ed certain of its members to give evidence before the Commission inorder that first-hand informamend (1) That existing industion from business men of long tries be so protected that future experience and recognized stand ing could be availed of. These long tries should not apply or long tries be so protected that future help relieve the unemployment situation; that the additional wages would compensate the form rate for name tries.

Judging from the report of the Commission, which is an exhaustive one, pains were taken many propositions to abolish the to give very representative type of business man an opportunity of presenting his views on the subject of tariff revision. Wherever possible, written statements were the preferential
form of expression, and the Report states that no finding in
respect of any Tariff matter was
made unless and until the Commissioners were fully accordant. made unless and until the Commissioners were fully cognizant of all the facts in relation to the matter and were absolutely satisfied that the information to hand was comprehensive and accurate enough to form a just these were matters coming under the province of the Legislature and not within the scope of the second of of the seco

In the new Schedule submit- a matter for the Executive Gov- were much used in the homes of valuable enough to the country

When this new Schedule was submitted to the Board of Trade the late Tariff Commission was notified by their Council that ho fault could be found with the compilations.

The report of the Commission agos on to say that similar testimony as to its provisions and general character, was given by practically all representatives of the Government service provided to compilation of the local trade who came before the Commission from time to the Commission from the Commission of the Commission from time to the Commission from time to the Clothing manufacturers wanted by the strict observance of legislation already enacted all materials entering into the Clothing manufacturers wanted to the strict observation of legislation already enacted with the there and the friends and in the Clothing manufacturers wanted all materials entering into t

To this appeal, the Commission reports a fairly general response The Commission under their authority from the Governor were powerless to reduce taxation generally; all they could do was remedy to the best of their ability existing conditions and correct certain anomalies which had crept into the old Tariff.

They could not however accede to the imposition of high-er duty on the finished products and the question of curtailing free entries was outside their jurisdiction.

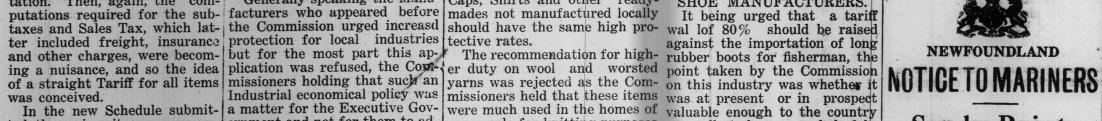

MOTOR CAR INDUSTRY The Commission could not accede to the request of the Motor Trade for the reduction of duty on motor car importations generally. Certain anomalies which existed in the old Tariff were remedied in order to ensure unicurate enough to form a just basis for decision.

In addition to all this Sub-Committees of the Commission were formed to go into such branches as the Hardware Trade Provisions and Groceries, the Supply Trade and Meat and Cattle importations; and the Report states that these Committees were comprised of those members of the Commission best versed in the matters they were delegated to consider.
