

## NINTH AN

In presenting the ninth  
the Elgin Association ; th  
reporting that the health  
and that considerable imp  
and opening up the land, b

They would acknowledge  
God for the measure of suc  
in placing those coloured  
selves of the privilege affor  
comfortable homes.

The year that has just p  
cial distress throughout th  
suffered in common with o  
the friends of the Associ  
neither disheartened nor d  
still have, difficulties to co  
niary embarrassment that  
has been a failure in the cr  
wheat in particular has be  
oats have been partly dest  
after it was gathered last f  
To meet these failures, the  
perseveringly. Buckwheat  
failure of the wheat and oa  
planted to a greater exten  
crops mature, and be safely  
a sufficient quantity will b  
during the ensuing year.

The number of acres cle  
are chopped down, and wi  
the land cleared up 500 is
