G ACTS

Comment of the second of the second

Vancouver, July 31 .- After being out fifteen minutes, the jury in the libel suit Green vs. the World, this afternoon brought in a verdict for the defendant

Theprincipal feature of the suit was the scathing language in which Mr. justice Clement scored Caron and Green in his charge to the jury.

"It is very difficult for me," he said,

to find language to properly criticize the action of ir Adolphe Caron. After all it seems to me that a man in public life, when a transaction is going through an office, who writes to the head of that office a letter of that description should have the insignia of royal favor which has been conferred upon him stripped from him. I have not the slight-est hesitation in making that statement and making it as strongly as I possi-

bly can.
"That letter reached Green," continued the court, "and I say Green at once should have resented the dishonor done him in making him such a proposition Nor have I the slightest hesitation in saying so. Either Green must be the most innocent of men, unable to see that a proposition of that sort was dis-honorable, or else he must have thought that in the long run possibly some benefit would accrue to him from it. There are only two hypotheses and if you put the worst construction upon the action of Green in respect to that proposition, then I say he has only himself to blame verdict should be against him.

"I trust that the day has not come when any man in British Columbia makes any difference between his private and his public life."

D. G. MacDonnell, counsel for the

World also scored Caron, alluding to him as "a sly and wily old fox, who was in politics before many of us were born and is still at the game." He claimed that Caron had wittingly enneshed Green in his toils and though the latter would have had the grace to destroy the letters at issue, Caron knew too much to trust to any such act. Mac-Donnell closed with a plea to the jury to remember that liberty should be given e public press in behalf of the best

interests of good government.
Green himself was the star witness of the day. He acknowledged having torn up the letter in question and kept no of the answer. He thought that copy of the answer. He thought that this was the only portion of the corres-pondence with Caron not on file. The letter had evidently been written after his wire to Caron that the Telqua li-censes would issue. He had suggested Mackay as the recipient of the shares, but never had a conversation with him concerning their value or disposition. Questioned as to whether the letters were the cause of his resignation, Green answered that he resigned because of personal reasons. It might be possible that he would re-enter politics. Queried as to his position with reference to the government, he said he wished he could t around his obligation and tell all

e knew. D. W. Higgins, editor of the World, D. W. Higgins, editor of the work, stated that he had secured a hint concerning the letters and had written the famous article. He submitted it to Tupper and Cowan and both refused either to affirm or deny the facts charged. Then he was sure he was on the right track and published the expose.

The article in the World, which R. F. Green, ex-commissioner of lands and works claimed to be l'bellous, read as follows:
"In 1905 a company called the Transcontinental Bxp ration Syndicate, applied to R. F. Green, then chief commissioner of lands and works, for leases of 32 sections of coal lands on Pine river, which, when the early construction of the Grand Trunk Pacife railway through that portion of British Columbia is considered, are certain to become of great and immediate value. Representing the syndicate diate value. Representing the syndrous was six Adolph Caron, formerly a conservative minister of the crown at Ottaw. The application was refused by Mr. Green who alleged, as his reason, that the dominion government had not then selected 3.500,000 acres of land in the northwest corner of the province which were conveyed to it by the terms of the Settlement act under which the Esqu'amlt and Nanaimo ra'lway was built. Later a private arrangement was arrived at by R. F. Green recovered to the province of the provin and sir Adolph Caron, acting for the Trans ntal syndicate and the leases wer

"Caron had previously writer Green to name a friend who could be trusted to hold shares in the syndcate in his (Green's) interest. Green replied, thank-ing Caron for h's b nef clence and naming ing Caron for h's b nef cience and naming N. McKay, then pemier McBride's private retary as a safe person in whom to vest the ownersh'p of the shares. Caron wrote Green stating that the value of the shares which were to be given h m as a free gift and were rated at £1 18: each, was \$37,000. Green replied thanking Carch for the very great kindness. The leases were then issued by the chief commissionof lands and works to the Transcontinental Exploration Syndicate. Caron also secured leases for coal lands on Telqua the same section of the country, for which Green was given another share in the name of Neil McKay.

