

Valuable Standard Preparations.

VICTORIA BUCHU AND UVA URSI.

"Buchu" is an extract prepared from the leaves of plants growing at the Cape of Good Hope; they are collected there by the Hottentots, who value them greatly for their medicinal qualities, and have long used them:—"Uva Ursi," or trailing bearberry, is chiefly indigenous to high latitudes, to the Pyrenees and to the Alps; it was known to and much used by the ancients: The Compound Fluid Extract bearing the name of Victoria Buchu and Uva Ursi, is a combination of these two ingredients prepared from the Formula of Dr. RUBINI, and is a Specific Remedy for all diseases of the Bladder or Kidneys, the Prostrate Gland, and all affections of the Urinary Organs, in either sex, from whatever cause arising. The eminent and learned European Physician Dr. RUBINI, for many years was celebrated for his wonderful cures of Disorders in those Organs. His name was known in every Court of Europe, and Crowned Heads resorted to him for advice. After his death, the Prescription was obtained from his Family. Two of the ingredients entering into this celebrated Medicine, viz: Buchu and Uva Ursi, are now used by all Physicians for the cure of such Disorders. But the great secret of Dr. RUBINI's peculiar and eminent success lays in the combination of these two ingredients with certain other vegetable productions: these are all combined in this Medicine, which is prepared with the utmost care from his Formula; and wherever used the Victoria Buchu and Uva Ursi has invariably given the most decided and unequivocal satisfaction. (See below Certificate of H. H. CROFT, Esq., D.G.L., F.L.S., Prof. of Chemistry, University of Toronto.)

Price \$1 per bottle—with full directions inside.

VICTORIA CARBOLIC PREPARATIONS.

Prof. GUILLERY, of Paris, has demonstrated anew the powerful antiseptic properties of carbolic acid in some additional experiments lately made. By his treatment with the acid, putrefaction was entirely prevented, the body after six months exhibiting no signs of decomposition, and being but slightly altered in appearance. At the Morgue, in Paris, a solution containing one-twentieth of one per cent. of carbolic acid sprinkled over the bodies arrested putrefaction even during the heat of Summer. Chlorine had previously proved ineffectual to disinfect the atmosphere of the deadhouse.

The *Wiener Medical Wochenschrift* states that Dr. A. Loeffler, of Stockman, has treated successfully more than forty cases of small-pox by the external copious application of a solution of carbolic acid. The acid was also diffused through the atmosphere of the sick rooms, and Unvaccinated children inhabiting the same rooms generally escaped the disease.

Carbolic Acid is now put up in a great variety of forms. A finely perfumed Glycerine Jelly containing a per centage of acid, has become a great favourite for Sore lips, Chapped hands, and for removing Freckles, &c.—Carbolic Salve has proved to be one of the best healing compounds ever discovered, for Cuts, Sores, or Wounds of any description. A powder is also prepared with the Acid, for disinfecting sick rooms, out-buildings, &c., and for this is invaluable: while Carbolic Soap is largely used in Hospitals, and in private families is gradually superseding the ordinary toilet soaps; it being a preventive as well as a curative agent, and not unpleasant in smell when properly mixed with other perfumes.

VICTORIA GLYCERINE JELLY (carbolated). Price 25 cents per toilet bottle.

VICTORIA CARBOLIC DISINFECTANT, Price 25 cents.

VICTORIA CARBOLIC SALVE, Price 25 cents.

VICTORIA COMPOUND SYRUP OF HYPOPHOSPHITES.

The discovery by Dr. CHURCHILL, after years of patient research and experiment, of a Specific Remedy for Consumption, marks a new and important Era in the progress of Medical Science. The announcement of this discovery was made in the year 1857, to the Imperial Academy of Medicine, Paris.

Previous to Dr. Churchill's discovery, the incurability of Consumption was admitted by all medical writers and practitioners; but the question of its curability has been conclusively settled in the affirmative by the results which have attended the administration of the Hypophosphites since the discovery of their therapeutic properties was announced to the world in 1857.

The action of the Hypophosphites upon the animal economy, when administered in the prescribed manner, is to restore by means of an Assimilable and Oxidizable preparation the deficiency or undue waste of the Oxidizable Phosphorus normally existing, and the deficiency of which, however produced, is the immediate or proximate cause of Consumption.

They have also other effects, the importance of which hardly can be over-estimated: 1.—That of stimulating and increasing the nervous energy to its maximum force. 2.—Increasing the quantity and improving the quality of the blood. 3.—Strengthening the nutritive functions: thus maintaining these three conditions of robust health at their highest degree of intensity compatible with physical enjoyment.

The absolute purity of the Hypophosphites is one of the first conditions of their curative action: when impure, they create a feeling of uneasiness which never occurs in any instances with chemically pure salts.

That the Victoria Syrup of Hypophosphites is pure, is shown by the following Certificate from Professor Croft, one of the highest authorities in the Dominion: it can also be relied upon as being prepared strictly from the Original Formula of the Discoverer himself, Dr. J. F. Churchill, of Paris. Price \$1 per Bottle. Full directions inside.

Laboratory, University College.

Toronto, 14 Dec, 1872.

JAMES W. SMITH, Esq.,

VICTORIA CHEMICAL CO.

SIR,—I have examined the articles employed in the Victoria Chemical Works, in the preparation of the "Syrup of Hypophosphites." The several Hypophosphites mentioned are chemically pure, and the Syrup is quite free from any impurity: the other substances employed in the Extract of Buchu and Uva Ursi, seem also to be quite pure.

Your "Compound Syrup of Hypophosphites" and "Fluid Extract of Buchu and Uva Ursi," will doubtless prove very valuable medicines.

HENRY H. CROFT,

Professor of Chemistry, U. C.

VICTORIA ELECTRIC LINIMENT.

A Sovereign Preparation for the quick relief and cure of Rheumatism, Sprains, Bruises, and of every description of pain in the Limbs or Sinews.—A bottle of this should be on hand in every household. Price only 25 cents per bottle.

VICTORIA SULPHUR SOAP.

The only antidote for the Itch and other skin diseases.

VICTORIA TOILET SOAPS.

GLYCERINE, HONEY, ROSE, WINDSOR, &c.

Celebrated for their choice perfume, uniform purity, and excellence of quality.

VICTORIA CARBOLIC SOAP, Pure Acid.

VICTORIA CARBOLIC SOAP, Perfumed.

The Above Preparations, for sale by Druggists generally throughout the country, are Manufactured and sold Wholesale only by the

VICTORIA CHEMICAL CO.,

WORKS—151, 153, & 155, QUEEN ST. EAST, TORONTO, ONTARIO.

JAMES W. SMITH, Proprietor.
