Prospects of a Wholesale Blood-letting -An Army of Tramps Marching on New York-The Whisky War in Cincinnati and the Civil War in Kansas -World's Fair Festivities.

San Francisco, Aug. 4.-Advices from Honolulu by the steamer Monowai, which arrived this evening, are unimportant. The council of the provisional government has decided to institute a osecution for criminal libel against Charles Creighton for having put Minister Blount's name on the cane presented to Claus Spreckels, which Blount claims was unauthorized, unless a satisfactory apology is made to the American minister by Creighton.

The Monowai brought news of the engagement which took place between the forces of King Malietoa and Chief Mataafa briefly mentioned in the cable advices of July 13th. The fight took place on the 8th and the rebels were defeated. On Mataafa's side 16 were killed and 17 wounded, while the king lost four killed and 11 wounded. The first news of the battle that reached Apia was the bringing in and presentation with much ceremony to Malietoa of the heads of Later two more heads were brought in, making 13 in all. One of the killed was a woman who was beheaded while defending her wounded husband. On his way back from the fight Mataafa, who was wounded, set fire to his own town which was burned to the ground. At latest accounts he had gone to Upolo, where he was hemmed in and had no chance of escape. Malietoa's forces number 2500 men while those of the rebel chief are only about 800.

The Whiskey War.

Cincinnati, Aug.4.-On Saturday Cincinnati distillers must pay to the government \$3,000,000 whiskey tax. The Government has failed to recognize the reqest for an extension of thirty days. The rate per gallon of government tax is 90 cents. The Cincinnati distillers must pay on 8,800,000 gallons of whiskey. Columbia, S.C., Aug. 4.—The citizens of Sumter are giving state whiskey spies a deal of worry. Yesterday Constables McCatty and West obtained an order of

search and seizure from Judge Fraser and went to the premises formerly used by David Morris as a barroom. Assistant Attorney-General Buseman accompanied them. They broke down the door and found nothing but some old stock that had been sealed and stored away before the dispensary law went into force. Morris kicked one of them down stairs. The crowd was with Morris, and they jeered and hooted. When one of the constables he was badly indertook to resen beaten. Constable Halloway was followed through town by a crowd of boys, who pelted him with rotten eggs and he had to seek protection from an alderman. Several arrests will follow.

The Kansas Civil War. Topeka, Kan., Aug. 4.—Yesterday's session of the court martial trying Col Hughes, was occupied in disposing of objections of the defence charging him with giving information to the "enemy." The prosecution boldly charged that the Reublican members who had fought their ray through armed men, and broke were the "enemies of the state, whether war had been proclaimed or not." All objections and actions of defense were promptly over-ruled by the court. The preliminary fighting is now over and the evidence will be heard to-day, the first witness being Governor Lewellyn.

Congress Respensible. Washington, Aug. 4.-Congressman Holman of Indiana returned to Washington to-day. Speaking of the financial situation the judge said he favored both metals as a basis for a monetary system. Any remedy for the present depression should be considered carefully. He said he had not consulted with his colleagues yet; he did not know what steps would be taken. Responsibility. had been thrown upon Congress, and that body must accept it, but should not do so hastily. The two metals had in former years in American history been maintained at parity without injuring any industry. The 53rd Congress, Mr. Holman thought, would be in continuous session until May next with the exception of the holiday recess, at which time its work, in his opinion, will have been completed.

Schemes of Economy.

World's Far Grounds, Chicago, Aug. 4.-The World's Fair management does not intend to stop at closing up leaks and pruning down the expenses of the great enterprise. The local directors, council of administration, and the association of American exhibitors are work ing in union and will furnish special at tractons that will draw out the people and so increase the receipts.

Each of the organizations will have a special line of work to follow, but will have the same object—to increase the attendance. Now that the directory have determined to begin paying off debenture bonds on Aug. 17th, it is imperative that the receipts be increased that the contractors may not be neglected. The first payment is to be 10 per cent. of the principal of the bonds, or \$444,450.

There was a gathering of the clans at the fair to-day. It was Scotland's day, and the sound of the bagpipes, with stalwart men in kilts marching to its music, could be heard and seen on all sides. The attendance of those who are members of organized societies within the World's Fair Scottish assembly was very large, but much larger was the crowd of Scottish-American people, residents of Chicago and neighboring cities, who made the occasion a special reason for The programme of exercises provided for a reunion in the morning at the Illinois state building, and the meeting, which was held in the

of literary men, vocalists and artists. At the congress of Scots, as it was announced, the programme of addresses was given in festival hall during the afternoon. At the conclusion a special concert of Scottish songs was given.

