AGAINST CHAMBERLAIN.

THE BANKERS MAY PROVE TOO STRONG FOR HIM.

Principal Reichel of North Wales University Gives His Impressions of Canada-A Long Cruise.

London, Dec. 30.-Herbert Gladstone, speaking at Chester Monday, leclared that he did not know a single banker of any eminence who had given any adhesion to Chamberlain's policy. No class of business men knows more about foreign colonial trade than the heads of the banking institutions of the country. Mr. Chamberlain might find in the long run that the bankers

ind in the long run that the bankers were too strong for him.

Principal Reichel of University College, North Wales, who went with the Mosely Commission to Canada, expresses himself as immensely impressed by what he saw in Canada, especially the Agricultural College at Guelph, which, Mr. Reichel says, is generally admitted to be the highest and most successful institution of the kind on the American continent. The greatest question that interested Reichel, the question fraught with the greatest consequences to the British Empire, was the settlement of northwestern Canada. The question was whether these Provinces shall become American or stay British.

The Westminster Gazette says:—
"Mr. Chamberlain insists that the colonies did not ask us to make any sacrifice. That being so, we are entitled to ask for evidence of any colonial offer which shall give us an equal measure in return, which Mr. Chamberlain inferentially admits we are entitled to."

THE TARIFF COMMISSION.

Seventeen Additional Names Added and the Chairman Appointed. London, Dec. 30.-A list of seven-

een additional members of Mr. Joseph Chamberlain's tariff commission was issued yesterday, including representatives of colonial interests, and it was announced that Sir Robert Herbert, formerly Under-Secretary of State for the Colonies, and at one time Agent-General for Tasmania, has accepted the Chairmanship of the commission. The list just issued includes Sir John Cock-burn, formerly Premier and Chief Sec-tary of South Australia; Francis Elgar. tary of South Australia; Francis Elgar, the well-known naval architect; Sir George Ryder, Chairman of the Customs Commission; Sir Cecil Smith, foremerly High Commissioner for Borneo and Sarawak, and Henry D. killing his wife and himself, had been suffering from severe headaches, dizziness and fainting spells, which he attributed to the unhealthlu nature of his employment, which kept him in the tunnel for twelve hours each day. Of late he had been moody and silent, and his conduct gave his friends much alarm. The letter which he left, in which he blames Mrs. Boyd for domestic unpleasantness, bears evidence of having been written by a person with an ha lucination, bears evidence of having been written by a person with an ha lucination, in the opinion of the coroner. The verdict states that Joseph Boyd met death by his own hand, while laboring under a fit of insanity, and states that the tunnel company are greatly to blame for compelling a man to spend twelve hours on a shift in the tunnel without recief.

With a Slight Accident, Vienna, Dec. 30. - Reports which reached Vienna of an accident to Emperor Francis Joseph have created much alarm. It appears that during the Emperor's customary Christmas visit to his daughter, the Archduchess Maria Valeria, at V Ilse, he duchess Maria Valeria, at V llse, he was ascending a stairway, when his spura became entangled in the carpet. He iell forward, but arose immediately, without assistance. The Emperor has returned to Vienna, and his doctors say that the injuries sustained by the accident are quite unimportant, some muscles of the back being slightly strained and the forchead bruised. The doctors recommend that he rest for a few days, but they consider no further medical treatment necessary. It has, however, been announced that the audiences fixed by his Majesty for New Year's Eve may be postponed. THERE IS A WAY OUT OF IT

Stuart's Catarrh Tablets have done more good and effected more cures among catarrh sufferers than any known remedy. They never fail to cure even the most aggravated cases where their use is adhered to. They thoroughly renovate the system and cleanse it of all impurities. Under their influence all catarrhal poisons are thrown off and the cure is complete and permanent.

A prominent lawyer and public speaker of Pittsburg, says: "I have been troubled with catarrh of the head and throat for 12 years. In this climate it seems impossible to get rid of it. The continual dropping of mucus from the nose into the throat caused irritation and hoarseness, seriously interfering with my public speaking. It took me an hour or more of coughing, gagging, expectorating and sneezing every morning before I could settle down to work, and this condition gradually brought on catarrh of the seah, causing loss of appetite, poor digestion and a foul breath, which annoyed me exceedingly. My physician advised me to try Stuart's Catarrh Tablets, and I took them for two months and was astonished to find how quickly they cleared my head, throat and stomach, and I have no hesitation in recommending them. They are not only pleasant to take, but they seem to get at the very root of the trouble, because since using them I have had no trace of sale by atl druggists at 50 cents a control four trace to the find how quickly they cleared my head, throat and stomach, and I have had no trace of sale by atl druggists at 50 cents a control foot. What a solendid type of tireless activity is the sun as the psalmist describes it issuing like "a brider groom from his chamber and rejoicing like a strong man to run a race." Every man ought to rise in the morning refreshed by slumber and renewby rest, eager for the struggle of the day. But how rarely this is so. Most people rise still unrefreshed, and dreading the strain of the day's labors. The cause of this is deficient vitality and behind this lies a deficient supply of pure, rich blood, and an inadequate nourishment of the body. There is nothing that will give a man strength and energy, as will Dr. Pierce's Golden Medical Discovery. It does this by increasing the quantity and quality of the blood supply. This nourishes the nerves, feeds the brain, builds up enfeebled organs, and gives that sense of strength and power which makes the struggle of life a joy. The "good feeling" which follows the use of "Golden Medical Discovery" is not due to stimulation as it centains no alcohol, whiskey or other intoxicant. It does not brace up the body, but builds it up into a condition of sound health.

Living in a Grave.

A remarkable saint has recently made his appearance in Bengal and professes to effect miraculous cures of incurable diseases. During the recent cold weather he passed fifty-one days in a tank by keeping nearly the whole of his body under water, and now he is living inside a "pucca" grave six feet deep. This has been was through which to serve him with his daily food, simply cousisting of an orange or pomegranate juice with one almond only. In this state he will remain for fifty-one consecutive days, and through the hole a string has been passed into the grave, one end of it being tied to a bell suspended on a bamboo post to enable him to give an alarm in case of any danger or mishap. He also uses it to respond to calls inquiring after his health, signifying thereby that he is all right. The saint catered the grave with his bedding, some holy books, two or three bottles of rosewater and one or two vials of attar of roses, after which the opening was blocked up, barring the hole, and then, leveling the place with carth, some greens were sown, which, being regularly watered, thrive nicely. The saint has taken the rosewater with him in lieu of plain water to wash his face, hands and feet before saying his prayers. But the saint was not without an eye to the main chance, for one day & money order came to his address from Bombay, which, being rolled up, was dropped into the grave through the hole. It was shortly after passed back duly signed by the holy man.—East Indian Exchange.