'Later on there was a hitch. Either Green thought he had not received a sufficiently large share of the plunder of jection was raised by one of his c lonservative lawyers, then residing and who still reside in the city of Vancouver, were retained by Caron to press his claims. Armed with the correspondence etween Green and Caron, they interdewed the executive council. At that meet ng all the members except Mr. Fulton, present. The lawyers were persistent sing sir Adolph Caron's claims. M. en put up a show of resistence, but dumbfounded when confronted with Adolph Caron's letter and his own let-

thanking sir Aolph for his great kindinstructing him to issue the Neil McKay's name.

e difficulty must have been smoothed for it was stated in the Province, a ned in London with a capital of \$400,000

Telqua valley. In the interval that elapsed between the granting of the lease and the mysterious and abrupt deposing of Mr. W. S. Gore from his position as deputy of "As to the outcome of the trial, I **WORLD WINS** S. Gore from his position as deputy of the lands and works department. Mr. Neil McKay, the premier's private secretary and holde of \$37,000 worth of Transcontinental Eploratiaon Syndicate shares, for the gift of which Mr. Green had thanked sir Adolph Caron for his great kindness, was appointed deputy in Mr. Gore's place. It was probably felt that the oustodian of the shares should be changed at any rate and the name of Granville Cuppage, a junior clerk in the lands and works de-partment at Viotoria, appears in the Pro-

> tors of the company that is about to spend \$400,000 in developing the coal lands along the line of the Grand Trunk Pacific. "From whom Mr. Cuppage g t h's shares is not at present known but there is reason to believe that the \$37,000 worth of stock which was originally conveyed to Nell McKay are the shares which Mr. Granville Cuppage representes and by vir-

tue of which he sits as a director of the

vince of October 10th as one of the direc

ompany.
"The above is a plain naviation of a mo t appalling instance of provincial govern-ment corruption. Readers will have no difficulty in arriving at a conclusion undifficulty in arriving at a conclusion un-favorable to the government. The correspondence has been photographed and Mr. Green's letter thanking sir Ado'ph Car n for his munificence and requesting that the shares be placed in the name of Neil McKay, is in Vancouver at this moment. Special attention will be directed to the fact that, although the executive council meeting at which Mr. Green's conduct was, exposed was held in May last, the other ministers, immaculate Mr. Cotton included, continued to sit and act with Mr. the pressure from Vancouver conserva tives became so great that he resigned from the lands and works department. is now at Kaslo engaged in an effort to cover his official tracks by the return o Mr. Neil McKay, his former deputy, whom he plans to succeed him in the lands and works department.

BOOSTS TELQUA DISTRICT

JIM CRONIN WELL PLEASED WITH

PREDICTS GREAT COPPER OUTPUT

Vancouver, July 30-"If surface indications count for anything, the Telqua mining region w'll, within a few years be as great a copper producer as the Boundary district; in fact, it may in time exceed

the joint output of the Rossland and the Boundary districts." This was the enthusiastic prediction nade today by James Cronin, who with Charles Theiss, returned yesterday on the Princess Royal from a month's stay in the north. Mr. Cronin is probably the best north. Mr. Cronin is probably the best known mining operator in the west. His hatest official position which he resigned less than a year ago, was that of general manager of the Consolidated Min ng and Smetting company of Canada, owning the St. Eugene mine at Moyle, the smelter at Trail and the War Eagle, Centre Star and Idaho mines at Rossland

Idaho mines at Rossland. daho mines at Rossiand.
"The Telqua district, which is reached via the Bulkley va.fey," said Mr. Cronin is about five miles wide and thirty miles ong. The surface showings of copper ore of good value are phenomenal, but suf-ficient work has not been done to prove them at depth. Two of the principal companies there employ about 40 men and the miners in the district number about 200. They are handicapped owing to the lack of trails. The government seems to have done little in that direction. At least 40 claims are being worked. Harry Howison

the various camps.