This afternoon the board of lady managers gave a reception in honor of the officers of the Viking. The affair took place in the assembly room in the wo men's building. A fine musical programme was rendered. Chief Skiff and staff and the exhibitors

in mines and mining will give a reception in the mining building to the associated Malietoa's Victorious Forces Far engineering societies and and the ladies accompanying them this evening.

The report that Theodore Thomas, director of music at the World's Fair, had resigned is denied by the World's Fair officials. Director-General Davis said so far as he knew the report was false. "If he has resigned," said Col. Davis, 'I know nothing of it, but I do not think there is any danger that he will resign." President Higginbotham said point blank the report was not true. "Mr. Thomas has not resigned," said he, "and I don't know that he has any notion of doing

Thousands of Idle Men.

New York, Aug. 4.-The World this metropolis is soon to be overrun by an army of idle men. Statistics from 57 show that in these trades alone over a steamer sailing on Aug. 5th, and this 36,000 men are out of work, and it is was taken as a sign that the verdict of declared that this represents only a por- the arbitrators would be rendered this tion of the city's unemployed. It is said thousands are coming here from the west in search of work, and that immigrants are tarrying in New York because of business stagnation in the western states. It is also pointed out that the nost of idle men is being further increased by the closing of factories, and the claim is made that manufacturers who do not close their mill doors are importing pauper labor. Western cities, it New York free of cost, and it is hinted that there may be bread riots in the near future. The assertion is made that Horace Greeley's maxim, "Go west, young man," has been reversed by the silver kings of the Sierras.

Stock Market To-Day New York, Aug. 4.-Lower prices were the rule at the opening of business at the Stock Exchange this morning. General electric fell 2 points, and the other active issues 1-4 to 1 per cent. The market was affected by cables from London and a fear that the financial and business troubles may spread in the west.

Twice Sentenced, Twice Pardoned. Poughkeepsie, Aug. 4.-Ishmael Freeman, the colored man who has been

pardoned from Sing Sing, where he was serving a life sentence, will not come to Poughkeepsie, having been ordered to leave the state at once. He was charged on March 14th, 1860, with having poisoned his wife, and he was tried twice, the jury having failed to agree on the first trial. When convicted on the second trial a year later Judge Emott sentenced him for life. It was proved at the trial that several days before the death of his wife Freeman purchased arsenic, but the defence showed that during her illness his wife frequentty the best nurse she could have. The jury after a long delay found him guilty. This is the s cond life sentence Freeman has been rescued from by pardon. He came here in 1859 from Sing Sing, where he was serving a life sentence for killing a sailor at sea. He was convicted in a United States court.

May Thorn's Death. New York, Aug. 4 .- May Thorn, aged

26, a handsome actress, choir singer and music teacher, took morphine with suicidal intent last night at her boarding house, 48 west 12th street. She was removed to St. Vincent hospital, where down barred doors to get to their seats she died this morning. The cause of the year the "enemies of the state, whether act is a mystery. It is said her father is a wealthy mine owner living in San Francisco. Edith Thorn, sister of the dead girl, said: "May was 26 and had lived nearly all her life in San Francisco. She once appeared on the stage and took the part of Isabel in one of the "Trip to Chinatown" companies, but the position proving irksome she left the stage and decided to teach music. While living in San Francisco the girl was engaged to be married to a very wealthy man of that place, but for some reason the match was broken off. She came east almost immediately afterwards." Edith Thorne refused to tell the name of her parents, or their address in San Francisco, or the name of the man whom May was about to marry. "What do you think was the cause which led your sister to take her life?" was asked. Edith replied that she had not the least idea. "May never confided in me, and I was horror-stricken when she told me last night that she had taken morphine. She had numer ous admirers. I have telegraphed to my father and he will have the body taken west, as I have no money to meet the expenses."

