There is a Tide

in the affairs of men which, taken at the flood, leads on to fortune!

This truism from Shakespeare was never so true as in these twentieth century days of unexcelled prosperity in business and

This prosperity, however, will not continue indefinitely, and, if you are wise, you will not delay in preparing for the inevitable "rainy days" to come.

NEWRAY

as an investment

is the most attractive issue in the Porcupine list today. It is just commencing to come into its own, and the indications are that the company will join the list of big producing mines within the next few months.

Newray shares are selling today in the open market at \$1.32, which, in consideration of the low capitalization of the company, and the enormous acreage of the property, is far below

their intrinsic merit. We confidently believe Newray is now on the way to \$2.00 a share, and recommend the immediate purchase of the stock for big profits.

"Cure Your Rupture Like

I Cured Mine" Old Sea Captain Cured His Own Rupture After Doctors Said "Operate or Death."

His Remedy and Book Sent Free.

Captain Collings sailed the seas for many years; then he sustained a bad double rupture that soon forced him to not only remain ashore, but kept him bedridden for years. He tried doctor and truss after truss. No results! Finally, he was assured that he must either submit to a dangerous and abhorrent operation or die. He did meither! He cured himself instead.

Captain Collings made a study of himself, of his condition—and at last he was rewarded by the finding of the method that so quickly made him a well, strong, vigorous and happy man.

Anyone can use the same method; it's simple, easy, safe and inexpensive, Every ruptured person in the world should have the Captain Collings book, telling all about how he cured himself, and how anyone may follow the same treatment in their own home without any trouble. The book and medicine are FREE. They will be sent prepaid to any rupture sufferer who will fill out the below coupon. But send it right away—new—before you put down this paper.

HARDWARE MARKETS The hardware markets are still the centre of attraction in hardware trade circles. Advancing prices and increasing scarcity of supplies are the most important features at present. There is a very market shortage of all sizes of files used in munition work. There is also a threatened shortage of some sizes of iron pipe and wire nails. Boiler plates have advanced 50c. per 100 lbs. and boiler advanced 50c. per 100 lbs., and boiler tubes are almost due for another advance. A new and smaller discount now applies to the miscellaneous wire nail ist. Paint products are all decidedly arm, with the exception of turpentine,

er in price, with some advances reported.

The demand for iron and steel is as insistent as ever, and prices are decidedly firm, with advances taking place on sheets, wire products, etc. Since December, practically no sheets, black or galvanized, have come in from the United States. The decline in production during the first two months of the year has put some of the mills further behind on deliveries. The railway situation is slowly improving, in both Canada and the United States. Many shipments have gone astray, causing great delay and inconvenience.

Syrup. This preparation has been on the market for the past twenty-five years, and has always given universal satisfaction.

Mr. Erwell Bolton, Wilton, Ont., writes: "Last winter I was caught in a storm and had to stay in a barn all night. I caught a severe cold which several medicines failed to cure. I went to some of the best doctors but these failed to do me any good. A friend advised me to use Dr. Wood's Norway Pine Syrup. I used three bottles and they gave me instant relief."

When you ask for "Dr. Wood's" see that you get the genuine, put up in a

There is now an increasing demand for gas ranges and summer oil cooking stoves. With the close approach of the opening of navigation, there has been an improvement for cordage lines. Binder twine prices have not yet been announced, but they will likely be considered. siderably higher than last season. There have been advances during the week on black sheets, boiler plates, mis-

cellaneous wire nails, screw and strap
