FARMERS' WEEKS AT SASKATOON

The first two weeks in January will be farmers' weeks in Saskatoon. During the first week, January 3 to 5, the Saskatchewan Agricultural Society's Convention will be held in that city, and the following week, January 9 to 12, has been chosen for the Provincial Livestock Convention. The meetings are to be held at the Agricultural College. In connection with the Livestock Convention, the annual meetings of the Saskatchewan Livestock Associations, including the Saskatchewan Horse Breeders', Cattle Breeders' and Sheep and Swine Breeders' Associations, will be held. In addition to the business meetings there will be lectures on livestock subjects together with discussions and demonstrations. Among the speakers who have consented to address the convention are the following:—Dr. F. Torrance, Dominion Veterinary General; John Bright, Dominion Livestock Commissioner; Dr. M. P. Ravenal, University of Missouri; Hon. W. R. Motherwell, Minister of Agriculture; Dean Rutherford of the University of Saskatchewan; W. F. Stevens, Livestock Commissioner for Alberta; J. W. Leedy, Ex-Governor, Kansas, U.S.A.

Reduced fares have been arranged with the railroads. Visitors buy a single first class ticket and secure a standard certificate from their local railway agent.

Altho there will be no spring shows this year in Regina and Saskatoon, the sales of purebred cattle and horses under the auspices of the Saskatchewan Cattle Breeders' and Saskatchewan Horse Breeders' Associations, will be held on the following dates:—Auction sales of cattle; Regina, March 14; Saskatoon, March 21; Auction sales of horses; Regina, March 15; Saskatoon, March 22. Entries for cattle and horses for these sales close February 20.

GET GOOD SEED

There is no doubt that the majority of farmers do not pay sufficient attention to the selection of seeds, to the purchase of new and imported varieties and to the cleaning and grading of their seed grain. The loss to themselves and to the country from this cause alone is very large. There are many farmers throughout the prairie provinces whose sole aim and ambition is to get in a large acreage of crops every year, losing sight of the importance of increasing the yield per acre thru better cultivation and the selection of suitable varieties.

Another point to which special attention may be paid is the cleaning and grading of seed grains. Results of experiments made with selected large, heavy seed, medium size, and with small seed, show that with oats, the large, heavy seed gives a yield of fifteen bushels per acre more than the small seed. There is also a similar difference in the yields per acre of wheat, barley and peas, in favor of selection and thorough grading of the seed. There is a noticeable difference as well in the growth of straw, which appears to be stronger and of better quality when the large, heavy seed is sown. The Guide offers an opportunity to every farmer to get the best seed that Western Canada produces. For little labor and no money farmers can secure for themselves the best registered grain procurable.

FLAVELLE TALKS STRAIGHT

J. W. Flavelle, chairman of the Imperial Munitions Board, who returned from England some days ago, met on Tuesday, December 12, two hundred leading munition manufacturers from all over Ontario. Mr. Flavelle, who said he was fresh from the heart of a nation which was sweating blood to win the war, bluntly told the manufacturers that Canada had failed to make good her promises to Britain in the matter of delivery of munitions. He stated that in the inspection houses in Britain he had seen Canadian shells which were faulty. Good shells meant victory, but defective shells were deadly to our own gunners.

"Profits!" he said. "Send profits to the hell where they belong! If you fail in your promises it may mean disaster."

ALBERTA SEED FAIR

The Provincial Seed Fair for Alberta will be held in Calgary from January 30 to February 2 inclusive. Those wishing copies of the prize list should write the Department of Agriculture, Edmonton, Alta.

Give the "Kiddies"
All They Want of

CROWN BRAND
CORN PURE SYRUP

It is one of the delicious "good things" that has a real food value. A slice of your good homemade bread, spread with "Crown Brand", forms a perfectly balanced food, that is practically all nourishment.

So—let them have it on biscuits and pancakes, and on their porridge if they want it.

You'll like it, too, on Griddle Cakes—on Blanc Mange and Baked Apples. And you'll find it the most economical sweetener you can use, for Cakes, Cookies, Gingerbread and Pies.

Have your husband get a tin, the next time he is in town—a 5, 10 or 20 pound tin.

THE CANADA STARCH CO. LIMITED
MONTREAL, CARDINAL, BRANTFORD, FORT WILLIAM.
Makers of "Lily White" Corn Starch—Brown's Corn Starch—and "Silver Glass" Laundry Starch.

