This is not a new thing for, when the existence of tuberculusis in catle in the province was being so much talked of a year or two ago, the matter was then dealt with by the board. At the last session of the legislature a bill was passed under which the board of health had to make such regulations as they should be a proper in geometries, with it should see proper in connection with it. In October last the board compiled s form of regulations to govern and control the sale of milk in the city. These were thought by some to be a little stringent and thought by some to be alittle stringent and it was thought prudent to submit the regulations to the government, asking their concurrence with them. No reply was received from the government and a member of the board then interviewed them at Fredericton. The regulations were reviewed and the attorney general concurred with most of them, but suggested changes in others.
