

## HOLSTEIN-FRIESIAN NEWS

Farm and Dairy is the official organ of The Canadian Holstein-Friesian Association, all of whose members are readers of the paper. Members of the Association are invited to send items of interest to Holstein breeders for publication in this column.

## SALE DATES CLAIMED

April 4, 1912: J. W. McCormick, Weston, Ont., Holsteins.

March 26, 1912: B. Macklin, Moreau, Ont., Holsteins.

March 27, 1912: C. C. Kettle, Wilsonville, Ont., Holsteins and Yorkshires.

May 23, 1912: Thos. Hartley, Downview, Ont., Holsteins.

March 25, 1912: E. F. Osler, Bronte, Ont., Holsteins and Clydesdales.

April 4, 1912: Wm. Slaght, Bealton, Ont., Holsteins.

April 3 and 4, 1912: Belleville Dist. Breeders' Sale, Holsteins.

## GREAT HOLSTEINS AT AUCTION

(Continued from last week)

Space does not permit us to say but a part of the many things we might write about the superior animals in Mr. Macklin's herd. Mol De Kol, one of his cows, as a four-year-old made 30 lbs. 2 cwt. Netherlands Bess made nearly 18 lbs. as a four-year-old. Madam De Kol, a cow not officially tested, but having the appearance of being a regular milking machine, has milked up to 70 lbs. a day. Val Friesland Lady Inka, an imported cow, has a record of 14 lbs. at two years, one month and 14 days. Her dam made 12.55 lbs. and her grandam 20.55 lbs. Her grand sire is Pieterje Hengerveld Count De Kol, sire of two 20 lb. daughters, and a great number of 27 lb. daughters, and is one of the greatest bulls on the other side. Another cow, Grace Anka De Kol (imported), has a record of 15.75 lbs. as

a two-year-old and is sired by Aggie Grace Bir De Kol, son of Manor De Kol, another of the great bulls in the States. She is a good tester, going 3.7 in fat. Delta Gem, another cow, has an official record of 20.44 lbs. She has a daughter that has made over 12 lbs. in the yearling class. She is not big, but is of excellent type. Manor De Kol's Cora Grace, another cow in this offering, has made something over 15 lbs. and is one of the best bred animals Mr. Macklin has. Her tests are a little short of perfection, but she has everything else to commend her.

While Mr. Macklin has 27 animals catalogued, he expects by the time of the sale to have at least 40 in the herd.

The stock bull is Cora's Brightest Canary, an animal of strict dairy type, with the strong wedge shaped shoulder so much desired, and being a good, well low handler, of excellent quality, strong in constitution, length—and in fact just such a bull as one would expect Mr. Macklin to have for his superior herd. The sire of this bull is Brightest Canary, out of Paul De Kol, Ja., out of Sadie Vale Concordia, the first cow in the world to make 20 lbs. of butter in seven weeks. The dam of Mr. Macklin's bull is Cora's De Kol Pet, 25.55 lbs., official. Brightest Canary's dam is Canary Mercedes Brightest having an official record of 27.5 lbs. The four nearest dams of Mr. Macklin's stock bull average over 27.4 lbs. butter in seven days.

There will be 21 milking cows all told in this sale, and when it is known that Mr. Macklin refused a cash offer of \$5,000 for his herd it can be appreciated how much faith he has in the excellence of these cattle, which he is offering on March 26th.

## QUEBEC HOLSTEINS FOR SALE

We take the following from a letter recently sent to Farm and Dairy by P. L. Brown, Beth, Que., who advertises his Holsteins for sale elsewhere in this issue: "In the year 1907 I in company with my brother, D. H. Brown, bought a registered bull from Cook & Sons, Aulaville, Ont. He proved a good investment. We crossed him with our common stock (and they were very common). Every one of this cross proved to be extra milkers. In 1909 I bought from McBurny and Butters, Stanstead, Que., my first registered cow, Lass of Sunnyside (No. 3521). She proved to be a good cow, and all of my registered cows in sale (except two trace back to her).

"In the year 1902 we bought from N. Sangster, Ormstown, the bull Manor De Kol Colanthus 2nd (No. 2,574), a son of Manor De Kol Colanthus (No. 2,528), who sired the cows Maud, Joeck and Rhoda's records, the cows that made world's records in the dairy test at Ottawa. Eleven cows in the sale are sired by Manor De Kol Colanthus 2nd. White Prince Mercedes (No. 7765) now heads the herd.

"I have never kept records of my cows, but they are all large and of dairy type and ready to make records any time."

## NOTES ON MCCORMICK'S HOLSTEINS

Some months ago mention was made in these columns of the approaching sale of pure-bred Holstein-Friesian cattle at Brookland Farm, Morewood, Ont. This sale is now close at hand, and Mr. McCormick will dispose of this fine herd on April 4th, 1912. Mr. McCormick has been to build up a herd of cattle rich in butter fat, together with large milk producing qualities, and this success can be seen in the records of his animals. He has been doing official testing only for the past two years, and the results should satisfy the most sanguine. Although his cattle have done so creditably he regrets he did not begin testing sooner, for the work was new to him. He feels satisfied that with the practical knowledge he has gained, many of the records could be greatly increased. In his herd two-year-old heifers have given 1,000 lbs. of milk each month for 11 months, while mature cows have given around 14,000 lbs. of milk in a year.

This herd is recognized as the highest testing herd of Holsteins in the Record of Performance. The whole herd is nicely marked, more white than black, and the youngsters arriving, sired by that noted young bull, Sir Hengerveld Jewel, are a thrifty lot, of ideal type and color.

Mr. McCormick has been visited by a number of desiring purchasers, and has been offered long prices for some of his animals, but he did not and will not dis-
