#### PARLIAMENT.

Mr. Ellis Moves for Reduction of Oil Duty to Three Cents.

But He Finds All the Liberals Have Turned Protectionists.

1, C. R. Loses Thirty Thousand Dollars in Operating the Baie des Chaleur Railway.

Ottawa, June 3.-The house was again in committee on the tariff today, and passed the combines clause after defeating an amendment. The tariff schedules were then taken up. The liquor schedule passed without much comment, except that Clarke Wallace held that the excise duty

bad too much protection.

On the agricultural list, when the item of mutton and other means came up, Hon. Mr. Foster asked if the preferential rate was allowed to New

ought to be increased, as the distillers

South Wales.
Hon. Mr. Fielding said it would be done when Hon. Mr. Foster showed that British Columbia would be large-ly supplied with meat from that coun-

Following this up, Sir Charles Tupper said no doubt Australia would have been glad to exchange tariff re-ductions, giving special rates to Canadian goods lower than to the products of the United States and other countries. The government has given away this concession with no return. In the item of mutton and lamb, the duty is continued at 35 per cent., which the preferential tariff will reduce to 26.

After discussion Mr. Henderson moved that the item be struck out altogether, which would place mutton in the general list, fresh meats three cents a pound.

After recess the mutton clause caused an interesting discussion, in the course of which Mr. Fraser of Guysboro declared that the iron industry had been struck right and left. It had been left with only twenty-five per cent. protection, while the manu-facturers who used iron and steel got a cheaper iron and retained all the protection they had. Mr. Fraser spoke of the thievish instincts of those who induced the government to strike down the iron duties, but took occasion to say that he would not squeal. He would still urge for the complete abolition of protection.

abolition of protection.

Mr. Oliver, a government supporter from Alberta, said Australian competition injured sheep ranching in the districts. He hoped that a cut would not be made in the mutton duties.

The mutton item was adopted, and the committee went through the agricultural list. It was adopted, reserving the Items of rice, wheat and some other contentious paragraphs for con-

other contentious paragraphs for consideration on a later day. The house adjourned shortly after midnight.

NOTES.

A remarkable event in the history of the country occurred today, when the venerable Senator Wark, netwith-standing his ninety-three years, addressed the senate for nearly an hour in support of the imperial customs union. He favors free trade within the empire and protection against the the empire and protection against the rest of the world.

Sir Oliver Mowat congratulated the venerable New Brunswicker on the vigor of his address and the strength

The minister of justice has abandoned the principle of his bill limiting the rate of interest to eight per cent. Today he struck out all the original ses and substituted a clause proiding that when the note was given for a less period than a year it should state plainly the annual rate per cent.

payable thereon.

It is expected that the banquet which the conservative members are giving Sir Charles Tupper next Wed-nesday will be a pleasant affair. It will take place in the senate restaurant. The arrangements are in charge of E. F. Clarke, whip Taylor, Senator

Ferguson and others. Ottawa, June 4.—Before the orders of the day were called, Sir Charles Tupper handed Hon. Mr. Sifton a statement from General Cameron on the Alaska boundry, which is to be printed with other Alaska documents. The general some years ago reported on this matter for the imperial gov-

Mr. McDougall of Cape Breton brought up the subject of the Baies des Chaleur railway, enquiring whether it was true that the Intercolonial had lost \$30,000 in the operation of that road for a few months.

Mr. Fielding promised the informa-tion later, when the house would be asked to make a supplementary vote for the Intercolonial.

The ways and means committee devoted most of the afternoon discussing the wheat duty, the members from Manitoba supporting the government, stating that the grain duty was no good to the west and western conrvatives expressing a contrary opin-

The early part of the evening was occupied with the book and paper schedule. Ross Robertson pressed the copy-

right question.

