

Make 3 Cows Produce As Much Milk As 4

Plenty of farmers who have installed **Ideal Green Feed Silos** are doing it. A good silo soon pays for itself. It's the best investment a cow owner can make.

Get our silo books. Even if you are not quite ready to buy a silo you will find it contains much information on profitable dairy feeding which will interest you.

SPECIALS TORONTO FAT STOCK SHOW.

In order to encourage in a substantial way the production and marketing of the desirable grades of Live Stock, Gunn's limited offer the following prizes to be competed for at the Fourth Annual Toronto Fat Stock Show, to be held at the Union Stock Yards, Toronto, on Saturday and Monday, Dec. 6th and 8th, 1913:—

\$100 in cash for the best carload of 50 butchers' beefs, without horns, any breed, 1200 pounds and under, to be judged with due regard to quality, and to be all uniformly and suitability for market demands, and to be exhibited 10 days before the opening date of the show.

\$100 in cash for the best carload of 50 bacon hogs, to range from 120 to 220 pounds, and to be exhibited 10 days before opening date of this show.

\$100 in cash. Added prize to Grand prize for the best grade of cross-bred steer or heifer. All entries to be subject to general rules of Toronto Fat Stock Show.

MR. HARDY'S AVONDALE HOLSTEINS.
 Avondale Farm, (A. C. Hardy, Proprietor, Lorne Logan, Manager), Brockville, Ont., is coming almost rapidly and is making progress as it is to be expected. It is happily recognized that one of the editors of Farm and Dairy was passing through Brockville and Mr. Logan very kindly arranged to drive out to the Avondale Farm, where we had dinner and inspected the farm, and then drove on to Brockville and then later to Sir J. W. Stewart's to see the latter's herd.

Hardy's stable the first thing to attract our attention was a most excellent heifer out of May's behavior, and that great bull King Pontiac Aris Canada. She is 2-81 in blood in her grade, strong type and size. For a Canadian-bred heifer she is doing as good a record as any we found, her mother having 21 lbs. as a record for a yearling, and her great bull in a year's trial, 20 lbs. with second calf. There are still a few young bulls from these heifers that are offering at half their value in order to make room. They are bred by Imperial Farm, Sir J. W. Stewart's to the farm and see the dams of these bulls in their dams.

Two "Cracker-Jacks"

Note their superior breeding and A. R. O. backing. Pick out which one you want. Then write for extended pedigree and photo.

No. 1—Born February 26, 1913, a son of Prince Hengerveld of the Pontiacs; dam, Mercena of Campbelltown, 23.67 lbs. butter as a three-year-old. (Prince Hengerveld of the Pontiacs requires no further recommendation.) Mercena of Campbelltown, is one of the most promising cows that I have in my dairy. Her dam is Tensen of Elmwood, 22.54 lbs., and she is a daughter of Johanna Rue's 4th Lad, he having 21 A.R.O. daughters. Her sire Mercena of Campbelltown, is Sir Mercena Abbekirk, 5 A.R.O. daughters; he is a son of Mercena Sir Posch, 7 A.R.O. daughters, whose dam Mercena 3rd has a record of 27.29 lbs. butter in 7 days.

—This calf is a dandy, a little more black than white, and perfect in every way. Price, \$150.00.

No. 2—Born March 1, 1913, same sire as No. 1. Dam, Quencie L., 27.76 lbs. butter in 7 days, 5.2 per cent. fat. This cow contracted a cold in her udder shortly after freshening, and I fed her nothing but alfalfa hay and roots. I expected this cow to make well over 30 lbs. I will try her again at next freshening.

—This calf is a promising young fellow, as straight as a line, a little more black than white. Price, \$150.00.

If interested, write promptly for extended pedigree and photo.

GORDON S. GOODERHAM

The Manor Farm Bedford Park, Ont.

A VISIT TO BROWN BROS. HERD.

Recently we were privileged in having the courtesy of the editors of Farm and Dairy to get out to see the Brown Bros. herd and inspect once again their noted herd of Brown Bros. Herd in 1912. It is a pleasure to see a herd of this size and quality, and to see the progress made since some five years ago. They have received since some five years ago a number of prizes, and it is of course of their own accord that they have received so much of their own accord through the development of their herd.

They have received since some five years ago a number of prizes, and it is of course of their own accord that they have received so much of their own accord through the development of their herd.
