Stop throwing valuable advertising dollars out the window! Focus your marketing efforts and reap the rewards! Spend less money and be seen by the market that makes your business work!

Every second year, our national advertising agency spends close to \$50,000 to study the Canadian Student Market. Normally you would have to pay hundreds or even thousands of dollars to get this kind of information but we are giving it away for free. Even if you never advertise with the Dalhousie Gazette, this student-specific information will improve your understanding of the student market.

**If you own a small business and  
want to reveal the mysteries of  
the student market call now!**
