Arch. McWilliam has purchased from Nell Love his farm, being lot 7, concession 4, Dunwich, consisting of 100 acres, for \$6,500.

A billion pounds of beef were shipped abroad by the United States this year compared with less than 40,000,000 pounds prior to the war.

Delaware bridge has been closed to traffic on account of necessary repairs. A temporary flooring has been laid on the bridge in an effort to keep the road open, but a large oil truck went through the bridge Wednesday and as a consequence it has been decided to keep the road closed until repairs can be completed.

A negro of Goldsboro, N. Carolina, has 13 of his 18 sons in the army and his 17 daughters are busy at war work. Mrs. Kathleen McCallum, widow of the late Dunwich, died at her home in London on Thursday and the remains were interred at Wardsville cemetery on Saturday. Mrs. McCallum was in her 70th year and leaves three sons and two daughters—E. McCallum of London, Norman of Burford, Stewart of Newbury, and Mrs. C. E. Farr and Mrs. J. F. McCall of London.

Dugald Emily McKellar of Alvinston was found dead in bed by his daughter on Friday morning. Mr. McKellar was enjoying his usual good health up to the time of his death. He is survived by five daughters—Emily, Sarah and Mary, at home; Georgina, on her way home; and Mrs. Malcolm McPhail of Melfort, Sask. The funeral took place on Monday, interment being made at Kilmartin cemetery.

There was quite a warm discussion at the last meeting of Dunwich township council when a deputation asked for the payment of the expenses of the farmers who went to Ottawa to interview the Government with regard to the Military Service Act. A motion to issue a cheque for \$245 for this purpose was defeated, and it was finally decided to get legal advice in the matter, said advice to be paid for by the members of the council personally.

An unexpected death occurred in Alvinston recently, when one of the older settlers in the person of Ann Gilling, wife of James Evans, passed away after a short illness. Deceased was born in Somersetshire, England, and in 1873 came to Canada with her husband and three children, residing with her uncle, the late John Lovell, for five years, at the English Corners, later living in Mosa, then on the 4th concession of Brooke for almost thirty years, finally taking up residence in Alvinston about four years ago.

THE FRENCH FARMERS SAVED THE DAY

The saving farmer is a national asset. Canadian progress today in all lines attests magnificently to the splendid qualities of thrift that have marked the farmers in all the provinces.

The total returns from field crops and animal produce have been only possible because of the disposition to make use in an economical way of all the wonderful gifts of Providence in this good land of ours.

The same was abundantly true after 1870 in France when the thrifty farmers of their fair land made it possible for the Republic to pay off that hated German war indemnity of two billion francs levied against them.

The same spirit of national thrift built up France for the extreme test today—a test that is being tried by fire.

Thanks be, French heroism is proving true. The line is holding. The blood of the farmers is flowing equally as well through the veins of France's daughters of the soil and so the national strength bends but does not break.

Canada is reaping her harvests of increased returns and money is being made as never before. Our farmers are earning the gratitude of all in their splendid efforts at production. That they will carry into their savings an equal foresight in conserving their surplus against the future days of darkness and lower prices will be equally praiseworthy. He is well advised who saves his extra dollar until he sees which way the winds of tomorrow will blow. Adversity blows a chill blast where there is no dollar in the savings.

Prospects are bright for the Glencoe Fair.

President Gillies and Secretary McKellar are more than optimistic over the prospects for Glencoe Fair this year, which is to be held on Tuesday and Wednesday, September 24th and 25th. The attractions will be better than ever before, with a bigger prize list and more money. Keep the date in mind, and don't forget that this is your fair and claims your patronage both in exhibits and attendance.

Not much excitement but oil and hard facts.

For some unexplained reason the Samia Canadian Observer never ceases to take or make opportunity to "knock" the Glencoe oil field. In a recent issue it concluded an article making unfavorable comparison of this field with other fields by stating: "One of the best posted men in the Mosa field recently said that about over and the only sure way to make money in most cases was to sell—in other words, go out and hunt for suckers."

There was a time not many years ago when certain prospectors might have considered themselves pretty well "posted" on the oil situation in Mosa, but the best posted men today are those who have the most extensive holdings in the field, and when we are able to state as a fact that \$300,000 was offered and refused recently for one company's interests it does not look as if the advice to hunt for suckers is likely to be acted upon.

But the best evidence that the field is a strong one is the fact that there are no offerings of stock by promoters, locally at least. For this reason the "excitement" has not even commenced, much less being "about over."

The August shipments of one firm—the Ontario Petroleum Company, of which F. J. Carruth is the head—totaled some 7,000 barrels, and was the highest of any month since operations were begun in the field. Just recently the same company brought in the eleventh shipment of J. A. Walker farm. Nothing in this to indicate that the field is going back.

INNES-JEFFERY

A quiet but pretty wedding took place at 10 o'clock on Sept. 7th at the home of the bride's parents, Mr. and Mrs. H. P. Jeffery of Blytheswood, Ont., when their only daughter, Marion Maud, was united in marriage to Mitchell Innes of Mosa township, by her pastor, Rev. A. U. Campbell. The bride's cousin, J. D. Ainslie, played the wedding march. The house and table decorations were in green, pink, white, and blue. The presents to the bride were numerous, including one from the Ladies' Aid in connection with the Presbyterian church of which the bride was an active worker, with an address and well-filled purse. The guests enjoyed a sumptuous wedding dinner. After hearty congratulations the young couple left for a brief honeymoon via M. C. R. for their future home near North Glencoe.

ENJOYS SOLDIER'S LIFE

Mrs. Grant has a letter from her son, Trumpeter George Grant, under date of August 8. He was then at Witley Camp in England. In some extracts of his letter which we are permitted to publish, he says:—"Just came off a twenty-four hour duty as trumpeter of the guard. I am feeling very tired so my letter won't be long. Hope everybody at home is in good health as this leaves me. The war news looks pretty good lately. There is a steady flow of troops home, and our trumpeter band is kept quite busy. Two of our trumpeters are on the next draft to France. My Uncle Jack is always delighted to read letters from me. I received a Glencoe Transcript today and was so glad to get it.

We have our royal trumpet cords now and they look very nice. Our picture of the band turned out to be a fizzle but I guess we will be getting them taken again soon.

Lewis Dalgety and I were over to Frensham on Sunday, seven miles from here, and we saw a bunch of Glencoe boys—Glance Oldie, Russell Dobson and Evan McMaster, and some of the boys from the country. Lewis and I came across Glance by chance. He was sitting on the sand cleaning his buttons. Soldiering in general we all like pretty well. Glance expects to be moved over to our camp in about a week. We are all getting our pictures taken together. Johnnie McFarlane has gone to France.

We had some time here last night. The trumpet band is all in the same but, you know, we are all about the same age. We are always playing tricks on the other huts, so last night after "lights out" we began a singing serenade just outside of the A4 hut. The fellows inside were just raving mad. We then went back to our hut after collecting all