The finance minister stated while Mr. Laurier was in England, he would discuss the matter with the imperial ment. Meantime the course of the late government would be con-

A few changes which have been male in the tariff on motion of Hon.
Mr. Fielding, sheets and parts of
books were included among the class of novels at 20 per cent. Cigar box labels are changed from

15 cents per pound to 25 per cent, and putty from 15 per cent to 28 per cent. When oil was reached, Mr. Richardson of Manitoba moved that oil be placed on the free list.

The motion was quickly declared deated on a yea and nay vote. Mr. Ellis moved a reduction from five cents to three.

Mr. Rogers (patron) seconded the Mr. Talbot (ministerialist) support-

Sir Charles Tupper thought he would have to come to the rescue of the government. He was of the opinion that a reduction would crush out an important industry and place Canada under the Standard oil monopoly and

do no good to the consumer. Mr. MacDonald of Huron (govern-ment) said he had made many cam-paiga speeches for free oil, but had now made up his mind that the in-dustry could not stand the reduction. He would vote with the government. Mr. Davin wanted free oil. Mr. Taylor (opposition) was sorry any reduction was proposed on oil.
Mr. Flint regretted he could not sup-

port Mr. Ellis' motion, though he observed that it was in line with his own speeches and votes in opposition. He had since discovered that the old industry would be endangered by the proposed reduction and he never intended to destroy it.

Mr. Davin offered to quote Hon. Mr. Davies on oil, when the minister raised

a laugh by jocosely asking: "Did I ever speak on coal oil?

Mr. Fraser (government), who represents the oil district, made a lengthy address, defending the oil duties and denouncing the Standard Mr. Oliver of Alberta (government)

scolded Mr. Fraser for trying to scare the people with stories of Standard oil, and pitched into the Toronto Globe for making itself the instrument of

Mr. Ganong said the oil duty under the late tariff and this one was too high, even for a protectionist like Mr. Petit (patron) also spoke for the amendment. The motion was lost

Mr. Ganong moved that the duty be four cents; lost by yea and nay.
Mr. Davin moved it be one cent; lost. As ro standing vote was taken on these motions, it was not known who voted for the amendments.

The items passed till marble was Mr. Ellis thought the duty on sawn marble was too high, as there was

no marble in this country. Mr. McLellan of Inverness corrected the latter statement, stating there was fine marble in his county. The granite manufactures, which remain at 30 per cent, and Mr. Ganong pointed out that the preferential clauses would reduce it to 26. The Aberdeen granite would come in larger quantities and he feared that New England granite sent to Aberdeen to be manufactured would come to Canada at the reduce

The ministers made no reply and the item passed as submitted.

In the leather schedule, on motion of Mr. Patterson, scrap leather was changed from 17 1-2 per cent to 15

per cent. The committee rose and the house adjourned at midnight, good progress having been made.

NOTES. The senate in committee considered the criminal code amendment bill. The seduction clause, which would have raised the age of consent to 18 years, was rejected, leaving the age sixteen, and twenty-one years remains the minimum age of men who are punishable for seducing females under the promise of marriage. A motion to remove this age limit was rejected.

Physician's Prescription for Cure of Weakness in Men.

When a man has suffered for many years with a weakness that blights his life and robs him of all that really makes life worth living; when after years of doctoring with all sorts of patent medicines and alleged specialties, he discovers a remedy that brings back to him the power and physical energy that seemed to him lost forever, he naturally feels generous. He wants his fellow-me to know about it. He feels that his mis on earth is to lift out of bondage men who are today battling with a shattered nervous system, just as he did; men, who by th own secret follies, are suffering a me

scribe.

The world has come to look at such suferers in a different light from former day it now regards them as unfortunate, noriminal. They have lacked moral courages they may be victims of inherited passion or they may have acquired secret habits froe vill associates. But whatever may have be the incentive that causes a man to degrahis being, and isolate himself from socie he needs a friend. He needs the right has of fellowship and good cheer. It is wroot denounce him for his folly, and it equally useless to give him advice. He mu have the hungry man's bread, not a stonoffered him. This is why I send the pracription which made me a man among me free to anyone who writes for it. I know the aversion that suffering men have, to tleast semblance of publicity, and therefore, send the prescription secure sealed in a plain envelope, without marks show where it came from. Thousands men have written me, to say how glad the were to get this prescription, and every mu brings encouraging reports of severe cas of physical debility cured and emerical were to get this prescription, and every in brings encouraging reports of severe ca of physical debility cured, and emacias parts restored to natural strength.

