AT FREDERICTON Hon. Mr. Sweeney, in the course of his extended and well-reasoned speech on the budget, thoroughly exposed the principal fallacies which the Provincial Secretary put forward in defence of the Fleming regime.

THE BREAKING OF PARTIES The great Republican revolt against Blaine in 1884 was looked upon as a crime by straight party men everywhere, that nothing but a national emergency could justify.

THE INTERCOLONIAL Is the Intercolonial Railway to be double-tracked between St. John and Halifax? Hon. Mr. Graham, in the House of Commons on March 21, strongly advocated this course.

THE INVASION OF BRITAIN The London Times' correspondent for naval affairs has been engaged in allaying the fears of those persons who, from time to time, look forward with dread to the invasion of the United Kingdom by a continental power.

THE POOR CONSUMER The poor consumer may prepare to shoulder the consequences of the coal strike in Britain, and the consequences of the proposed strike among the anthracite miners in the United States.

another, and the fact becomes more clear through his experiments that he is not able to cope with the special interests. Many times the people of New York have aroused themselves into a spasmodic reform enthusiasm, turned out the Tweed and the Tammany ring one after the other, only to find themselves more completely than before the victims of rings, bosses and hoodlums.

THE COURSE OF COMPROMISE The Conservatives and Nationalists cannot be accused of bargaining over their principles, because apparently they have none. It is impossible for friends or opponents to point to any particular policy on which they are not ready to defer action.

THE INTERCOLONIAL (Continued) Hon. Mr. Graham, in the House of Commons on March 21, strongly advocated this course. Hon. Mr. Cochrane on that occasion, in reply to Hon. Mr. Emmerson, said that as yet the C. P. R. was the only company that had applied for running rights over the I. C. R. between St. John and Halifax.

out without injustice to Halifax, and without destroying the Intercolonial which cannot lose its identity without grave injustice to the public interest. The great increase in Intercolonial traffic during the last few years, and the fact that it is able to pay its way and something more, provide evidence that the old government was wise in declining to hand the people's railroad over to any, or all, of its competitors.

evil that presents the greater problem. Man, whatever his origin, has come up Social order is the growth of thousands of years, and it is the social, not the un-social, in character, that needs explaining. People need to be trained and developed in the sacrifices and self-restraints and selflessness that must abound if social life is to go on smoothly.

Monday, Mar. 25. (N. B.) Rev. H. T. Buckland, of Red Rapids (N. B.), who preached last evening at the Mission church, told The Telegraph that he had received word a short time ago of the murder of a close friend of his, Rev. Frederick Day, a missionary in China. In an account of the murder received by Mr. Buckland, it is stated that the Chinese rebels in North China have become almost savage and stop at nothing in their quest of pillage and murder. The victim belonged to Stratton, England.

THAT SUSSEX SCHOOLBOY CASE The case of the Sussex trustees and a pupil who had been accused of making trouble was the subject of a despatch in The Telegraph on March 22. The mother of the school boy in question writes to The Telegraph challenging some of the statements made by the correspondent. She says the boy did not spend four years in grades seven and eight, but that he only spent one year in grade seven and was in grade eight when he was expelled. She says she does not regard as disgraceful to the boy in any way.
