There are Thousands of Engineers

in active business in Canada. The rapid development of the country in every way means work for them all. Railway construction will keep railway engineers busy for years to come. The utilization of waterpower requires every hour of the electrical engineer's time. The engineering profession of Canada have before them a vast field of enterprise. The average engineer must keep pace with the developments of his profession. But he cannot afford to lose even five minutes. He must know what is going on in the engineering world. The paper which tells him all he wants to know is an acquisition; the paper which gives him the same information without wasting his time is the best of all.

The "Canadian Engineer" is THE journal of engineering in Canada. It is a monthly, illustrated publication of 84 pages, same size as the "Monetary Times," and is published by the same proprietors at the corner of Church and Court Streets (opposite St. James' Cathedral). The following articles amongst others appear in the February number now ready:

The Electric Furnace—its evolution, theory and practice. By Dr. Alfred Stansfield of McGill University. The development of the Roe Puddling Process. By James P. Roe. Systems in Industrial Establishments. By A. J. Lawrie. The proprietors of the "Canadian Engineer" are satisfied that the time has come when the engineering interests of Canada should be served by a Weekly Journal, and are issuing now a weekly edition of the "Canadian Engineer." The weekly edition of the "Canadian Engineer" gives all the news which the engineer desires. The reader may peruse the paper from one end to the other. Not a minute of his time will have been wasted. The news is live. And the possession of live news to the engineer means progress in his profession. Construction items are classified, and he can put his finger on just the thing he wants every time. This week's issue contains, amongst other features, the following: Toronto Engineers' Club Meeting. British Columbia Mining. Track Elevating, Ballasting, and Tamping Machine. Tenders Called For. Subscription rates: Monthly and Weekly editions, each \$1 per annum.

SEALED TENDERS. Supplies," and address to noon on Tuesday, 19th. Printed forms of tenders and quantities required undersigned.

No tender will be returned. Patterns of articles may be obtained on request. Each tender must be accompanied by a cheque for an amount equal to the value of the articles tendered for, which will be returned, if the articles contracted for will be returned.

No payment will be made without authority of the undersigned.

Ottawa, 4 February, 1907.

CITY DEBENTURES

Sealed tenders addressed to the City Engineer, for Debentures, will be received until noon on 4th day of March, 1907. Debentures of the City of Moose Jaw, 1907, of the said city, authorized by the City Council, and pending on certain local improvements, will be returned.

These debentures will be issued in principal and interest on 1st day of March, 1907, and will bear interest at the rate of 5 per cent per annum.

The highest or any other rate.

Regina, Sask., Feb. 23, 1907.

CITY DEBENTURES

PROVINCIAL DEBENTURES

Sealed Tenders addressed to the City Engineer, for Debentures, will be received until noon on 4th day of March, 1907, for the purchase of City of Moose Jaw, 1907, of the said city, authorized by the City Council, and pending on certain local improvements, will be returned.

The highest or any other rate. For further particulars apply to the City Engineer.

Moose Jaw, Sask., Feb. 23, 1907.

Vancouver

SHARES.—These shares are non-assessable and pay 25 per cent dividend.

Subscription rates: Monthly and Weekly editions, each \$1 per annum.
