LIPTON IS LIKELY TO **CHALLENGE THIS YEAR**

For the America's Cup, But is Not Prepared to Make Any Definite Statement.

LONDON, July 12.—It is probable, although Sir Thomas Lipton will not admit it, that the New York Yacht Club will receive a challenge for the America's Cup for 1908. The time for challenging does not expire until October and it is unlikely that the challenge will be sent until the last moment. Speaking of the matter today Sir Thomas said he would not say yet whether he intended to send a yacht across the Atlantic next year or send a challenge before the time for a challenge expired, as it would simply be giving the holders of the cup more time in which to arrange for its defense.

INSANE LABORER STABBED **FOUR PASSENGERS**

Murderer on Alaskan Steamer Made Lots of Trouble—Four Killed in Dynamite Explosion

VANCOUVER, B. C., July 12.—Joseph Carbons, who shot a Guggenheim railway laborer at Katala, Alaska, in the riot with the Bruner interests, went into a maniac, stabbing four persons on board a vessel at Valdez before being overpowered. Some may die.

A dynamite loaded barge near Headley, Alaska, was exploded killing four Japanese employees. The Alaska Gold Mining Company owned the barge.

TWO MEN KILLED BY **COLLAPSE OF A STAGING**

HOLYOKE, Mass., July 12.—Ford E. Hanson, aged 41, and J. C. Baker, aged 25, both unmarried were killed today as a result of an accident on the Louis A. LeFranc building at the corner of Appleton and Maple streets, on which they were working. The two men were employed in finishing the exterior of a bow window on the fifth floor when the staging on which they were working gave way. Baker was thrown to the sidewalk five stories below and was instantly killed. Hanson clung to the staging for a few seconds but finally lost his grip and fell to the ground, dying of his injuries on the way to the hospital.

JOHANNESBURG, July 12.—The dynamite outrages arising from the strike situation through out the mining regions continue. The first fatalities occurred today when Kiffels Hotel at Boksburg was blown up. Three men were killed and several injured.

A LETTER ON LEADING **SUBJECTS OF THE DAY**

Written by a Lady Now Temporarily Residing in Fairville—Her Views on Various Questions

The following letter has been received by the Star from a lady in Fairville. The fact that she is at present making her residence in that section known as Ward B. will partially explain any peculiarities noticeable.

Editor Star:

I have written to you once before when the guessing contest took place for the election of Mayor of the City of St. John and Aldermen. I had ten true guesses, one for the Chief Magistrate and nine Aldermen. I did think there is a consolation prize, but as I am a Princess we sometimes do not get what belongs to us. I am writing this letter to you not to publish but that it may do some good for some one you of course can make your own decision. I am of German lineage, so some of my words are not spelt like the Norse, is not that the police name as expressed in your paper the Star, as I read it nearly every day. I am going to get a government bonus for you if you have not got one all ready apply to Westly Carpenter, M. P. of York, and Mr. James Barnes, M. P. of Fredericton, perhaps of Kent. The loss of the Crystal Stream came to me as a great shock as I have a friend of one of the deeded of the same name. It could not be the same as his father is dead, and it said his father is living. I think the hay took fire by spontaneous combustion, the hay when pressed is damp and sweet this gas is very inflammable that is in the press hay, it never should be sent on any steambark. A wood boat would have to cover a damp sail over the hay when bringing it to the city from the sparke from the stove would be dangerous. A nother subject I shall have to write briefly about is the trial of Phoebe Collins. I think the trial should have been for manslaughter in the second degree, and a clemency for pardon say 15 years to come, there was no eye witness to who did it, not proven is the verdict, he is free now. I for one say a few years may do some facts, there as been so much written of strong provocation and ungovornable rage youth knowing how to free themselves from wrongs poot off on them, who ever asked any one to go fishing on a Sunday and expect good to come of it what Collins said was true.

I shall send you my address, you can hire me for your publishing house. I am very cheeque to come over here and have a talk to me.

MR. PERKINS APPEARS TO **HAVE CHANGED HIS MIND**

He Finds That High Temperatures are Possible—Development of the Hoopceon Nail Works.

Some time ago, in his evidence taken by commission in a civil suit, Mr. Eben Perkins appeared to find difficulty in making clear to the examiner whether or not he believed in Hell. A letter received from Mr. Perkins yesterday from Hoopceon, Ill., contains the following:

"The weather here is so warm that I have finally concluded that there is a Hell, and that one would not have to travel far to find it."

Mr. Perkins' letter contains the following reference to the horse nail plant of which he is the manager:

"To accommodate the rapidly increasing demand for this new, cold process horse-nail, the Hoopceon Horse Nail Co. have again found it necessary to enlarge their plant and increase its capacity. This will necessitate the installation of a large amount of special machinery and contracts for this have already been made. Meanwhile their own machine department has been utilized to its fullest extent, so some changes in buildings will also be necessary, work on which will be immediately commenced and pushed to completion as early as possible."

None of Hoopceon's industries has come to the front as rapidly as this has. The new cold process of the Hoopceon plant has revolutionized the horse nail business throughout the world. Inquiries are received every day from foreign lands where the nail has been tested.

MARK TWAIN HAS **THE TIME OF HIS LIFE**

Was Feeling So Young That He Would Soon be a Baby if He Stayed in England

LONDON, July 12.—Mark Twain, who sailed for home today, made this statement regarding the remarkable attention he received in England: "I have led a violently gay and energetic life here for four weeks, but I have felt no fatigue and I have but little desire to quiet down. I am younger now by seven years than I was and I could stay here another month I could make it fourteen."

"This is the most enjoyable holiday I ever had and I am sorry the end of it has come. I have met a hundred old friends and made a hundred new ones. It's a good kind of riches, there's none better I think."

"For two years I have been planning my funeral, but I have changed my mind now, I have postponed it."

"I suppose I won't see England again, but I don't like to think of that."

BAY FISHERMEN WANT **A SALMON BOAT RACE**

Contest Between Lorneville and Westfield Boats Likely to Take Place on Grand Bay.

The Westfield Outing Association's salmon boat races have come to the notice of fishermen belonging to Lorneville and Dipper Harbor, and other bay ports. These fishermen are acknowledged to be the most expert in the building and sailing of salmon boats and now they are going to challenge the Westfield boats to a race. It will be seen whether or not they have kept a few of the finer points of the game from the suburbanites. The fishermen think that the race should be held on Grand Bay open to all, and be for a money prize. The tollers are anxious for a race and they think the old fame of their boats is dying out.

Such a race would be a great drawing card and would afford plenty of excitement.
