#### GUELPH SUCCESSION

TO THE THRONE ASSURED BY FOUR  
STURDY LIVES.

The Present Heir Apparent is H.R.H. the  
Duke of Cornwall and York and if he  
succeeds his title will be George V.  
—Other Living Princes in the Direct  
Line of Succession.

Four sturdy lives stand between  
His Majesty King Edward VII. and  
a possible lapse in the succession of  
the house of Guelph to the British  
throne. It is a comfort to know  
that the dynasty, that now reigns in  
Great Britain is of a long lived and  
prolific stock. For two generations  
at least the succession in a straight  
line is assured, and it seems likely  
that the present royal family of the  
"tight little island" will long con-  
tinue to reign.

The present heir apparent to the  
British throne is George Frederick

DUKE OF CORNWALL AND YORK.

Ernest Albert, Duke of Cornwall and  
York, who, when he assumes the  
reins of government, will be known  
as George V. He was born on June  
3, 1865, at Marlborough House, the  
London residence of the former  
Prince of Wales.

The Duke of Cornwall and York is  
not yet the Prince of Wales, and re-  
ference to him as such is somewhat  
premature. That title does not de-  
scend by right to the eldest son of  
the sovereign, but is conferred on  
him by royal patent. Edward VII.  
was made Prince of Wales when he  
was 4 weeks old, and he will no  
doubt in the near future confer the  
same title on his son. The Duke of  
York is the second and only surviv-  
ing son of His Majesty, the first  
having been the Duke of Clarence,  
who died in 1892.

At the time of the death of the  
Duke of Clarence he was affianced to  
Princess May of Teck, and soon  
thereafter rumor connected the  
names of the princess and Prince  
George. Queen Victoria heartily ap-  
proved of the match, and the young  
couple were married on July 6, 1893.  
They have four children—three sons  
and a daughter—Prince Edward,  
Prince Albert, Princess Victoria and  
Princess Henry.

The Duke of York has been known  
as "the sailor prince" of England,  
for he was educated for the royal  
navy and has served in it for many  
years. He entered the navy with  
his older brother in 1877. He began  
as a cadet and advanced through all  
the grades in regular succession. In

PRINCE ALBERT AND PRINCESS VICTORIA.

1899 he obtained his first command,  
a torpedo boat, and his latest com-  
mission was as commander of H. M.  
S. Crescent.

The heir apparent is about 5 feet  
6 inches in height. He wears a full  
fish naval uniform. In his manner he  
is kindly, gentle and unassuming.  
He bears a striking resemblance to  
his first cousin, the Czar of Russia.

The eldest son of the Duke of York  
is a happy, healthy youngster of 64  
who does not let the fact that there  
are only two lives between him and

the throne stand in the way of his  
thorough enjoyment of existence. He  
is typically English in appearance,  
sturdy, blue-eyed and light haired,  
with a beautiful complexion. His  
good looks are shared by his two  
brothers and their sister. Prince  
Albert is just over 5 years of age,  
Princess Victoria is not quite 4,  
while the baby of the family, Prince  
Henry, celebrated the first anni-  
versary of his birth in March.

PRINCE EDWARD OF YORK.

The English papers abound in  
stories about the royal grandchild-  
ren and pictures of them. According  
to the most recent account, Prince  
Edward is a "great pickle"—what  
we would call a "mischievous little  
chap"—Prince Albert is "a fine,  
healthy little fellow," and Princess  
Victoria is "a charmingly dainty lit-  
tle child, with a delicate complexion  
and dainty ways."

Prince Henry is of course too  
young to have attracted the admir-  
ing attention of British biographers.  
He was born at about the time of  
Queen Victoria's visit to Ireland.

#### LINLITHGOW PALACE.

Famous Ruin to be Restored as Scotland's  
Memorial to the Late Queen  
of Great Britain.

In a speech at Edinburgh Lord  
Rosebery proposed that the Scottish  
memorial to Queen Victoria take the  
form of the restoration of Linlith-  
gow palace, the most historic ruin  
in Scotland.

