MONTREAL.

Mercantile Summary.

In the year 1888, there was spent in Bran-
don on new buildings or improvements to old
ones, \$119,000. This year the expenditure in
the same direction in that place amounts to
\$238,000.

The rise of the price of ivory may be
described by the statement that the great cut-
lery firm at Sheffield, Rodgers & Sons, used to
pay £600 a ton, but they have lately paid
£1,280, and in some special cases as high as
£2,000.

The principle of "sliding scale" contracts
is making further growth among commercial
men in England. One of the latest applica-
tions is to be found in the fact that some of
the contracts for the supply of coal for next
year for the great fleets are at prices which
rise and fall with the wages of the coal
miners.

The Pilot Mound Sentinel says that the
cattle trade of that district may be considered
over for the season. About one thousand beef
animals and a large number of sheep and hogs
have been sent from Pilot Mound station.
The amount realized by the sales has been
upwards of \$50,000.

MONTREAL has a new thirty-inch water main,
which has been connected with the pumps.
It runs from the Wheel-house, in Verdun,
beneath the Grand Trunk track and the River
St. Pierre, along Atwater avenue to Notre
Dame and St. Antoine streets, where it joins a
new twenty-four-inch main. A new ten-inch
main has been laid in Centre street and at-
tached; this will supply all the low levels
south of the canal. At present the water sup-
plied to houses near the pumping station
itself has to be pumped away up to Sherbrooke
street, whence it returns through distributing
pipes. The new main will enable this to be
altered.

CLEARING SALE!**J. GOUINLOCK & CO.,**

Will dispose of their Entire Stock
of FURS, ROBES, COATS, &c., to
close up that branch of their busi-
ness, at from Ten per Cent. to
