## GENERAL AND NERVOUS DEBILITY.

These complaints are on the increase. A few prominent symptoms are weariness, tired, all-gone feeling, exhaustion, weakness, faintness, dizziness, depression, loss of memory, fluttering or palpitation of the heart, wasting of flesh, and poor blood. When any of these symptoms exist it is good evidence of the presence of some exhausting form of disease of the body or brain. This class of diseases is best treated by tonic, invigorating, purifying and vitalizing remedies which strengthen the system and remove impurities. A combination perfectly suited to meet these conditions is found in Burdock Blood Bitters, nature's grand blood renovating tonic for all exhausting forms of disease which revitalizes the blood, invigorates and strengthens the nerves and fortifies the entire system against weakness or exhaustion in any form.

---

### General Weakness.

DEAR SIRS,—I suffered for years from general weakness and debility, and tried one bottle of B. B. B., which did me so much good that I continued its use, and now find myself strong and well.

REBECCA MARCOTTE,

St. Albans, Que.

### Loss of Appetite and Sleeplessness.

GENTLEMEN,—I have been greatly troubled with loss of appetite, weakness and sleeplessness, and find B. B. B. to be more strengthening than anything I have ever taken. Many of my friends use it, and find nothing equal to it.

MISS HEASLIP,

34 Huntley Street, Toronto.

### Sick and Feeble.

GENTLEMEN,—Last spring I was so weak, sick and feeble that I could hardly walk across my room. I commenced B. B. B., and before I had taken two bottles I was completely cured, and I think there is no better medicine.

MRS. JOHN CLARK,

Harley Road, N. B.