> Wholesale Robbery. Chicago, Aug. 3.-Evidence of a starting nature, concerning the cold storage warehouse fire, was taken by the grand jury to-day. The witness who gave this startling testimony was John J. Duggan, formerly a Stoney Island avenue saloonkeeper, and the man who first told of the looting of the cold storage warehouses and firing by a gang of robbers. He was flushed and excited with the inquisition he had undergone, but said he had made a clean breast of it. According to Duggan there were 150 men concerned in the conspiracy, and he declared that he had given their names to the grand jury. He said that from the opening of the exposition right up to the time of the fire goods were stolen, or at least removed, from the cold storage warehouse by the wagon load. The wagons used were express wagons generally, though he had known of water carts going out of the gates with their tanks filled with hams, bottles of wine and other stock. "Who removed these ing, Lake George, was the Rachel Shergoods?" was asked. "Employees of the cold storage warehouse and a gang that live on Stoney Island avenue just, outside the grounds. "Did you give evidence that would implicate criminally the persons who removed the goods?" Yes; there will be a sensation when boken, 21 persons in all. this whole thing comes out. There are about 150 implicated. I have given the names to the jury." More witnesses in

Washington, Aug. 4.-Later advices, probably more trustworthy than those previously received by the state department as to the movements of the Behring Sea arbitrators, have reached this city. Senator Morgan cables his son of which was engraved the following inmorning had a long article saying the that it will be impossible for him to leave Paris before Aug. 19th. This is a postponement of two weeks beyond the time originally set for his departure. Several trades in New York city are given to days ago the senator booked passage on week. From the language of his cablegram, it seems he is doubtful whe her the arbitrators will have finished their duties even upon the 19th.

It is said he is seriously ill and that it will be a long time before he is seen again in public is declared, feed and forward tramps to in England. An intimate friend of his family said last night that Lord Randolph's nervous system is shattered. There seems little doubt that he is seriously broken in health.

Suspected of Cholera.

New York, Aug. 4.-Doctor Talmage, quarantine officer, boarded the Anchor line steamer Karamania from the Mediterranean, this morning, and inspected the passengers. All were well but Dr. Jenkins has asked the quarantine commissioners to send transfer boats to take the passengers on to the island in the lower bay, where they will be bathed and washed. Dr. Jenkins said: "While we can find no evidence that cholera exists on the Karamania we deem circum stances sufficiently suspicious to hold the vessel and passengers until all doubts are removed. This morning arrangements were being made to transfer the passengers to the island." The health officer will hold the steamer at least five days.

Three Big Factories Closed. Philadelphia, Pa., Aug. 4 .-- The worsted goods manufactory of John Bromley and Sons closed last night on account of the depressed condition of trade. Three thousand employees are affected. Tonight Daak and Son, worsted manafacturers closed for the same reason, and about 800 employees are thrown out of manufacturers, closed their plant, and 500 men and girls are idle. Numerous other manufactories of this class are being worked on short time.

SPANISH AMERICA.

Minister Egan Coming Home-Yellow Fever Raging in Costa Rica.

Panama, Aug. 4.-Patrick Egan, formerly minister of the United States to Chile, is a passenger on the steamer Columbia, which sailed for New York yesterday.

News has been received here from Tegucigalpa, Honduras, that Ponciano Leava has formally renounced the presidency of that republic. Advices from San Jose de Costa Rica

announce that President Rodriguez is ill. Minister of War Yglesias is in temporary charge of the government.

Yellow fever is again raging in Limon. From La Libertas, San Salvador, comes the report of another unsuccessful revolutionary uprising. The leaders were detected and shot and many accomplices imprisoned.

Buenos Ayres, Aug. 4.- The situation in La Plata, Argentina, is more serious. Ten thousand well equipped revolutionists are ready to attack the city unless the governor capitulates. If the demonstration here continues the national government will interfere and put an end to hostilities.

Valparaiso, Aug. 4-The Chilean government has sold to Ecuador 5,000 rifles, 4,000,000 cartridges, a quantity of shot and shell, and 20 mountain guns of Krupp niodel. Bolivia will receive a similar quantity of arms and cartridges soon. It is known the feeling against Peru by Ecuador and Bolivia is not at all cordial. Ecuador has a grievance on account of the boundary dispute, and Bolivia is heaping up old complaints. Since the publication of his letter to ex-United States Minister Egan there has been a feeling of hostility against Minister Errazuriz, This has been so pronounced recently that he has been compelled to resign his cabinet position owing to the Egan letter scandal and other causes. President Montt accepted the resignation.