Now, my friend, do not sit and won how I can afford to give away this valua recipe, but write for it today. It is free all, and I want every man to have it. A dress, in the fullest confidence, THOM SLATER, Box 192, Kalamazoo, Mich.

THE 'INCREASED TOBACCO TARIFF.

A mild mannered but somewhat seedy-looking man stood near the corner of Charlotte and Duke streets esterday at noon, and when what appeared to be a probable victim apched, he extended his hand, in the palm of which lay a five cent piece and politely asked, "Please give me a cent to add to this to buy a fig of and I've only got a half dime." This operation he repeated until the five cents grew to ten, when he made off in the direction of the nearest barroom. The success of the scheme lay in its novelty, for most of the people who dropped a cent in the fellow's hand knew pretty well that the money would not be invested in tobacco.

With the blood full of humors th heated term is all the more oppressive Give the system a thorough cleansin with Ayer's Sarsaparilla and a dose or two of Ayer's Pills, and you will enjoy summer as never before in your life. Just try this for once, and you'll

## THE MARKETS.

Revised Every Monday for the Weekly Sun.

The most interesting item in the market is butter. There is too much poor stock, and this year's make is to some extent handicapped by old stock. There is some of last year's creamery butter still unsold. It will not bring as much as it would have sold for when made. It does not pay to nold butt.r; at least that has been recent experience. The operation of winter creameries has changed the conditions, and some apparently have not yet found it out. The Boston steamers buy their butter in Boston cheaper than they could buy it here. In Montreal best creamery is quoted at 16; in New York the Sun's daily reports show that Elgins are quoted at 15 to 18½. Here creamery is quoted at 17 to 18c in small lots. Choices dairy by the single tub brings 19 to 20c. This market, therefore, though it is overloaded with poor dairy butter, and with creamery that could CCUNTRY MARKET.

"Remember, Willie," said his mamma,
"George Washington never told a lie."

"Hum!" remarked the child, who some
day may be president, "I dess in dem days
'ittle boys didn't have so many fings to do."

"You see, it was this way: They were all three so dead in love with her, and all so eligible, that to settle the matter she agreed to marry the one who should guess the nearest to her age." "And did she?" "I don't know. I know that she married the one who guessed the lowest."—Pearson's Weekly.

# MANY WOMEN DEGEIVED.

At the present time many manufac-turers of crude and adulterated package dyes are making lively efforts to induce the wholesale and retail druggists and grocers to buy their dyes. These common dyes are quoted at such low prices that some profit-lov-ing dealers are tempted to buy them. The profit-loving dealers then take care to sell these adulterated dyes to the inexperienced and careless at the

same price as the popular and reliable Diamond Dyes are sold for. This iniquitous and deceptive work has caused a large amount of loss and trouble to many in Canada, and will continue as long as women are foolish enough to take anything that is offer-

If home dyeing work is to be a successful and money-saving work, every woman should see that she gets the Diamond Dyes, as they are the only

to How Matters are Progressing.

A Proposition Which Will Give the Polymorphians All Morning of Tuesday,

While the Military, Firemen and Societies Will Have the Entire Afternoon.

A meeting of the general committee in connection with the Queen's sexagenary celebration was held in the City hall on Friday afternoon. Mayor Robertson was in the chair and there were present: Ald. Daniel, J. D. Hazen, Judge Forbes, Sheriff Sturdee, Col. J. R. Armstrong, Dr. W. W. White, Cras. Nevins, W. B. Wallace, Count de Bury, Robert Rubins, Geo. D. Frost, J. B. M. Baxter, John Mc-D. Frost, J. B. M. Baxter, John Mc-Kelvie, A. O. Crookshank, Geo. U. Hay, C. A. Clerk, Chas. Brown, Wm. McLeod, Major Markham, James Han-nay, John Kerr, Rev. A. G. H. Dicker. J. Roy Campbell having resignedthe secretaryship of the committee, John Montgomery was appointed to that

The chairman called for reports from all the committees that were in a position to make reports. The following facts were brought out in this way: Arrangements had been made with the different railway and steamship companies for special rates dur-ing the jubilee display.

