

ST. GEORGE, N. B.

April 20. Steamer Connors Bros. was in port Monday with a load of freight from St. John. This is her first trip, weeks later than ordinary years.

Considerable new blood was infused into the town council on Tuesday by the electors. For the first time since incorporation a full ticket with opposition in several wards was before the voters. The results gave evidence of a greater interest on the part of the electors, more taking part in the voting.

Gid Wetmore, of Ottawa, was in town for his sister, Mrs. Milne's, funeral.

Miss Irva Goss, who for the past three years has been at Mars Hill for the Western Union, is home for a brief holiday. She will leave in a few days for Bennington, Vt.

Jno. Sothern, bookkeeper for the Gillmor-Jamieson lumber concern, has severed his connexion with that company and left for his home in Fredericton.

Charles Betts, of St. John, is the guest of Mr. and Mrs. R. J. Austin.

Mr. and Mrs. Henry Meating visited the border towns this week.

Percy Tayte, of the Bank of Nova Scotia, St. John, is home recovering from an illness.

Miss Ray Cawley, of St. John, was called home by the death of her aunt, Miss Hettie Cawley.

Mrs. Auriel Brookes received at the home of Mrs. T. R. Kent on Wednesday afternoon.

Mr. and Mrs. Maloney, of Grand Manan, are guests of Mrs. Maloney's mother, Mrs. F. Meating.

Private Albert Buckley was called to Chatham by the illness of his sister.

Miss Mullin McGrattan returned from St. John this week.

Miss Helen Chaffey has returned to Eastport, after a short visit with her parents, Mr. and Mrs. H. Chaffey.

Miss Ida Spear, manager of the telephone office, is enjoying a vacation. Miss Stickney, of St. Andrews, is relieving during her absence.

Miss Annie O'Neill has returned from St. John.

April 23. Weir owners and fishermen generally are intensely interested in the outcome of the meeting to be held here on Friday by the Weir Owners Association. The meeting will hear the report of a committee, appointed to meet the Food Controllers, of United States and Canada, and the packers at Calais on Friday last. At this meeting it was soon apparent, to the delegates from this section, that they were simply called to ratify a price agreed on at Bangor a week previous. This did not appeal to the delegates, who claimed, with good reasons, that they should be consulted at least before a price was set. That the interests of the Packers would not suffer in any price set the delegates soon understood. One of their prominent members was also a member of the Food Control at Washington. A resolution adopted at Bangor doing away with the contracting of weirs had evidently been rescinded, as a number of weirmen have been approached to contract their weirs. A maximum price of twenty-five dollars a hoghead was offered. This the delegates refused to accept. It means nothing to the weirmen, and fishermen will easily understand this. The delegates thrashed the matter out Friday afternoon and far into Saturday morning, listened to eloquent addresses on patriotic lines from the Food Control representative and others, but still were of the opinion that as producers of 80 per cent. of the pack they were entitled to consideration and they meant to have it before coming to an agreement. It is well-known to everybody that in order to get any returns from their invested capital in weirs, a good fair price must be obtained by weir owners for their fish. Ninety per cent. of the weirs along the coast must be rebuilt this season, and the cost of this work has increased threefold; everything used in the building of a weir has advanced tremendously. Add to this the fact that 80 per cent. of the weirs did not pay expenses last year, and one may readily see the price of fish must be higher. The agreement made at Bangor between packers and weirmen of Maine for a maximum price of twenty-five dollars is a different proposition when applied to Charlotte and St. John. Along the west coast of Maine a large number of weirs are owned or controlled by the Packers, here our weirs are owned by the fishermen. They must obtain all their profit from the sale of fish at the weir. It is hoped an agreement will be reached at Friday's meeting. The delegates attending the meeting at Calais were: President, George E. Frauley, Oscar Hanson, and George Ellis, of Lepreau; A. A. Stewart, of Deer Island; and Coleman Ingalls, of Grand Manan, from the Weir Owners Association, and W. C. Keirstead, of Fredericton, and R. E. Armstrong, of St. John, for the Canadian Food Board; Dr. Merrill, of the Maine Food Board, and Dr. Loomis, of Washington, in the interest of the U. S. Food Control. There were also a number of representatives of the Packers.

Miss Nellie McVicar left on Tuesday for Chicago.

A masquerade ball will be held on Friday evening in Coutts' Hall.

The power was shut off in the pulp mill Monday and Tuesday in order to make

necessary repairs. The granite mills were closed also.

That Edwin Hibbard had been wounded in the head from a gun shot wound, was the word received by his parents on Thursday last. Edwin has been in the trenches for some months. He was a member of the 104th, going overseas with that battalion. He is the eldest son of Mr. and Mrs. Frank Hibbard, and was employed in the Bank of Nova Scotia before enlisting. His brother, Frank, and sister, Laura, are both overseas.

Unless you have heard the NEW EDISON, "The Phonograph with a Soul," you do not realize that the great inventor has actually evolved a new art. Even more vividly and convincingly than the motion picture reproduces the drama this marvellous instrument re-creates music. In fact, as the famous tone tests have effectively proved, no human ear can detect a shade of difference between the rendition of the living artist and that of "the phonograph with a soul."

HARDWARE BRANDRAM-HENDERSON

ECONOMY applied with a Paint Brush

THE great national duty to-day is to "conserve." It's a duty you owe yourself as well as your country. A duty just as applicable to a house, or building, as it is to the things you eat and wear. Buildings, in fact, show so tremendous an increase in cost, that the importance of keeping them protected is apparent to all who know how steel, wood, brick and cement have jumped in price. And the cheapest protection you can give a building is the kind you apply with a brush—PAINT. For true protection, scorn the ineffectual, cheap paints. Use only

B-H "ENGLISH" 70% Pure White Lead (Brandram's Genuine B.B.)
30% Pure White Zinc
100% Pure Paint

The kind we guarantee to possess as its important base, the above correct formula. This formula, printed on every can, and guaranteed over our President's signature, commits us to this standard. High in cost as white lead has become, we must use it in the same proportion as heretofore. To use less of it, would necessitate the removal of the guarantee from our cans—and to do that would injure the reputation that these paints have acquired by reason of their superior ingredients. It is by using pure white lead and pure white zinc in such liberal quantities that we have been able to produce a paint that truly excels in covering capacity—and that stands the severe "climate test" of Canada in a way that spells true economy for all who use it.
