Domestic Accident
A man named Dowie was seriously injured yesterday afternoon on 3rd below lower Dominion hillside claim owned by Mrs. Weisman. The unfortunate miner was working under a flame which crosses the claim when one of the braces gave way from the weight of its supporting boxes, striking him on the side of the head, and tearing his face in a frightful manner. The blow struck him on the left side, breaking one of the nasal bones and blinding him in the eye, impairing the rim of the orbit. Dr. Bell attended the stricken man. He will recover and is now resting comparatively easy.

On Second Avenue.
Sargent & Pinsky, the well known clothing store, are now to be found at their new location on Second avenue, opposite the S. Y. T. Co. The present location is fully twice as large as their old quarters and gives an opportunity to the firm to make a fine display of their handsome new importations of which they have received large invoices in the past few days.

Law Remains in Force.
The law regarding the tying up of dogs is still in force, though not so rigidly obeyed now as a few weeks ago. Now people just turn their dogs loose; eagerly long to enable them to take exercise in the neighbors' gardens, full on sweet pea shoots and otherwise cause staid and steady people to sweat like the mate of a deep water wind jammer.
