THE "VIVIDEST" BOOK

Want to see the War as it actually is, right from the heart of the participants, free from the opinions of correspondents who see a little, give many opinions but have had no opportunity to *live* it?

Such a book is—

OVER THE TOP

By Arthur Guy Empey

Empey was an United Stateser, a member of the National Guard, who became stirred up after the Lusitania outrage and threw in his lot as a private with the British Tommies. Returned and incapacitated, he tells the story of the actual fighting in a way that has not been heretofore approached. It's hard, some of it, but it's true and it gives an idea which cannot be gained otherwise in book form of the hardships our boys are struggling against and the sacrifices they are making. It is, as one reader said "The Vividest Book on the War" yet published.

Price, \$1.50 postpaid.