Our new recipe book, "Desserts and Candies", will show you how to make a lot of really delicious dishes with "Crown Brand". Write for a copy to our Montreal Office.

LEARN THE AUTOMOBILE BUSINESS

DETROIT

trained men get

preference and get jobs

quickly. No other city can give

what Detroit offers. Think what it

means to learn in the Michigan State Auto

School. Factories endorse our school, glad to em
ploy our graduates or offer them territory in which to
sell cars and start garages. Unlimited opportunities. You're
right in the middle of the greatest auto activities. Men are
needed everywhere as testers, repair men, chauffeurs, garage men,
and salesmen. Hundreds of our graduates start in business for themselves.

Earn \$75 to \$300 a Month

We teach you to handle any auto proposition. You graduate in from ten to twelve weeks. Our equipment is complete. Students actually build cars from start to finish, getting factory training in assembling, block-testing, road-testing, everything. Special complete course in Oxy-

Acetylene brazing, welding and cutting, separate from regular course. All leading types of starting, lighting and ignition systems in operation. Learn to time motors, adjust carburetors, magneto, valves and bearings quickly and accurately. Six-cylinder Lozier and 8-cylinder King are used for road instruction. We have a new Chalmers "6-30" chassis with 3400-r.p.m. motor, the latest thing out, also a 1917 Detroit "6", and an Overland. Just added Devoe system as used in Buick, Hudson and Packard Twin "6". We have also installed a 1917 Willys-Knight complete chassis in the shop for students to work on.

Detroit is the Place to Learn—Start Any Time

There are 44 auto factories in Detroit, and 140 accessory and parts factories. Our students have the privilege of going thru any or all of them. We now operate Westinghouse, Auto-Lite and Bijur Service Stations. After careful consideration the Westinghouse Electrical & Mfg. Company, the Auto-Lite Company and the Bijur Co. decided that our school was the best place in Detroit to handle their service stations. This has added thousands of dollars' worth of equipment and makes our electrical department unequalled. Students get actual experience and training in handling all kinds of electrical auto equipment and taking care of trouble. We have just installed a Sprague Electric dynamometer for block-testing purposes for students' use. Auto factories need Dynamometer men con-

stantly. We have a greater demand for our graduates than we can meet. Factories and garages are paying big salaries to men who know how to handle electrical equipment quickly and properly. Detroit is the automobile centre. You get practical instruction. Come to our school and learn the auto business right. School opens all the year. Enter classes any time, any day. Three classes daily: morning, afternoon, evening. You can work in the factory in daytime and take course at night. There is a great demand for Michigan State Auto School students. Garages throughout the country write us for men. Auto factories write and phone for men constantly to fill permanent places. Why not fit yourself for one of these good paying positions?

Follow the Crowd to the Michigan State Auto School. Come to Detroit.

THIS IS ONE OF THE 1916 CLASSES

Factory Co-operation

We have completed arrangements with the Auto factories to put them in touch with men who intend going into business for themselves. Think of getting inside information as to the best territory and where the factories will make the most money. The factories are looking for trained men to represent them. Men who know the auto business from A to Z are in highest demand. Come here and start right—get the information first-hand and don't wait.

Act Quickly—Now—DON'T WAIT This is the
and small it may be, get full particulars and "Auto School News" and New Catalog. They are both absolute free. Go home right, jump on the train, as branch offices have done, and come to Detroit, the "Heart of the Automobile Industry," and learn right.

Remember you can enter classes any time, any day. The price, of course, is based on giving full value. Therefore we cannot give another course free. Graduates in the complete auto course are competent to handle farm tractors. Act quickly—now. We have no branches. Write or come direct to this school.

Michigan State Auto School

1432 Auto Building—587-89-91 Woodward Avenue—U-18 Clinton Avenue

The Old Reliable School. A. G. Zeller, President

DETROIT, MICHIGAN, U.S.A.

Additional Building and Equipment 33,000 sq. ft. of additional floor space in our new building. Thousands of dollars' worth of new equipment, plenty of room for students to work. This comes with our new building at 587-89-91 Woodward Avenue. Our school has grown by leaps and bounds, students come from all over the world. Men have left after graduation and started businesses for themselves, others have accepted good jobs both in Detroit and over the country. Their work has proven that we teach them right. We are constantly adding new equipment. Our students get the best and latest things to work on. Our electrical department is thorough and complete.