The finance committee had not met

and Wm. M. Jarvis was named as chairman of it with the request to call it together as soon as possible. The band committee had interviewed the different bands. It seemed from the report that the bands would ask for \$30 every time they turned out. the City Cornet band being the only exception. They offered their services at \$25 a parade, but stated that they would expect \$30 if the others insisted on that figure. The committee esti-matel that \$450 would be required for the bands.

The secretary said the Sussex and St. George bands would turn out if needed in the big parades.
Sheriff Sturdee regretted that the

Sheriff Sturdee regretted that the library scheme seemed to have fallen through. Was the intention now simply to have processions with no definite object in view? He asked the mayor if there was any possibility of the corner stone of the building being laid on the 22nd.

The mayor said this was not the fault of the common council. If the laying of a corner stone was insisted laying of a corner stone was insisted upon, he suggested that the stone of the proposed new fire station at the north end be laid that day. He was sorry the library scheme was not sufficiently advanced for the cerner

Ald. Daniel in reply to Chief Engineer Kerr said the grant to the fire-men would be available the first of next week, and Chief Kerr said the money would be equally divided among the nine com

It was stated that the fire works committee were to meet in the even-ing, so that their report would come J. D. Hazen reported for the general

parade committee, showing that the following organizations had signified their intention of taking part: Firemen, salvage corps, Boys' Brigade, the Orange order, St. Andrew's so-ciety, Clan Mackenzie, St. George's society, Sons of England. Others had not yet fully determined. Lt. Governor McClelan, the common council, municipal council dominion and local pear in this parade.

The committee then took up the time at which the several parades should start, which provoked a long discussion. The polymorphian and military parades seemed to clash. The representatives of the polymorphian clubs felt that they should have up to 11 o'clock on Tuesday morning, and the military authorities held that their parade should after at 10.20 at the parade should start at 10,30 at the very latest. The fact that many of the members of the polymorphian clubs are also in the militia, Col. Armclubs are also in the militia. Col. Armstrong and Capt. Baxter maintained was a good reason why the militia could not turn out till noon if even as early as that in the event of the polymorphians keeping their parade up till 11 o'clock. Many suggestions were offered by gentlemen, but there was always some one to declare it would be impossible to carry these are e impossible to carry them out.

At last the following suggestion was agreed to by the polymorphian repre-sentatives and others, and Col. Armstrong, who spoke for the militia force, said he would endeavor to get

the militia to agree to it:

The polymorphian parade to start at whatever hour they may determine apon and continue till noon on Tues-The military parade to come on after dinner and continue till 4 o'clock.

The general parade to follow. The following committee were appointed to consider this matter: Mayor Robertson, representing the city; J. D. Hazen, the chairman of the parade Artillery, Major McLean of the Fusil-lers, Chief Engineer Kerr of the fire

ng the polymorphians and A. O. Crookshank on behalf of the Orange Count deBury said the Roman Catholics would parade on Sunday.

It was decided to appoint an execu-

department, Chas. Nevins repres

by the mayor.

Mayor Robertson brought up the matter of advertising the celebration, but no action was taken.

The Portland W. C. T. U., Count de-Bury said, would have their rooms open on the 22nd and supply refreshments at a wall charge. ments at a small charge.

PROVINCIAL NOTICES.

