

PRESCRIPTIONS PURE DRUGS

Physicians will please notice that I make a specialty of dispensing all prescriptions with ONLY THE PUREST INGREDIENTS. I keep a full stock of Squibb's, McKesson & Robbins', Parke, Davis & Co.'s goods, and I will be delighted to have doctors call and see me. I also make a specialty of keeping both Nurses' and Students' Supplies, including surgical instruments, staining fluids for pathological and histological purposes, and microscopic goods.

New York Polyclinic and Hospital

THE NEW YORK POLYCLINIC is the oldest post-graduate medical school in America, and was founded with the object of giving physicians who desire to keep abreast of an advancing science opportunities of studying clinically, and according to the latest scientific methods, *Medicine and Surgery in all Departments*. The school is for graduates only, and practical instruction is given in every branch of the subject. *The Clinical Material for every subject is abundant*, and Canadian physicians will find the opportunities for either general or special study far superior to those of London. An excellent hospital, filled with interesting cases only, is in connection with the school, and in addition the professors are connected with almost all the principal hospitals in the city, thus giving unlimited opportunities to students.

Practical Obstetrics, Clinical Microscopy, Pathology and Bacteriology, are also taught. The regular session lasts from Sept. 25th to June 15th, and physicians can enter at any time.