Linlithgow, the birthplace of Mary  
Stuart and the home of traditions  
and ghosts, had its beginning in  
1300, when Edward I. of England on

LINLITHGOW CASTLE.

one of his campaigns in Scotland  
erected a fortified camp on the site  
of the castle. The English occupied  
the fortification until 1307, when a  
Scotch peasant of the name of Bin-  
noch and seven followers of Bruce  
secured entrance by hiding them-  
selves in a load of hay which was  
allowed to pass uninspected into the  
castle. They captured the place and  
were rewarded by Bruce with rich  
lands.

In the reign of Edward III. the  
castle was again in the hands of the  
English, and in 1424 it was partly  
destroyed by fire. After the suc-  
cession of the Stuart family Linlith-  
gow became a fixed royal residence,  
and the Scottish kings were wont to  
deed it to their consorts. James IV.  
and his immediate successors im-  
proved and enlarged the castle, and  
with them it was the favorite resi-  
dence. The degeneration began in  
1746, when the castle was abandon-  
ed to the use of soldiers as a barrack  
and was accidentally set on fire.

The old ruin is all of polished  
stone and covers an acre of ground.  
Many fine examples of sculpture and  
decorations are in a fair state of  
preservation, and a pile in the cen-  
tre of the inner court is still dis-  
tinguishable as a fountain. The par-  
liament chamber in which Mary  
Stuart first saw the light of day on  
December 8, 1542, is an object of  
much interest to tourists.

#### Getting Even.

Westfield—I got even with that  
mean cad Lawmno-to-day.

Plainfield—That so? How?

Westfield—I pretended to make up  
with him and told him to save a  
seat alongside of him in the train  
for me. Then I missed the train.

As long as he lives everybody in  
that car will consider him a liar  
and a hog.

#### Army Officers as Linguists.

In the United States regular army  
Spanish is spoken fluently by 304  
commissioned officers, French by 224  
and German by 136. Twenty-three  
officers speak one or more of the lan-  
guages of the American Indians.

#### THE WELSH DRAGON.

Gallant Little Wales Desires of Being  
Represented on the National Coinage  
and the Royal Standard.

Gallant little Wales as a munici-  
pality of the United Kingdom is very  
desirous, now that King Edward has  
ascended the throne, to be represented  
on the Royal Standard and the  
National coinage, says Lloyd's Scot-  
land has its lion, Ireland its harp,  
and the Welsh peers and commoners  
who met at the House of Commons  
recently to consider the subject were  
unanimous in their decision that the  
Red Dragon would best typify Wales,  
and resolved to present a memorial  
to the King on the subject. The  
Welsh Red Dragon is a fearsome-  
looking beast, not unlike the Im-

THE WELSH DRAGON.

perial Dragon of China, save that it  
has a sturdier aspect. It was a  
"supporter" of the Royal Arms from  
the time of Henry VII. till the end  
of the reign of Queen Elizabeth, and  
was shown on a white and green  
ground, the colors in the House of  
Tudor. The color of the dragon is  
bright red shaded to gold, and it has  
a Royal blue tongue surrounded with  
lambent flames. Henry VII. adopt-  
ed the Red Dragon for the device of  
his standard at the battle of Bos-  
worth Field. It was the ensign of  
Cadwalader, the last of the British  
Kings from whom the Tudors de-  
scended. Our sketch is from the old  
heraldic devices in which the Red  
Dragon appears as "supporter."

#### THE OLDEST FAMILY.

The Line of China's Greatest Philosopher  
the Most Ancient.

Confucius, the founder of the Con-  
fucian religion of China, lived 551  
to 478 B. C. He was contemporary  
with the Tarquins of Rome, Pytha-  
goras of Greece, and Cyrus of Per-  
sia. His descendants form the aris-  
tocracy of China and have always  
enjoyed high privileges. There are  
still some forty thousand of them,  
seventy generations removed from  
their ancestor, this being the oldest  
family in the world. There are six-  
teen hundred and sixty temples dedi-  
cated to the memory of Confucius,  
or Kung-Fu-Tsee, in China, the largest  
covering ten acres of land. He is  
the patron saint of that vast em-  
pire, and the doctrine he promulgat-  
ed forms the State religion of the  
nation, sustained by the whole pow-  
er of the Emperor and the literary  
body. Yet it is a religion without  
priests of liturgy. Morality and re-  
verence are its chief characteristics.