The Royal Gazette of this week has the following:
His honor the lleutenant governor has been pleased to make the follow-

ing appointments:
Richard John Wickstead of Ottawa, attorney and solicitor, to be a commissioner under chapter 36 of the con-solidated statutes, for the province of

Wendell P. Jones, J. Stewart Campbell and George Black, to be notaries In the county of Kings Silas Mc-

Cully to be a justice of the peace; Charles Titus to be a coroner. In the county of Westmorland-Edward E. McManus, John Campbell, Harvey Atkinson and Charles T. Chapman, to be justices of the peace; Harvey Atkinson to be a sitting police magistrate of the city of Moncton, in place of R. Barry Smith, resigned.

In the city and county of St. John—George A. Anderson, Wilson L. Dobson and William Johnston, to be justices of the peace.

In the county of Charlotte—J, Sidney McMaster to be a justice of the

peace.
In the county of Queens—John W. Dickie to be registrar of probates in place of James R. Currie, deceased; Arthur W. Ebbett to be clerk of the county court, in room of James R. Currie, deceased; Arthur W. Ebbett to be clerk of the circuit court, in room of James R. Currie, deceased; William Tilley to be a commissioner of the parish of Petersville civil court, in room of Thomas Leonard, deceased. In the county of York—J. Stewart Compbell to be clerk of the nisi prius sittings, in room of George L. Wilson, left the province.

Reid to be a justice of the peace.

In the county of Albert—Watson E. Reid to be a justice of the peace.

In the county of Westmorland—Hram Trenholm, James J. Goodwin, Howard T. Trueman, William C. Milrer and Thomas Estabrooks, to be the Missiguash commissioners of sewers for the province of New Brunswick, under cart via of chapter 115 of the under part vi. of chapter 115 of the Consolidated Statutes, and chapter 20

of 60th Victoria. L. J. TWEEDIE. Provincial secretary's office, Fred-

ericton, 31st May, 1897. library scheme seemed to have fallen through. Was the intention now simply to have processions with no definite object in view? He asked the mayor if there was any possibility of the corner stone of the building being laid on the 22nd.

The mayor explained that the laying of the corner stone of a library building was to have been a feature in the celebration, but that was never intended to have been the whole show. From the first a grand demonstration was proposed which would give the people of St. John an opportunity to rejoice over this great occasion.

Judge Forbes was sorry there was to be nothing of a substantial character to leave to our children as a memorial. Application has been made for letof the company is to be forty thousand dollars (\$40,000), divided into four hundred shares of one hundred dollars each, of which two thousand five hundred shares are actually subscribed. The names of the applicants are: Henry A. Powell, W. Bedford Dixon, William Milner, Amos Ogden, Aubrey Smith, all of Sackville, the last three named of whom are to be the first or provisional directors of the said company.

### TAKE NO RISKS.

Do Not Foolishly Experiment With Medicines That Have No Standing or Reputation

Paine's Celery Compound The Only Medicine That Cures and Blesses the Sick.

In matters of health and life no man or woman can afford to take risks or experiment foolishly. A wrong move, or following the advice of the careless or ignorant, may result in serious complications. This is especially true in regard to the use of medicines when

When the physical powers are imshed down with that dull and tired feeling that usually commences at this season of the year, it is wise and prudent to use the medicine that

and prudent to use the medicine that has given health, vim and activity to thousands of weak people in the past. Thin safe, certain and health-giving remedy is Paine's Celery Compound, which is now so extensively prescribed by the ablest doctors in Canada. The indorsers of Paine's Celery Compound, besides those in the ordinary walks of life, are diergymen, lawyers, judges, members of parliament and bankers, hundreds of whom it has rescued from suffering and death.

Avoid the numberless liquid medicines that are worthless from a medical standpoint, and that have never gained the shadow of a reputation. Put your faith in Paine's Celery Com-

pound, and when you purchase be sure you are supplied with the right ar-ticle. See that the bottle and box bear committee; Lt. Col. Armstrong of the the name "Paine's Celery Compound" and the etalk of celery; that is the only genuine make—the kind that makes people well.

"He's a physician, isn't he?" "Oh, dear, no; only a plain doctor. He doesn't charge enough to entitle him to call himself a physiciam."—Chicago