"We also visited the Babine range northeast of Telqua. Owing to the lack of trails we could not travel faster than a mile and a half an hour. Here also is a promising mining district which 's destined to add another rich lead district to British Columbia. The lead and silver ores are known to be located in a belt six miles long and two miles wide. The first discovery was on the Devir group and it has the most developed surface showings. The owners cannot undertake extensive work owing to the difficulty in getting supplies. My visit was undertaken with a view to securing investments. I shall know more the various camps.
"We also visited the Babine range northsecuring investments. I shall know n about my plans as scon as I ket my ore samples asayed." Mr. Cron'n spoke enthus astically of the

Bail Bond Completed After Delay of Some Thirty-Six Hours

Boise, July 30-After a delay of 36 hours Charles H. Moyer, president of tre Western Federation of Miners, was released from the custody of the Ada county jai at a late hour tonight on a bond of \$25,000 signed by Timothy Reagan and Thomas J. Jones of Boise.

Moyer will feave for Salt Lake tomorrow night in company with William D. Haywood, who on Sunday was acquitted of the murder of former governor Steunen berg. After a stop of a few hours at Salt Lake they will proceed to Denver, the headquarters of the Federation.

Dr. McGee of Wallace, charged with per jury in the Haywood case, had a hearing in the probate court today and was bound over for trial and released on his own ecognizance. Dr. McGee swore that Orchard was in Wallace in August, 1904, Orchard was a witness against him today and declared he was not in Idaho at the time mentioned.

Haywood has issued the following statement:

"I appreciate the support of the work ing classes extended to us by working men throughout the country. I hope to be able, during the coming year, to personally express that appreciation. "I have no feeling of ill will toward any person; I am charitable toward all.

My intention it to go back to Denver and take up my work where I left it off when placed under errest. "I do appreciate the kindness and

have never had any fear, and would have expressed yesterday the same belief I expressed when first arrested, that is, that with a fair trial and an impartial jury the verdict would be such as has been given to the country.
"Senator Borah treated me most
fairly, and I appreciate it.

"Judge Wood was extremely fair to me, and I have extended to him my thanks for his treatment of me during the ordeal of this trial.

"I do not in any way blame governor Gooding for the position he took.

'In closing, I wish to express appreciation of the wonderful support given to me by the presence in the court room during the rial of the representatives of labor industrial and political organizations."

HIGH SCHOOL RESULTS

In Recent Examinations Nelson Maintained

its Fine Record
The result of the recent examinations for the high school have just been published in the coast papers and Nelson figures well in the list. It had entered Is schotars for the various grades of whom nine passed. These were as follows: W. Brown senior certificate, 720 marks; intermediate R. Harris, 726. Junior, G. Gore, 908; C. E. Swannell, 883; Alice Corry, 862; Olive Mc Leod 848: Eva McVicar, 802; W. E. Pougrade are: Senior, 1100; intermediate, 1300 unior. 1500.

In Rossland only junior certificates were entered for and all candidates were successful: Laura Jewel, Flances Brown, Emma Gaunt, Nettie C. Tingle and Alma O. Beverley. The Kaslo scholars were also successful

for the junior grade, none other entering, the scholars' rames being Ellzwbeth Gleg-erich, Mary Garland, Douglas Bruce, Electa Power, David Hartin and Alice Zwicky. In Revelstoke again only junior papers were asked for. There were ten candidates

but the only successful candidate was Jean Hyatt. Grand Forks entered three for junior and for the intermediate grades, only one being successful in each gade, Jessie Stewart for the intermediate and J. H. Reid

MINING RECORDS.

Record has been made of the location of the Good Hope, on the north fork of Sheep creek by H. M. Billings and J. Waldbeser; of the Pipe Dream, on the south fork of Wolf creek, by A. Garvin; of the Fool Hen and Victor, also on the south fork of Wolf creek, by J. Van Hook. Certificates of work have been granted on the Idaho, for work done upon the Kootenay, to J. Fitsch, for the recorded owners; on the Bluebear to J. Fitsch for the recorded owners and on the Canada to J. Fitsch. The following bills of sale are on record; of the Iron Cap, on Beaver creek, W. Allen to C. Monroe; of the Wilmer eigh and one-quarter miles west of Nelson, M. McLeod to C. Monroe; of the White Lene, eight and one-half miles west of Nelson, W. Moore to C. Monroe; of the Dubli, eight miles west of Nelson, C. S. Rashdale to M. Monagahan; of the Effie L., Lion, Irish, Cherry and Kath-leen, between Sproule and Falls creeks, H. Mason to W. J. McKennan; of the Belcher Bay, on the headwaters of Whitewater creek, J. Johnson to J. L.