Reverence for parents, or the aged,  
was as imperative in his teaching as  
a reverence for the Deity; and the  
golden rule in its negative form is  
found in his writings. "Do not unto  
others what you would not have  
them do unto you." The religion of  
Confucius is an ethnic religion, or  
one confined with the boundaries of  
a particular race or family of man-  
kind. It belongs to China and the  
Chinese. It has been their State re-  
ligion for some twenty-three hun-  
dred years, and it rules the opinions  
of four hundred millions of men.

#### Towne—Has he sent you a check for your services?

Browne—Yes, but it isn't for the  
amount I expected, although I sent him  
a bill.

Towne—Your writing's bad. Maybe  
he didn't decipher the amount.

Browne—I'm afraid he did decipher  
it. I wrote \$100 very plainly, and he  
sent \$10.

EMISSIONS, SYPHILIS AND VARICOCELE CURED.

Thousands of promising young men have  
their lives and future usefulness wrecked by  
early indiscretion and private diseases. Self-  
 Abuse is a terrible habit. The symptoms, un-  
til cured, are portrayed on the countenance  
and in the actions of the victim. If neglected  
or improperly treated, other organs become  
affected, and sooner or later impotency or  
complete Loss of Manhood is the result. Our  
New Method Treatment will positively cure  
these diseases.

give this testimony for Drs. Kennedy & Ker-  
gan to publish in gratitude to the noble work  
done for me by them. I was a physical and  
nervous wreck. Self-abuse was the com-  
mencement of my downfall. At the age of 22  
I had Varicocele, Emissions, Stricture and  
Syphilis. I tried with doctors in New York, Chicago, Boston and Cleveland, but got  
no benefit. I then tried a specialist here with the same result. A friend confided in  
me that he had been cured by Drs. Kennedy & Kergan, and I resolved to try them. The  
result was as magic. My nervousness disappeared, emissions ceased, eyes grew  
brighter, varicocele disappeared, pimples and 'clews' healed up, hair grew in again,  
bone pains vanished and I gained 15 pounds in flesh. A new life has opened up to me,  
and I can never repay as I owe Drs. Kennedy & Kergan."

## Bronchitis

Powley's Liquefied Ozone Cured Thos.  
Bawden, Berlin, of this Trouble.

"BERLIN, ONT.

"The Ozone Co., Limited:  
Dear Sir:—It gives me great pleasure to give you my testimonial of  
the really great merits of Ozone. Our little boy two months old had  
bronchitis very bad. I met your agent and he gave me a bottle to try  
on him, and before he had finished it, we perceived a great benefit  
and in three days he was cured. In the same week our little two-  
year-old girl took the medicine, she recovered in a speedy and most  
satisfactory manner. I consider your medicine a Godsend, for I  
have never seen anything like it, and I am using it now myself with  
the best results, and though I have spent \$20.00 on inhalers and  
catarrh remedies, yet I have never met with the same results as I  
have with the two bottles of Ozone I have used. (Signed) Thos. Baw-  
den, Berlin, formerly 355 Berkeley St., Toronto."

Throat trouble, colds and bronchitis are prevalent  
disorders this time of the year. In themselves they  
amount to very little—maybe a passing discomfort.  
It's the after effects that are alarming. We have  
given testimonials where patients have been cured  
of the after effects—lung trouble and consumption—  
by Powley's Liquefied Ozone, the condensed oxygen  
treatment. This case shows its effect on the other  
or milder types. The best thing you can do is to  
get a bottle and use it as a preventive.

It only costs a dollar, and it's surer than medicine  
a good deal. Ozone is Life.