San Francisco, Aug. 3 .- The following advices arrived by steamer from Hawaii, yesterday:-A few minutes before the Australia

sailed from Honolulu on July 19, a num-

ber of prominent royalists met Claus Spreckels in the captain's cabin, and through Charles Creighton, presented him with a cane, upon the gold handle scription:- "Ave Clause. Consul Blount denied all knowledge of such a cane, and expressed the strongest indignation at the unauthorized use of his name, and has laid before President Dole a formal complaint The Government has demanded an explanation from Charles Creighton.

Just as the Australia was casting off, Mr. Spreckels addressed a crowd of natives. John E. Bush, who in the late Legislature villified the Queen and Wilson, but who is now an active royalist leader, acted as interpreter and elicited some moderate cheers for Mr. Spreckels. Cheers for the Provisional Government were given by the whites in ringing style.

President Dole denies that Minister Thurston has reported any distinct intimation from Mr. Gresham as to renewed action upon the treaty of annexation. Mr. Dole believes, however, that in the natural course of things negotiations will be resumed at an early date, and for this reason Commissioner Alexander is being sent. He is to sail on the 27th. His instructions had not been made out the treaty. Some modifications were tentatively discussed some time ago, but 1-4 to 1 per cent. they were dropped, no useful action seeming to be available.

This is the first time in the history of British manoeuvres of this kind that the defensive fleet has won.

Sunday at the Fair.

World's Fair Grounds, Chicago, Aug. .- The gates of the White City will be open to-morrow, that is some of them, and so will some of the buildings, but by far the larger number will be closed. No programme of music or special attractions of any kind have been arranged to make Sunday at the fair pleasant for visitors. The restaurants will be closed and the cars on the incremnral railway will not be run. Chair pushers will take the day off, so will the gondoliers and the men who manage the electric launches. Director-General Davis and President Higginbotham have gone out of town to stay over Sunday, and all the offices about the administration building will be deserted. As yet the resignation of Theodore Thomas as director of music has not been handed to Director-General Davis, and it is not probable it will be before Monday, as he s not in the city. HOWARD'S SWINDLES.

Exposure of a Doctor of Divinity Who

Appreciated Human Weekness. Jackson, Tenn., Aug. 5.-News was received here to-day of the arrest of Dr. Fred K. Howard of this city in Chicago, where he and his family were attending the World's Fair. Howard is charged with using the United States mails, for fraudulent purposes in connection with his European claims agency. The authorities have been on his track for years, and they allege he has been operating under the names of "St. Leger. "A. Goodfellow," "F. Howard," "Wm. Lardmore," ad "G. F. B. Howard," and did business in New York, London and Jackson. His reported victims, who paid fees for fictitious claims across the Atlantic, objected vigorously when their British possessions were not forthcoming, and especially when Howard broke off the correspondence.

A lively correspondence sprang up on the subject between Secretary Gresham and Premier Gladstone. Hoke Smith's attention was also directed to the matter and federal officers were put to work to run the man down. Inspector Little ordered the doctor's arrest in this city immediately after receiving the news of his arrival. The inspector searched Howard's office and house and found nearly a bushel of private papers, which are now in custody of the marshal. Howard returned from Europe last winter, where he claimed to have been appointed by a syndicate as president of the Gulf and Ship Island railway, extending southward from Jackson, with its terminus at Ship Island. The scheme has been most by the executive committee to make valuable to him in his collecting business, as he used the printed stationery of the proposed road bearing his name as president.

Local officials and citizens have receive ed hundreds of inquiries concerning him from reported victims. Howard is an Englishman and a doctor of divinity, a minister of the Baptist church and a lawyer. He became widely known in 1889 in his suit for \$50,000 against two newspapers and leading members of the First Baptist church of this city, had published an article ventilating his record and accused him of bearing a false name. The jury awarded him one cent damages.

A Family Brawl.

Montreal, Aug. 5 .- Adolph Mathon fatally stabbed his wife last night. The police have been looking for him for an assault committed upon his mother-inlaw on May 31st. He fled to the States to avoid arrest. Yesterday he returned to the city and went to his wife, whom he found in very poor health. She up-braided him for leaving her alone so long; a quarrel ensued, during which he stabbed her twice with a penknife, once in the chest and once in the back. then ran away, but was captured shortly after.
