From now forward silver stocks will command greater interest among

. The absorption of the white metal by Europe is proving a material factor in keeping the price of the metal close to the 70 c. mark, but the proepective buying promises to establish materially higher figures. A country-wide boom in silver securities seems inevitable. It should parallel the interest in copper during the past two years.

And, pursuing the policy that enabled our clients to take full advantage of the sensational movement in coppers, namely directing attentage of the sensational movement in coppers, namely directing attention to these issues before the great investing and trading public fully appreciated their possibilities, we recommend the silver situation be closely studied.