New Denver, Aug. 1-The weather by day is unusually hot, but the delightful even-ings and cool nights are more than ever flotilla of launches is doing good

work today conveying nearly every famly in town, with impedimenta, across the ake to 5-Mile point, where the local K.P.'s have prepared a de ightful picnic grounds and intend to give their towns o'k a good

A party of lady school teachers from Nelson are spendling their holidays, here and they are having all kinds of fun and excitement. A few days ago an animal such as you see on Boyril pictures, chased the ladies along the lake shore and ike deer, they took to the water. The provincial police happened along and arranged matters so that all ended well and the ment organ printed in Vancouver, 10th October last, that the Transletal Exploration Sydicate had been treated by the people of in London with a capital of \$400,000 prove and develop coal measures in provincial road inspector and that Arture and develop coal measures in provincial road inspector and that Arture and inspector and that Arture are provincial road inspector are provincial road inspector are provincial road inspector are provincial road i

er. This is a kind of aftermath from the last election but as everything will still be in the family as it were, these changes

are not l'kely to cause treub e.

If the urgent demand for more on n re is an indication, this camp must be on the road to prosperous times. Anyhow, at present, as Atherton of Sandon says, every body, even father, works, or can work

body, even father, works, or can wolk just now.

Herbert Cue has opened on up to d te bakery and is turning out bread of all kinds and in every form known to bakers. He must have some original business ideas as he opened up just as the hot spell of weather came on—result, an immediate howling business—as no housewife cares to bake bread or pes during such weather. George H. Aylard, manger of the Standard mine, ras gone to Ohlo to see his

dard mine, ras gone to Ohlo to see h's brother who is seriously in. Wm. Thomlinson has returned from ex-emining a number of silver lead properties near Ill'ellawaet on the C.P.R. main line, and a "new find" of copper some-where in the north end of the Kamloops district. He reports the C.P.R. hetels n the mountains east of Revelstoke as seing full of tourists and that the company is spending much money in building new trails and reopening old ones for the use of the pleasure seekers. There is a regular network of trails and roads in the mountains of the Slocan and these c u'd easily be put in good order is some one would come in and build a first class hotel in this, "the Lucerne of the west."

COUNTY ATTORNEY INJURED. Belleville, Ont., August 2.-A probably fatal accident happened to county at-torney Anderson, of this city, while returning from Trenton last night. His orse become frightened at an automobile and ran away throwing the county attorney out and cracking several of his ribs and injuring him internally.

OTTAWA'S Y. M. C. A. BUILDING. Ottawa, August 2.—A construction per nit was taken out today by Peter Lyall & company, of Montreal, for Ottawa's new Y. M. C. A. building. The contract calls for the work being fininshed by next November.

MANITOBA CROP OUTLOOK. Wiinpeg, August. 2.—The weekly crop which was handed out by the C. P. R. today shows the outlook is far nore favorable than was expected three weeks ago.

TIMBER NOTICES

NOTICE is hereby given that 30 days after date I intend to apply to the Hon. the Chief Commissioner of Lands and Works for a special license to cut and carry away timber from the following described lands in West Kootenay district:
No. 1 Limit—Commencing at a post
planted about 6 miles up Snake creek from the Slocan river, and marked "A. L. McCulloch's southwest corner," thence 80 chains north; thence 80 chains east; thence 80 chains south; thence 80 chains west to point of commencement.

Located, April 27, 1907. No. 2 Limit—Commencing at a post planted about 7 1-2 miles up Snake creek, and marked "A. L. McCulloch's north-east corner," thence 30 chains south; thence 80 chains west; thence 80 chains north; thence 80 chains east to point of commencement.

Located, April 27, 1907. No. 3 Limit—Commencing at a post planted 7 1-2 miles up Snake creek, and marked "A: L. McCulloch's northwest corner," thence running 80 chains south; thence 80 chains east; thence 80 chains north: thence 80 chains west, to po at of
