## MISS CAMERON'S SECOND LECTURE

PEACE RIVER WAS SUBJECT DEALT WITH

Interesting Description Given by Well Known Victorian.

(From Thursday's Daily.) words to the finish of the lecture there was not an uninteresting moment Miss Cameron's description of one of the Victoria theatre. Many expressions of surprise at the title of the were made before last night, but after istening to Miss Cameron's story and looking at the series of wonderful audience were convince that "The Witchery of the Peace" was an excellent and eminently suitable title for the lecture.

The theatre was again filled, even to

the gallery, and at every point the intensest interest was taken in the lec ture. Before asking for the lights to be turned out Miss Cameron briefly indicated the journey that was to be described, and the small maps given to every one who entered the theatre were a valuable guide to the geographi-A few photographs of the people of ful river that will some day, and in the near future, become the highway Mr. Williams, accompanied by decide in what mode they should prowho will settle on the rich land conriver. The river at this point is two and one half miles wide, and the river. There is no way of getting the vere shown, and the great size of the river with its immense flow of water was impressed on the audience.

seen here and there on the journey. Her description of the autumn tints to get it on its feet." through which she passed.

tary, Miss Brown, seated on a small knoll and the audience applauded the excellent photographs of both ladies. But Miss Cameron went on to explain that it was not for the personal interest the photo was taken, but because the ladies were at the historical enough the same of the camp, who provided everything for their comfort.

Mr. Williams states that the difficulties were at the historical enough the camp. ladies were at the historical spot where ties with the Indians over the game Alexander Mackenzie started on his laws have all been satisfactorily ad-Alexander Mackenzie started on his historical journey across to the Pacific shore in 1798. In perfect English, and with that deliberate style which makes with that deliberate style which makes with that deliberate style which makes and the results arrived at were progress. Every building on the progress. Every building on the progress. Every building on the progress at started on his laws have all been satisfactorily adsolved and been satisfactorily adsolved in the interior, he held a show in connection with the Alaska-shore in 1798. In perfect English, and conference with a delegation of fifteen yukon-Pacific exposition is now in and Hon. W. S. Fielding and Hon. W. The tribute which Miss Cameron paid and her description of the toils and trials of the Dominion survey party, of Three Trustees Are Electedwhich Mr. Keele was the head, gave do and dare for the sake of their fellow being and for the country in they live. For two years Mr. Keele's party had been in the wilds of the north and had received no communi cation from the outside world in all that time, and the eagerness with which the latest news was sought brought to the lecturer's mind the thought of the self-sacrific and indomitable will power necessary to compose such a simple looking thing as a blue book describing the topography of a land that will some day be a

Without doubt Miss Cameron's lecures will be a great educative force, and it is to be hoped that every city of Canada will have an opportunity to hear this very gifted lecturer. It would be a splendid thing if some one of like ability would tell to the world the vonderful resources of the northern interior of our own province. The Peace unknown part of British Columbia and rich valleys, that are at present scarcely heard of, await the settler.

Miss Cameron is proud and glad to call herself a "Victorian," and Victoria lowing trustees elected: Messrs, Jacob George Rollies, of Calgary, and draft is assuredly proud to have Miss Cameron as one of her citizens. Her visit Garrard. A site for the school has to the city at this time will reveive the interest her large circle of friends the ground and put up the building. has in her welfare, and her future work will be watched with the kindliest the Liberal Association on Saturday feelings for her complete success.
