 60c tubes. All Druggists. **FORHAN'S, LTD.**, 507 St. James St., Montreal.

**Panthers Threaten Vancouver Island**

Victoria Paper Calls on Government to Take Steps to Deal With Scourge

Once again it seems desirable to impress on the government the necessity of steps being taken without delay to deal with the panther scourge on Vancouver Island, says the Victoria Daily Colonist. Within the last three weeks there has been considerable destruction of sheep. The Manly Brothers & Cobble Hill have lost seven head; in the Kokalah and Cowichan districts there have been other depredations. Mr. C. A. Holland has lost from twelve to fourteen head of sheep at his Melchett farm. On other farms the owners have had to stand guard with firearms in order to prevent depredations. It is gradually becoming apparent that those who are endeavoring to build up the industry will eventually find sheep breeding is too risky, unless the authorities once and for all take such action as will rid the island of the pest of panthers.

The reason the depredations continue is because the bounty offered for the destruction of panthers is too small. It should be \$30, or more, per head. There are men on this island at present who possess trained dogs and who would be ready to take up the hunt if it was made worth while. Whatever is done should be carried out in a systematic way. The island should be divided into districts with one or more hunters allocated to each, and the government should see its way to pay these men a salary while they are engaged in the pursuit, as well as allowing them the bounty at the increased rate to which it should be raised. It may not be generally known that there are a number of farmers on the island who have bent their energies to sheep breeding; they are spending considerable sums to develop stock by importations from the east, and from the old country, but by its inaction in dealing with the panther scourge, the government is negating their efforts.

Those who are most closely in touch with the situation believe Vancouver Island could be swept clear of panthers within a very short time, and that only
